Whether or no such a curse was ever cast upon the island, it is certain that St. Helena is doomed if not to extinction at least to become an uninhabitable rock. With the advent of steam navigation the island ceased to be a regular port of call, so that its always scanty exports dwindled almost to the vanishing point; plagues of insects destroyed its vegetation; rats, brought thither by foreign vessels, multiplied and overran its soll until the government was compelled to offer a bounty of a penny for every rodent captured. Then the English garrison, which had been practically the sole source of income to the inhabitants, was withdrawn, and the needs of the natives became desperate.
