Official Paper for the Farmers Society of Equity of Clackamas Co EDITOR

M. J BROWN,

Something like two years ago Pres. Taft pardoned Charles W. Morse from prison, so he could die at home. Do you remember reading any death notice?

Police Lieutenant Becker has again been sentenced to death. The Courier's guess is he will never be electrocuted; that when it comes to the chair he will squeal on the higher-ups and escape death.

The Richmond, Cal., Herald says: Des Moines, Iowa, having exhibited a satisfactory bank statement, Billy Sunday is going to hold a revival

"Who shall decide when doctors and Withycombe a horse doctor, and both will presently tell you Oregon will go to the bow wows unless they are elected.

What ever became of that proposed initiative measure to limit the legislative appropriations to four mills? Doubtless this was one of the vote-catching propositions of a de-feated candidate.

Typhoid has again broken out, and first case has resulted in death. "It isn't the water," any number will assure you. Perhaps not, but it always is slop-drinking cities that get the fever, just the same.

The Woodburn Independent says the vote against road bonding in Marion county was so large that the county seat papers would not pub-lish the figures. Perhaps the same reason kept the figures out of some Clackamas County papers.

Just why Oregon hop men should be so worried about their business is not clear. Very few of the hops grown in this state are used here. There are only \$600,000 worth of hops raised in Oregon annually.—Mt. Scott

A few years ago the price of hops went so low that many a field in the valley was plowed up because there was no money in raising them. The was no money in raising them. The growers went to raising other crops. They didn't yell "ruin," "confiscation" or accuse the markets of restraining their "personal liberty." Oregon can raise almost any crop grown in the United States and the loss of a helf william. loss of a half million in hops won't

Feel sort o' crossways these days, as if you were in wrong and as if you wanted a mouthful of shingle nails to chew on? It's a clear case of needing physic and a piano tuner. You can get a handful of Epson's for a nickle at Jones' apothecary shop (no charge for this, Linn,) and naure will tighten up your strings and you will come home feeling so mighty good you will answer your wife or children without barking them. wife or children without barking at them. At this time of year a man is a whole lot like a bear who has death and the business of the state than the busine He's cross, stale and hungry, and Nature tells him to hot-foot around for a change of environment. Nothing like a day off in the woods, at this writing, and you'll come home tickled to death that you're living. Keep the change.

Dr. Withcombe should be elected governor of Oregon, but there are many obstacles to overcome if it is done. In the first place Dr. Smith is an opponent that will have the full strength of his party as well as quite a Republican following, though prob-ably not as large as West's four years ago, while the womens' vote will go largely to him on account of his inheritance of West's policy of spec-tacular and dramatic methods of law enforcement, which naturaly appeals to the femine element of the elector. ate. In the next place, U'Ren with his \$15,00 exemption law, will un-doubtedly get a large grange vote which would otherwise have gone to Withycombe. He will also draw largely from the Republicans among those who favor changes in our present governmental forms, such as the abolition of the State senate. The case of the Titantic, a majority In fact he will probably get the support of all the radical elements of the party to the detriment of Withy-All of which catches the Republican candidate both coming and going. Only the most strenuous exertions to maintain the unity of the purty will bring success to the Republican candidates. No milk and water campaign will win this fall. Every Republican interested in the defeat of Smith should get to work now, for the fight is going to be a hot one.-Aurora Observer.

Democratic puzzles of this state.

They have everything to gain, and they couldn't lose anything by the system if they tried to.

In fact any and every party in Oregon, except the Republican party, has all to gain and nothing to lose through proportional representation, and it seems so strange those who would gain would not work for the initiative bill.

Today we have one party legislation in Oregon. The state legislature is almost made up of Republicans. The party is in absolute control, and the present state of extrapublican party's direct handiwork.

Proportional representation would give Clackamas county representation in the process of this state.

It would give the Prohibitionists a hand in state legislation, and we all know Oregon would have better government if there were a lot of such hands in our legislation.

CASTORIA \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it falls to cure. Send for list of testimonials.
