San Francisco knows enough to own its own street railroads and other municipal money makers. That's the reason for low taxation.

Ward Lawton of Mt. Pleasant was elected precinct committeeman for both the Republican and Democratic parties, and also was high man for justice of the peace. And Meredith says the Socialists will keep up with the procession and hand him something at their convention. He was recently elected secretary of the county fair.

Congress fixed the rate as two cents per mile, and then fixed it at 20 cents per mile, and then fixed it at 20 cents per mile for congressmen to and from the capitol. The absurdity of this any man can see. There is absolutely no defense of the plain graft. And yet our congressman Hawley, voted yes on the amendment.

Mr. Hawley has been nomi-nated by a large vote in the First District as a reward for his industry and fidelity—Oregonian.
"Industry and fidelity"—this is certainly the place to laugh.

#### THE LEECHES

Here are a few of the commissions and boards the legislature has dumped onto Oregon that the most of the people are not familiar with, and the most of which we could get along without and the government of Ore-gon would still live: Board of Inspection of Child Labor. Bureau of Labor Statistics,

State Desert Land Board. State Water Board. Bureau of Mines and Geology. State Land Board. Board of Sheep Commissions. Stallion Registration Board. State Livestock Sanitary Board. Board of Portage Railway Commissioners.
State Railroad Commission.

State Board of Immigration Com Sailors Boarding House Commis-Commission to Investigate Rural

State Board to examine nurses. State Tax Commission.

State Naval Militia.

There are many others. The necessary ones in this list could be bunched up and two or three commissions handle them without violative than the bunched with the state light have law ing the state eight hour law.
