AGAINST THE BOND BILL

George Hicinbotham Advises All tax payers to Vote it Down

Editor Courier:-Every voter in Clackamas county

both women and men, and in city and country, want to study this bonding bill, for bonding the county for bill, for bonding the county for \$600,000 to build hard-surfaced roads with, which will come up before the people on the 15th of May, for their approval or rejection. The interest and sinking fund on these bonds will and sinking fund on these bonds will have to be paid every year by a spec-ial levy on all the property in the county, both in the cities and coun-try alike, every dollar's worth of property in the cities will have to pay just the same as every dollar's worth in the country, and about the only ones in the cities that will ever see them or ever use them, will be just these who have autos and they just those who have autos, and they are not what the farmers want at all

A good crushed rock road, nicely dressed on top, and then attended to dressed on top, and then attended to and kept in repair, is five times more desirable for the farmers than a sleek, hard-surfaced road, which a team can neither pull a heavy load on, nor hold it back, when the road is wet or frosty. Beside that, the first cost of building the hard-surfaced roads will be about double what the crushed rock road would cost, and ke ping the crushed rock road in or-der would not cost one-fourth as much per mile as the interest on the bonds would cost us per mile on the bonds would cost us per mile on the hard-surfaced roads. The interest hard-surfaced roads. The interest on the bonds would cost us from \$300 to \$500 per annum for every mile of hard surfaced road that is built with those bonds, to say nothing about the The following patriotic, self-sac-rificing medical doctors have thus far offered themselves as willing

those bonds, to say nothing about the up keep of that road. Whenever we vote to bond the county to build these roads, we, and the county court are at the mercy of the contractors. The work has to be let to the lowest responsible bidder, and the lowest bid may be \$11,0000, at 10 000 ac enter mere mer will like For Governor-Dr. James Withy-combe, Dr. Charles J. Smith: for Congress-Dr. Elef Berglund; for the legislature-Dr. Cora C. Talbott, Dr. A. K. Higgs, Dr. Andrew M. Smith or \$12,000, or even more per mile like it cost Jackson county. Then what can the court do?

can the court do? It looks to me the way the law is, that it will just have to take its med-icine and no taxpayers foot the bill. The work has to be done by contract. Will these doctors kindly state to the voters of Oregon who they rep-resent and what they represent and

resent and what they represent and why there should be such an epidem-ic of one class of doctors anxious to dabble in politics? Dr. Higgs has frankly stated that he stands for the making of "hygienic laws," which, interpreted into plain, English means that he stands for such drastic med-ical laws as may be put forth by the medical trust. If these doctors are capable and competent to earn then living at medical practice is it now asking too much of them to sacrifice their lucrative practices in order to draw down 60 days' pay as a mere legislator? This is indeed asking too much of them and no self-respecting-citizen has a right to ask or expect There is another feature of the bonding business that is very dan-gerous. We have had no experience with the kind of surfacing that they will use, in this climate. Portland intends experimenting on a small scale with several different kinds of hard surfacing on a piece of their road that has the heaviest traffic ow it. That will give them the cost per mile of each different kind of surfacing and also its wearing quali-ties. That will be a practical illus-tration to the court, and also to the taxpayers. I think this county should do the same thing before it citizen has a right to ask or expect hits us so heavy, just as an experiment.

citizen has a right to ask or expect this. If they are political incompetents and are not able to earn a living at practice, are they competent and fit to make laws for the people? Like Hashimura Togo "I ask to know" My friends and voters, these are the facts:—The American Medical Association is planning a desperate fight in every state legislature this year, first to bind the shackles of medical ignorance more tightly than Turn out to the polls, every mand woman, and kill the bond bill. George Hicinbotham.

THOSE RESOLUTIONS

Stark Thinks Societies got in Wrong on Rural Credits

If a raw back-woods-man under-took to discuss the higher branches took to discuss the higher branches of study with a man who had his mind finished at a college, he would no doubt make a circus of himself. Likewise if a Rutabago Rube under-took to discuss political economy with a statesman of the first water he would find himself if a mage of with a statesman of the first water he would find himself in a maze of therios and a vividness of termin-ology so as to be utterly lost. So the best thing for us of the common mold to do when those men whom God in his infinite wisdom has or-dained as judges for our stumbling feet when they hand us down some-thing, is to take it according to di-rections, smack our lips and not make a wry face.

