**CHERRYVILLE PHILOSOPHY**

Beautiful May weather, but rather dry.

The frosts in the latter part of April did a little damage in streaks here.

Cherries and prunes will be rather a later crop here but apples, pears, plums and berries look like a big crop.

Work will begin at the dam this week and a force of about 25 men will be given work for a period of two months or more.

The foolish threat to "knock" the Courier if plain speaking about economic conditions and reforms was not stopped, received the right kind of an answer from the editor. Those Browns are the right stuff and it seems the Courier has one of the same name and same nature as the old war-horse down at Corvallis now. More power to your elbow, "Bree" Brown!

In the arguments before the supreme court at Washington one attorney for the defendant railroad company advanced the utterly absurd legal statement that inasmuch as the government did not proceed at once against them when they first broke the letter and spirit of their contract by selling land in large tracts than 160 acres, therefore they have no recourse now and cannot legally claim a forfeiture. In other words, if a person whom you know steals your cow tonight and you do not at once have him arrested then in a few days he can come back and steal your horse and you have no recourse. Wonderfully brilliant intellect that evolved this stupendous argument (?) He ought to be sent to the U. S. senate along with "Boob" Penrose of Pennsylvania, and "Windjammer" Jones of Washington.

Frank Walsh, chairman of the Industrial Commission, says he has the goods on young John D. Rockefeller of Colorado coal strike fame. This precious saint (?) and absurd hypocrite swore before the commission a short time ago that he had nothing to do with the Colorado coal strike, where 11 people lost their lives. Now Walsh has letters in his possession from young Johnnie di-

recting the manner of procedure in that war against poor wretches struggling for a decent living. He will be called before the commission again and confronted with his own letters.

One of our young men went on an exploring expedition lately and after a tedious and hazardous trip discovered a lake between two mountain peaks on the Cascades, south of Cherryville, that covered about 20 acres. In this lake "mud-puppies," a sort of water lizard, abounded, and by reason of their abundance the trout were of great size. On account of the clear water the trout could easily be seen and the informant said they were fully two feet long. The same condition exists in Montana, where trout weighing 10 pounds have been caught in mountain lakes, which abounded in these mud-puppies.

Rev. John Boyd, pastor of the First Presbyterian church of Portland, who has a summer home here, said lately in a sermon that disorderly houses could be found not more than five blocks from his church, and that according to the insurance commissioner, 90 per cent of the fires in the city were of incendiary origin to get the insurance money, and that the divorces each year nearly equalled the number of marriages, and added in conclusion that our civilization was very nearly a failure. By the same token some prominent church members rent houses for immoral purposes on account of the huge rent paid, and if some of these nominal Christians would pay decent wages to their employees they would lead decent lives. The writer is conversant with conditions in Chicago, having visited many of the slums in his capacity as reporter and news-gatherer and knows that many so-called respectable people are responsible for the awful conditions existing in our cities. Admiral Fisk, of the U. S. navy, in testifying before a house committee this past winter said that "business as it exists today is hell." It sure is!

New plank is being laid on our roads now, and soon every place where the roads are liable to be bad in wet weather, including hills, will be planked and good roads will be continued up into the mountains. The auto road is now in fine shape.

The rain has stopped the road work but we need it for the crops and the gardens.

**LIBERAL**

The heavy rains the last few days make the farmers smile and the rain was sadly needed indeed. The corn crop will be thirty per cent better than usual and a fine stand and now is being cultivated. Early potatoes are in bloom; fall wheat is putting forth large heads. Farmers are fighting beetles and wire worms in their gardens. Young grasshoppers are thick—never was such a thing known before this time of year. Loganberries will be a heavy crop; with strawberries only a medium crop, and wild blackberries have a great quantity of bloom already.

Pierce Wright went to the Narrows of the Molalla river last Sunday with a load of five, on a fishing trip. They got fish even if it did rain hard. He tested his Mitchell car out in the mountains. The boys said they never saw such a powerful car. They got back on time and no accidents—plenty to eat and drink—

the latter being pure, cold mountain water, were enjoyed on the trip.

W. J. E. Vick has his new store completed, being all painted and stained inside, and up-to-date in shelving and arrangements. The large glass front is a beauty. This is the first nice building in Liberal. Now put up a good hotel and then we will start right.

S. Wright and his three fox terriers are busy cleaning up the moles and gophers out of one corn field. They got over 30 moles and lost only five hills of corn.

Hugh Foster and Dr. W. Morey have planted about seven acres of potatoes on the town-site. Mr. Foster intends to reap some reward from his money invested in land.

Golden Wedding of Mr. and Mrs. Hansen Celebrated

On May 4, 1915, Mr. and Mrs. den wedding anniversary at their home in Schubel, Oregon.

At two o'clock the many invited guests began to arrive, after which Rev. Mau made a very appropriate sermon for the occasion. The old couple were then congratulated by relatives and friends, after which all assembled in the dining room and partook of a bounteous dinner. D. W. Klemens, an old-time friend, then made a very appropriate speech, paying them many graceful compliments.

In the evening a large number of young folks gathered and enjoyed themselves to the fantastic tread of Moeback Orchestra until midnight, when lunch was served. Soon after, the guests, wishing the aged couple many happy returns of the day, departed for their homes.

Mr. Hansen was born in Schlesing, Holstein, Germany, Dec. 31, 1836. In 1859 he was drafted by the government of Denmark to serve as a soldier, the providence of Schleswig Holstein at that time belonging to Denmark, where he served in Copenhagen five years and advanced to the rank of officer. He was married to Christina Getge of Schleswig Holstein May 4, 1865, after which they went to Noer, where Mr. Hansen was employed as Aide de camp to Prince Frederick until the Prince died, after which he was employed by Von Hildebrand as Forester and Hunter.

In 1870 Mr. Hansen was called to the colors to defend the country against France and served in the army until the close of the war.

In 1886 the family immigrated to Nebraska, and after living there one and a half years, moved to Schubel, Ore., where they have since lived. Following are the living descendants:

Henry Hansen, Jr., of Beaver Creek; Mrs. George Bryant of Astor-

ia, Ore.; Herman Hansen of Oneida, Wash.; Ernest and Hugo Hansen, two children being dead, John Hansen and Mrs. Wm. Martin. There are nine living grand-children and eight great grand-children.

**REDLAND**

W. H. Bonney is certainly having his share of misfortune, having lost 4 cows recently by poison. One was poisoned in the barn. It is hardly conceivable that Redland has anyone that is low enough to do such a thing.

J. T. Fullam is rousing off and smoothing our roads.

F. Schwartz and Linn Huellet have rented a saw mill in Washington, and have moved to take possession.
