

"You Are Just as Old as Your Spine"

VEN back as far as Caesar's time this saying was used. In later years, men substituted for the control of the c was used. In later years, men substituted for it-"A man's just as old as he feels." Taking the two, and combining the meaning, we have the true expression and CHIROPRACTIC interpretation-

"A MAN'S JUST AS OLD AS HIS SPINE ALLOWS HIM TO FEEL."

The spinal column is the main conduit through which the nerve cables pass from the brain, and from which the tiny feeders are distributed to every portion of the body. If through abnormal curvature, the bones of the spinal column obstruct the free flow of the health-siving currents from the brain to the bodily organs, disease results in the organs so affected.

The Chiropractor adjusts the cause of the trouble, removes the pressure on the nerves without the use of Drugs or Knife. This allows Nature to build up the diseased organs or tissues.

Health Is Normal. Disease Is Abnormal If there is any abnormal condition present in your body which is causing you suffering, let Chiropractic bring back

### normal conditions so you may again enjoy good health. DRS. STONE & HOEYE CHIROPRACTORS

By Peter Radford

Lecturer National Farmers' Union The farmer gets more out of the fair than anyone else. The fair to a city man is an entertainment; to a farmer it is education. Let us take a stroll through the fair grounds and linger a moment at a few of the points of greatest interest. We will first visit the mechanical department and hold communion with the world's greatest thinkers. You are now attending a congress of

the mental giants in mechanical science of all ages. They are addressing you in tongues of iron and steel and in language mute and powerful tell an eloquent story of the world's progress. The inventive geniuses are the most valuable farm hands we have and they perform an enduring service to mankind. We can all help others for a brief period while we live, but it takes a master mind to tower into the realm of science and light a torch of progress that will illuminate the pathway of civilization for future generations. The men who gave us the sickle, the binder, the cotton gin and hundreds of other valuable inventions work in every field on earth and will continue their labors as long as time. Their bright intellects have conquered death and they will live and serve mankind on and on forever, without money and without price. They have shown us how grand and noble it is to work for others; they have also taught us lessons in economy and efficiency, how to make one hour do the work of two or more; have lengthened our lives, multiplied our opportunities and taken toll off the back of humanity.

They are the most practical men the world ever produced. Their inventions have stood the acid test of utility and efficiency. Like all useful men, they do not seek publicity, yet millions of machines sing their praises from every harvest field on earth and as many plows turn the soil in mute applause of their marvelous achieve-

#### FARMER RADFORD ON WOMAN SUFFRAGE

The home is the greatest contribution of women to the world, and the hearthstone is her throne. Our social structure is built around her, and social righteousness is in her charge. Her beautiful life lights the skies of graces and her power are the cumu- filed against you in the above ent of our country, and her noble achievements should not be marred or her ballowed influence blighted by the coarser duties of citizenship. American chivalry should never permit her maintaining government, but should preserve her unsullied from the allied influences of politics, and protect her from the weighty responsibilities of the sordid affairs of life that will crush her ideals and lower her standards. The motherhood of the farm is our inspiration, she is the guardian of our domestic welfare and a guide to a higher life, but directing the affairs of government is not within woman's sphere, and political gossip would cause her to neglect the home. forget to mend our clothes and burn the biscuits.

#### RURAL SOCIAL CENTERS

We need social centers where our young people can be entertained. amused and instructed under the direction of cultured, clean and competent leadership, where aesthetic surroundings stir the love for the beautiful, where art charges the atmosphere with inspiration and power, and innocent amusements instruct and brighten their lives.

To hold our young people on the farm we must make farm life more attractive as well as the business of farming more remunerative. school house should be the social unit, properly equipped for nourishing and building character, so that the lives of around it and become supplied with the necessary elements of human thought and activity.
