There are few localities in this latitude that can compare with a western Oregon winter. Everything is green (always is green), carrots, turnips, onions, cabbage, lettuce, celery and radishes can be gathered daily from the gardens; the buds are swelling and there has not been a frost since Christmas.

We understand there is a movement under way to organize an athletic association in this city and equip a first class gymnasium. It is a movement that should go and will go if properly taken hold of. A good gymnasium is a health factory and no city of this size should be without one. A large enough class could be easily organized here to be made self sustaining at a small cost.

There are a few mild cases of smallpox in this city, but the people no longer become excited over the disease. It is much harder to enforce quarantine than to cure, the cases and much more painful to endure vaccination than small pox. Time was once when the very name was dreaded, but today it is considered less fatal than whooping cough or measles, and the dread of quarantine is worse than the dread of the disease.

Have you heard of the late afternoon service at the Congregational Church? At five o'clock every Sunday a unique vesper service is held, at which one idea dominates the address, music and all parts of the service. The twilight is an excellent time for parents to come with their children, and for those who are not, to fill in the early part of the day to enjoy an hour of worship. Those who live out of town can attend this service and still reach their home early in the evening. Strangers in the city are cordially invited to spend this hour at the Congregational church. The Pastor is giving a fifteen minute talk on Days and Nights in the Life of Jesus, as drawn from the gospel of John.

Thanks Returned
It is to be regretted that the firm of Bannan & Co. did not appear on the list of donors to St. Agnes' Baby Home for Christmas. It surely was an oversight as the firm has always been extremely kind to the little orphans in sending both clothing and provisions and the Sisters are deeply grateful for their generosity on all occasions.

The Devil's Product—the Tyrant
A tyrant is a creature who has no respect for his fellow man, and is close to the brute creature.

The spark of divine love comes from God the eternal love. God gave man dominion over beast, bird and fish. Why make a slave out of your fellow man?

God took the talent from each animal and fashioned man. Every beast, every bird, every fish must yield up its treasure to mankind.

Some time the devil breathes into the nostrils of man and gets possession of his soul. Beware of Belzebub with his instruments of evil.

Gladstone Odd Fellows Celebrate
Chautauqua Lodge I. O. O. F., kept open house Friday evening when the Odd Fellows of Gladstone and their wives, daughters and sweethearts entertained in honor of Henry S. Westbrook, Grand Warden, and E. E. Sharron, Grand Secretary. The Misses McMillan furnished the musical part of the program. Rev. R. A. Dunn recited and the speakers for the evening were Henry S. Westbrook, E. E. Sharron, William Hammond and Abraham Nelson. Wallace Calkins presided. At the conclusion of the program refreshments were served wherein embalmed cucumbers played an important part, Abe Nelson, a new resident of Gladstone and the only single man in the crowd, being appropriately dubbed "Pickles." Those who know Abe hope the appellation will stick.

Why Should We feed the Belgians?
Twenty thousand million dollars in "good" securities are held in the United Kingdom—mostly, I suppose, in London. The interest on this at 5 percent would amount to 400 millions a year. This interest is taxed on the United States, Canada, Australia, Africa and other places where English capital is invested.

The London and Paris bankers started the war in Europe by lending money to equip Russian armies to invade Germany. This is indirectly admitted in an editorial in the Sunday Oregonian of Dec. 20. The allies then incited the foolish Belgians to fight the Germans while they kept back in the rear. It was like throwing a baby to a bear.

As a consequence 7,000,000 Belgians are starving. It will require \$5,000,000 a month barely to keep them alive. Five dollars a month for seven persons is barely enough. The English bondholders collect over thirty millions a month off their foreign investments. The war was pulled off to increase this debt. Why should not the London bankers feed the Belgians out of the income from this unholy debt? It would only take a small part of it and outsiders pay it anyhow. Why beg more money from America on top of the interest we are already paying them? Will anyone be kind enough to explain?
J. L. Jones.

GLADSTONE W. C. T. U.
The Gladstone W. C. T. U. met at the home of Mrs. Moulton at Fern Ridge on Friday Jan. 8, 1915. On account of bad weather, only a small portion of the membership were present, a fact to be regretted, as the presence of our county president, Mrs. Andrews, and Mrs. Olmsted,

president of the Oregon City Union, added greatly to the interest of the meeting.

After the opening song "Work for the night is coming," the president, Mrs. Moran, read the 124th psalm, and Mrs. Andrews led in prayer. She also read a letter from our state president as published in the "Review" which was much enjoyed by all who were present. She then announced the institute to be held in Portland on Jan. 21st, urging members to be present as far as possible.

Mrs. Olmsted sang "It's a long way to prohibition" and the meeting adjourned to meet in two weeks. A full attendance is desired and a cordial welcome extended to visitors. The place of meeting will be announced later.

Another murder has been committed in our state by a man under the influence of strong drink. Another wife bereaved, another home made desolate. One more evidence of how the saloons rob and wreck, and kill in all the land.

We hope and pray that unqualified success may attend the efforts of the "Drys" all along the line, and that prohibitory laws may be enforced everywhere.

"To day as never before, the spirit of prohibition is in the air. The aim of to-day's civilization is to prohibit or destroy any thing which is dangerous to the life of the people."

"While we heartily approve of the 'do everything' policy of the W. C. T. U., we recognize the fact that we were organized to push total abstinence and prohibition, and we reaffirm our allegiance not only to these principles, but also to the prohibition party, as the only political party with the courage to speak out boldly in favor of woman suffrage and the total annihilation of the liquor traffic."