Under a Portland date line of April 5th, this year of grace I am informed by the press that a joint committee representing the State Grange, Far-mers' Society of Equity and State Federation of Labor, had met and resolved upon the popular question of farm credits or perhaps more prop-These very gifted persons evi-dently foresaw the necessity ****** properly label their close association with the grimy-handed sons of the soil, otherwise we who live in the tall uncut would perhaps, from reading their resolutions, have that them to be the American Bankers' Associa-tion, the ancient order of Loan Sharks, the Amalgamated order of Usurers, and the original order of Foreclosures. It is hoped these precious eight resolutions have been engraved upon vellum-post and will be embalmed later and sent to the Smithsonian Institute, where in the course of time they may be brought out to take the place of the historic document which begins "When in the course of hu-man events," etc. I would suggest to this altrurian committee that they preface their memorable declaration with the words "When in the case of dollars and cent.s" (No charge is made for this suggestion. We be-lieve that the marketing of bonds, sepecially for the western states, would require a federation of state institutions, with an office in New York. (Wall Street I suggest) or Washington D. C." reads in part No. 4 of this precious octavo of resolu-tions tions.

LOOKING FORWARD GO SLOW ON BONDS Conditions as Mr. Clyde sees Them Robert Schuebel Shows a Better Way in the Year 1934 than Voting Bonds

than Voting Bonds Eldorado, Ore.

For some time I have been on the fence about the bond issue for road

purposes, knowing that it is impos-sible to build roads without lots of money to advantage. I felt like voting for the bonds. \$600,000 is noth-ing for this county as to a burden as one day's work would cover the ex-pense for the average taxpayer, or less at two dollars per day.

Good roads doctrine is in the air

Good roads doctrine is in the air and here to stay. There is no differ-ence of opinion as to that point. But the methods of raising the money and spending same is still unsettled. We are still in the pioneer stage, and it is foolish to jump too fast at any old thing that some men figure out on paper. Remember the old saying that figures don't lie, but you can lie with figures. We have his money back. In conclusion think of the follow-ing and figure on it:

ing and figure on it: Rags make paper; paper makes The statement was made by money; money makes banks; banks makes loans; loans make poverty; prominent attorney at the road dus-cussion last Tuesday night, that mac-Poverty makes rags. adam roads cost one thousand dol-

lambs for the slaughter awaiting

Ever Changing Theories

Dr. John B. Murphy, High-priest of the A. M. A. and recognized as the chief carver in America, said a the chief carver in America, said at the meeting of the A. M. A. at At-lantic City in June 7, 1912, eighteen months ago:-"at the present time our knowledge of vaccines is EX-TREMELY LIMITED and they are very dangerous and wicked weapons to play with. A life could be snap-ped out in forty seconds by the improper use of vaccines (serums)" Yet in December, 1913, Dr. Murphy stated in the Milwaukie Journal:---"Our great effort is to find a means

of curing without resort to the gross-er and cruder methods of treatment OF WHICH SURGERY is the acme. Serum and antitoxins are going to take the place of the knife and the saw and the research laboraory will be the physical salvation of the

race." This is a sawmple of the eternal rot*eness of the medical profession Here is a man who is acknowledged by the faithful to be the leading M. D. of America who warns people against serums one day and in eighteen short months tells them that se-rums are their salvation. Can people have confidence in such doctors who change their theories with the winds? Still, these very same doc-tors are making the last and most desperate efforts of their lives to get

control of the lives of all the people and make serums a "preventive medicine" compulsory everywhere. How do you like it?

MAPLE LANE

George Derrick and Rudolph Bur-man are home on a week's visit from Winsor, Cal.

Edgar Smith was visiting in the Lane last week.

A party was given at the Grange hall last Wednesday evening in hon-or of Miss Francis Schmidt, who was ome on a visit.

8

You ought to see the number of people out to Equity meetings late-ly. Why don't you come?

Mrs. Smith and Mrs. Comstock, who have been visiting at the home of P. F. Smith, have returned to the former's home in Seattle.

A very pleasant surprise was giv-en Mr. and Mrs. G. W. Cove at their home last Saturday evening by the members of the Ladies' Club and their husbands.

Nine of the young people of the neighborhood joined the Maple Lane grange last grange day and there are expected to be more to follow.

E. W. Homedale has received another new title. It has just leaked out that he is a near relative of the

"king." What is the matter with Homedale? We have not heard from them for several weeks. Williard Purce expects to return

to California this week. The school boys here are all pre-paring to win first prize in racing at the field meet at Gladstone Park. H. A. Heater nearly lost his hand last Saturday as the result of a premature explosion.

We did not see any of those "hard working" gentlemen with stove-pipe hats and swallow-tailed coats work-

ing on any of the roads of this vi-cinity, on the State Road Day. C. W. Swallow caught a salmon in the river last Friday.

The discussion at the Equity meeting May 6th will be "Rural Credits." Let's have a big turnout.
