The Ford is lighter than any other car of its
size and power. Yet stronger, sturdier, longer
lasting. Vanadium steel, that's why. Vanadium
is the strongest, toughest steel made.
It is the only steel that is hard and tough at the
same time. It is the highest priced steel that is
used in automobile construction. Yet the Ford
is very low in price. Its quality, terms, price
and small cost of operation and upkeep, less than
two cents a mile, have made it the universal
necessity in town and country.
Buyers will share in profits if we sell at retail
300,000 new Ford cars between August 1914 and
August 1915.

THE COURIER FOR FINE PRINTING!

News of the County and Suburbs

Local and County Items of Interest to Our Readers

CHERRYVILLE

The sun has crossed the line now,
and the weather is certainly fine.
Fine prospect for fruit at this
writing and nothing but a late frost
or long-continued cold rains while in
bloom will prevent a bumper crop.

Lane, the Watkins' medicine man
from Gresham was in town this
week and says it is almost impos-
sible to find anyone with any money,
even enough to pay their little medi-
cine bills. In the meantime the banks
are full of money, which they will
not loan out only for a short time
and that on the most exacting and
frightful terms.

The Courier has an article on the
political future of Roosevelt, and his
possibility of running again, all of
which is an interesting question, as
Teddy is a problem to be reckoned
with. The Metropolitan, an advanced
magazine, says there is a strong
probability that the Progressives and
Socialists are very apt to combine
on a platform agreeable to both.
This will make a strong combina-
tion and unless times mend rapidly,
will sweep the country. People are
getting tired of political promises
and the eternal see-saw of political
parties, neither of which have so far
been able to accomplish very much
for the people at large.

Victor Murdock, the redheaded live
wire from Kansas, is now the chair-
man of the National Progressive
party, and if anyone thinks that he
will let this political party die on his
hands they had better forget it.
There will be something doing in
that camp before the next national
election transpires.

The Pearson's Magazine contains
an excellent article or write-up on the
great Ford automobile factory at De-
troit. The writer reveals the happy
contented condition of the workers
who are not only treated like hu-
man beings, but are paid decent living
wages.

A young man here was arrested
for stealing fish out of the trap at
the hatchery near the dam last week
and given a hearing before Justice
Pomeroy last Saturday. It appears
this young man with another young
man and three young ladies went
over the river to attend a dance last
Saturday night and returned across
early Sunday morning, when one of
the men in charge of the dam says
that he saw one of the young men
carrying off fish from the trap. At

the trial all of the young man's com-
panions swore they took no fish,
neither did the young man arrested
take any. The jury returned a ver-
dict of no cause for action and the
prisoner was dismissed and the fish
wardens were nearly hooted out of
town. People are reaching the stage
where they have little respect for the
law as it is administered, as they
realize that it is very generally con-
ducted for the benefit of the favored
few, while the large mass of the
common people who are poor have no
more show than a rabbit.

MOUNTAIN VIEW

What might have terminated in a
serious accident was avoided by the
presence of mind and quick action of
Ferd Curran, when a horse driven by
Rev Baker became frightened at the
car driven by Mr. Curran; reared on
its hind feet and, falling, broke the
shafts of the buggy, but it was no
sooner down than Mr. Curran was on
the animal's head, holding him down
until the lady and child who were in
the buggy with Mr. Baker, had time
to get out. Fortunately no one was
hurt.

Frank Bullard purchased the Henry
Layman place and has moved his
family in all ready.

Some of the empty houses are be-
ing filled, but there are a few more
yet that we would like to see filled.
Frank Bullard has plowed and
seeded the vacant ground in the
Catholic cemetery this week.

HAZELIA

The women may become senators
and congresswomen, but when they
try to be presidents just watch what
Teddy will do.

If a person could only see through
a telephone by taking down the re-
ceiver I am sure one could see all
one's neighbors with one look.

It would be much better for some
men to spend their idle hours at home
with their wives and children than
to spend it asking other men's wives
if their husbands are at home when
they know they are away and said
wives are alone.

MULINO

The fine new hall was dedicated
Saturday night, March 27, by a ba-
sket social and dance. About 15 ba-
skets were sold at an average price of
\$1.00 each, and about 45 dance tickets
sold at 75c each. Music was furnis-
hed by Col's orchestra of Molalla.
Everybody pronounced it a fine floor
and had a very enjoyable time. As
large as this hall is, it was several
times entirely filled with dancing
couples. This business block is to
become the property of the Mulino
Development Co., and the incorpora-
tion papers have arrived. The first
meeting of the new company will be
held in the hall April 1st.

