THERE IS NO SUCH THING AS AN EYEGLASS BARGAIN.

The price decides the quality of the glass, the way it is ground or shaped and the quality of the frame or mounting.

The first few weeks both appear about alike, but gradually the glasses assume an old dingy look; so does the wearer's face.

Why? Because they are stock glasses ground by the hundred on wooden blocks and selected as being near right and the eye must strain to adjust to the focus of the glass.

I grind glasses for each individual case and guarantee them to be scientifically correct.

CHILD WELFARE WORK

State to Hear of Advantages that Can be Given Little Children

From a picture of a little girl with a doll in her arms, and with her hair unbraided so that it crinkles down her shoulders, a slide has just been prepared in the University extension division. The child is seven years old but she is just beginning to walk. She would not be walking even now were it not for the Thursday Charity club of Eugene and the physical training department for women at the University.

This slide and a number like it will form one of 10 or 12 panels of a child welfare exhibit that is to be started over the state about April 15 by the Oregon Child Welfare commission. The exhibit is to be on tour eight months. It is to go to towns that want it, and requests should be made to Mrs. Robert H. Tate, 1819 East Morrison street, Portland.

Women's clubs or other organizations that wish to help the child welfare movement may have the exhibit free. The panels will be in three hinged sections, each 2 1/2 by 5 feet. Pictures will be 12 by 14 and will illustrate some child welfare problem.

No lecturer will travel with the exhibit but one may occasionally be had from the University extension division, in which case the pictures will be shown with a stereopticon. Otherwise the panels should merely be placed where the greatest number of townsfolk may inspect them. Fifty towns are expected to ask for the pictures.

And Oregon City stores have borne this in mind, and as special bargains this Saturday are offering just the things that folk will want for spring wear, for spring house-cleaning or for spring work out of doors. Knowing that Oregon City people, and those that live in the county seat district, will want to patronize their home stores, the Courier herewith is giving brief mention of some of the special offerings that are being made for this week's Saturday shopping.

Bannon & Company are making a special Saturday offering of Regal cedar polish mops. While these last they will be sold at 25 cents each, and only one to a customer.

Huntley Brothers have replenished their stock of Sherwin-Williams "sun proof" paints and interior finishings for the spring rush. This is the time of the year to freshen up the home.

The Jones Drug Company has an offering that will be of especial interest to farmers and poultry raisers. A complete line of condition powders, stock liniments and farm medicines is ready for buyers.

KEEP THE KIDNEYS WELL

Health Worth Saving, and Some Oregon City People Know How to Save It

Many Oregon City people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers. Here is an Oregon City citizen's recommendation.

T. Trembath, Seventh & Center Sts., Oregon City, says: "I have used Doan's Kidney Pills when my back and kidneys have been bothering me and I have had great relief. Doan's Kidney Pills certainly removed the soreness and lameness in my back in a short time. I have found that they are a fine kidney medicine."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Trembath had. Foster-Milburn Co., Props., Buffalo, N. Y.

CHURCH RALLY PLANNED

County Seat Folk to Visit Logan on Sunday for Meeting

The first of a series of meetings to strengthen interest in church work and in individual betterment, planned by the brotherhoods of the county seat churches, will be held Sunday in the Logan church. Two automobile loads of Oregon City folk will make the trip to Logan, and the meetings will open at three in the afternoon.

Music will be furnished by a male quartet and a mixed chorus, and speeches will be made by H. E. Cross, John W. Loder, Thomas A. Burke and F. A. Olmsted. The general topic will be "Things Worth While."

It is hoped that a large crowd will be on hand, as a general message of good cheer and betterment will be delivered. Everybody is welcome, and the meeting will be non-sectarian. The Logan meeting will be followed by similar gatherings in other communities.

SHOTS STIR CHIEF

Gladstone Boys Hunt Indians, but are Captured by Official

Shots from an old army Colt's revolver ringing out in Gladstone park Saturday, and followed by a mad dash on horseback through that city by Lloyd Nickerson, 13 years old, resulted in moving Chief of Police Bell to action. The chief followed the speeding horseman to the Chautauqua grounds, and there found Nickerson and Richard Dickson, also 13 years old, struggling with an imaginary Indian.

