Elbert Hubbard on the New Science of Health Restoration

N order to gain an understanding of the very remarkable benefits that so many people in ill health have derived, as a result of normal conditions being restored through Chiropractic, Elbert Hubbard has investigated spinal adjustments and has taken them personally.

T

JI

П

As a result of his own experiences, he makes the following remarks, which are condensed from his recent book entitled, "The New Science, or The Fine Art of Getting Well and Keeping So:"

Above all things, a good Chiroprac-tor has faith in Nature. He does not make his proud boast that he cures people. He knows it is Nature that heals. All the Chiropractor can do is to put his patients in line with the healing forces of Nature. Chiropractic never brings an adverse result.

The Chiropractor does not pin his faith to any single panacea. He simply knows the physical fact that a pressure

III

中で

of bone on nerve brings about a condition where the telegraph system fails to act properly. He sees the result, and his business is to go after the cause. With skillful manipula-tion of the hand, he brings about a right relationship and proper adjustment. He finds the cause and removes it.

Chiropractors are not DOCTORS OF MEDICINE, From them we get a science which is adding greatly to the welfare and happiness, and the well being of the world.

If you are sick, worn out, or racked with disease, your trouble may be due to nerve pressure, which is hindering Nature from performing its work. Come in for an analysis and let us tell you frankly just what Chiropractic can do for you.
