Years ago the gullible people of Oregon voted and paid in taxes hundreds of thousands of dollars for a free locks canal up the falls here. And it seems mighty strange that this matter could be held up all these years and the taxpayers of this state deprived of the money, the interest on it, and the open free river for which they furnished the money. Some power should smoke out the interests that are holding up this for honest elections and for honesty of candidates, instead of keeping hushed up the candidate for the highest office in the state who was the newspaper who would stop the buying of nominations, have printed the name of this candidate in black letters and held him up to the interests that are holding up this project and allowing the Southern Pacific to have a monopoly of shipments up the valley. The Oregonian is horrified that "a candidate for governor" greatly exmary campaign the amount of mon-ey allowed him under the corrupt practices act. If the Oregonian has any evidence that any candidate for office spent more in his campaign than the amount permitted by the corrupt practices act, it is the duty of that great compendium of wisdom to turn this evidence over to the district attorney, and to demand that the candidate be prosecuted. The corrupt practices act was made a law to be enforced, and if the Oregonian thinks it is thinks it is being constantly and recklessly violated, and has evidence of such violation, its duty is plain. This should be a clear case of put up or shut up.

State commissions are all right as long as they prove a source of more revenue than expense. If we had state life and fire insurance, with a commis-sioner at the head of such a de-partment, there would be little no state taxes .- Woodburn

Independent.
Hum! Rather loose reasoning. If a commission takes in more than it pays out, it is a needed commission, regardless of what the duties or how much the expense. However, we thoroughly agree with the Indepen-dent that state fire and life insur-ance would be a splendid asset to Oregon, perhaps not in the lowering of state taxes, but in greatly lowering of state taxes, but in greatly lowering the assessments that almost every home pays to big companies in the way of excessive premiums. What does Oregon owe to the east that it should send out a stream of gold every year for insurance that the state could just as well provide at cost to its citizens?

#### BALLOONS AND THINGS

One of our "constant readers"-or maybe it was Jro Bono Publico-askmaybe it was Jro Bono Publico—asked us the other day if we were going to have some remarks on balloons in this week's Courier. He
said all the other papers had expressed comments as to ballooning. We
told him that, such being the case,
we would be glad to get into line and
say something about balloons too. So
here goes. ere goes,

The other papers, and the Associated Press and also the United Press, have had much to say about the terrible wilderness in which the unfortunate balloonists lighted. These reports have gone back east, and most of them have mentioned that these aeronauts have had terrible The Enterprise had an editorial times right close to Oregon City, Beaver Creek or other centers of civ-ilization. It is also remarkable and worthy of comment that each balloon so far has been salvaged by an automobile. Autos are not naturally wilderness-roaming beasts—they need roads and clearings in which to maneuver. We trust these remarks on balloons we have met and heard about will saitsfy our "constant reader." They are the kindest things we can

### NEITHER WORTH WHILE

The Jefferson Review, Democratic, sizes up the two party candidates for governor in this cold, cruel way:

We lost out on Bennett, much to our regret, and we believe that thereby the Democrats lost the governor of Oregon, for Bennett would have been elected. It is our opinion that both the Democrats and Republicans nominated their weakest candidate for governor. Smith seems to know nothing more than to promise to carry out the poli-cies of West. Withycombe is foreign born and has been hanging onto the public crib ever since he took out his naturalization papers so that Gov. Pennoyer could make him boss hoss physician of Oregon. Neither of them are worth the trouble of scratching the other one for. Dissatisfaction is freely ex-pressed by members of both parties.

Supporting Hawley on the argument that "he has the Republican nomination in a Republican year" is positive work. When the appropriation for public elevator was submitted to the people a year and a half ago, the qualifications for a voter were that he had lived six months in the state and 30 days in the election district.