The Gladstone chief failed to enter into the spirit of the boys' fun, and brought them youths to Oregon City, where they were told that a law forbade the discharge of firearms at imaginary Indians. Somewhat disappointed, but duly repentant, the boys went home; and henceforth will hunt Indians only when armed with imaginary guns that are equipped with Maxim silencers.

Peach Crop Blighted?

A friend of the Courier this week brought to the office a twig from a peach tree bearing partly opened blossoms. However, the exhibit was not brought in to show the rapidity with which the peaches had responded to the warm sunshine of the latter part of February. Instead it was intended to show that the frosts of early March had caught the peach trees too far advanced, and had frozen the buds. According to the man who brought the twig in, there will be mighty few peaches this year hereabouts, owing to the frost following two weeks of warm and balmy weather.

THIS SEEMS SENSIBLE

Suggestion Made to Make Religion Interesting to Young

In the April Woman's Home Companion, the Rev. Dr. Charles E. Jefferson of the Broadway Tabernacle has a sermon on grandparents in which he emphasizes the importance of making religion attractive for children.

"Grandparents can carry their religious zeal too far," he says. "They can harp too much upon the Bible and church. Exhortations lose their force when too often repeated. It is always unwise to make one's self a bore. Grandparents can render religion odious by talking about it too often and in the wrong spirit. Boys cannot be religious in the same way as old men, nor can little girls manifest their religion in the forms which are most congenial to their grandmothers. It is foolish to try to make a boy like a man or a girl like a woman. God will not permit it. The Bible is an interesting book, and the church is a divine institution, and the truths of Christianity are of great importance, but they must not be made a burden. Grandparents must not play all their music on one string."

Hard on Hazel

Jack Burnier, a Nisqually Indian, began serving a sentence of from 5 to 15 years in the state penitentiary today because he stole a pair of lavender silk stockings. The stockings were the property of Hazel de Haven, whose home Burnier was found guilty of robbing. (Columbia Herald, Coultion.)

GRANGE AND UNION JOIN

Farmers' Organizations to Work in Harmony Hereafter

At Salem last week organization of the Oregon Farmers' league was perfected at a meeting of delegates from the state grange and the farmers' union. Officers elected were: J. B. Leedy, of Corvallis, president; J. D. Brown, of Alington, vice president, and W. K. Peery, of Dayton, secretary-treasurer.

Although both the union and grange will maintain their separate organizations, by their representatives in the new league they propose to work together to promote legislation favorable to the rural communities and to cooperate in establishing local market centers.

"It is the aim of the league," said Secretary Peery, "to unite the farmers to the end that they may receive better prices for their products and be able to obtain needed laws by concerted action. Under our plan of organization county councils will be formed throughout the state. The membership of the councils will be from both the grange and the union. These county councils, in turn, will be represented in the state league whenever it meets."

FREAK EGGS SHOWN

G. F. Aden Has All Sizes from White Leghorns on His Farm

Displaying as samples seven eggs, G. F. Aden, of Stafford, dropped in to the Courier office this week with proof that his hens could lay almost anything desired in the egg line. The eggs all came from his flock of White Leghorns, and ranged in size from one that looked like a pigeon's up to one that was six and three-quarter inches in circumference one way and eight and a quarter inches around the other way. Mr. Aden thinks that the big egg is just about the biggest, as far as contents goes, of any egg laid in the county.

The smallest egg of the seven was an inch through its shortest diameter, and an inch and a half on the longest diameter. The eggs between this one and the large one ranged in various sizes; and when placed in a row made a most interesting display. The eggs were placed in Huntley's window, so that all might see them.

"Mortgage Lifter" Busy

A. J. Marrs, of the Mt. Pleasant district, has a "bloated mortgage lifter" that since April 22, 1914, has produced six litters of pigs, adding 84 members to her family in the less than two years that have elapsed. The sow in question is a Chester White, and tips the scales at 400 pounds. Mr. Marrs is thinking of entering her at the coming county fair, and believes that as a producer she holds the county record.

What Did the Dog Do?

One evening last week Mr. Proctor noticed some disturbance out about his chicken house and going out to see who was around so late at night discovered some one making tracks across lots. Mr. Proctor started in pursuit with his faithful old dog, Jim. Mr. Proctor chased the would-be thief up the road a half a mile or so but the other fellow had had the most experience in running. Mr. Proctor was soon outdistanced. At last accounts the intruder was headed toward Sandy. (Sandy News.)