Another family has been added to
Mulino's population, being Mr. Hall
and family of Molalla, who has leased
a lot and built a temporary residence
on the town site. He thinks he will
locate here permanently if he likes it.
Henry Wallace, who has just died,
has been a resident of Mulino pre-
cinct for many years. He leaves two
sons, Louis and Will, and a daughter,
Mrs. Emma Bullard, who are resi-
dents of Mulino. The oldest son,
Ernest, has resided near Meadow-
brook for several years.

The new residence of Sam Holes-
tine has been painted and finished
and is quite attractive looking.
The W. V. S. railroad is to estab-
lish a new stop in the northern part
of Mulino, to be called Howard sta-
tion.

The rains have come at last and
will be quite welcome to our saw
mill men and loggers as the water
in Milk Creek has been too low for
logging for many weeks.

LIBERAL

Fruit trees are now in full bloom,
some varieties being cherries, plums,
egg plums, and peaches. Grass is
growing rapidly and stock are leav-
ing the straw stacks. Seeding was
being crowded until Monday and then
heavy rains put a stop to it again.
Early garden truck is making a good
growth.

Dan Graves, of Eldorado, bought
a few head of young cattle in this
section Monday.

Mrs. Mary Heiple and daughter,
Mrs. Boyer, and son of Estacada,
were visiting the former's sister,
Mrs. Lydia Wright for a few days
last week, returning home Friday.

George L. Deethe, who went down
on the submarine F-4 at Honolulu,
is a nephew of S. Wright. He has
many friends here. He was born
and raised here and until a few years
ago lived here, when the family moved
to Sellwood.

W. J. E. Vick has the main frame

of his new store up and is crowding
it along as fast as possible.

Easter services at the church
were well attended Sunday.

The cordwood on the townsite will
all be cut this week and then the
clearing up of the brush will be dne.

CANBY

Mr. Wheeler and Mr. Hunt called
on Mr. Collyer Sunday.

burg, were in Canby trading Satur-
day.

George Hardesty has been doing
some plowing for John Burns.

Adam Knight has had some work
done on the streets of Canby lately.

Harry Cochran has a lot of young
chickens hatched out, and has two in-
cubators.

Mr. Saltmarsh and family have
moved up near Lebanon in Linn
county.

Miss Verna Porter, who has been
over in Yamhill county, returned
home a few days ago.

There is a new real estate office
in Canby, being run by J. J. Sand-
ness.

Mrs. Wilson, who came from Cot-
tonwood, Idaho, is at present stay-
ing with Mr. and Mrs. Rape.

Harry Smith says that his garden
is all up and he has already worked
it over. That beats anything around
here. If working the potato ground
before planting would do good some
people would raise tons to the acre.
Good cultivation after planting is
the sure plan.

GLEN ECHO

Everyone is trying to improve
their time this beautiful weather.
Early gardens are mostly all in
and coming up nicely. The prospect
for fruit is great. The peaches be-
ing almost out of danger of light
frost.

Mr. Fields is having a garage
built, preparatory for a new machine.
Mr. Batdorf has traded his store
for a farm near Albany. The parties
whom he traded with have taken
possession of the store, and Bat-
dorffs have gone to their farm. The
neighbors gave them a farewell party
recently, which was largely attend-
ed. The Batdorff family has made
many friends here during the two
years they have been here, and we
wish them happiness and prosperi-
ty in their new home.

Mrs. Hoyt of Hillsboro, and
daughter, have been spending a few
days with Mrs. Hoyt's parents, Mr.
and Mrs. Talbot.

Mr. Moran and wife, and Mrs.
Charles Ely were Sunday visitors at
their parental home. Charles Mo-

ran, George Hankins, wife and
daughter, were guests of friends here
Sunday.

Mrs. Erexon, who has been suffer-
ing with rheumatism, is not recover-
ing as fast as her friends would like
to have her. Mr. Erexon is also
suffering with the same disease.

afternoon at 2 o'clock. Members are
requested to be present as there is
business to be transacted.

Taking Care of the Children

No parent would consciously be
careless of the children. Joe A.
Rozmarin, Clarkson, Neb., used
Foley's Honey and Tar for his two
children for croup, coughs and colds.
He says, "We are never without Fol-
ey's Honey and Tar in the house." A
distressing cough, sleepless nights,
and raw, inflamed throat lead to a
run-down condition in which the child
is not able to resist contagious or in-
fectious diseases. Foley's Honey and
Tar is truly healing and prompt in
action.—Jones' Drug Co.
