

SMOKER DRAWS CROWDS

Proposed Army Athletic Club's First Affair is Big Success

Some of the best boxing that has been seen in the county seat was staged Tuesday night at Armory hall, when the proposed Oregon City Army Athletic club put on its first boxing card. Fully 300 spectators packed the seats and almost every ringside chair was occupied by boosters of the manly art of self-defense. Five boxing events and a wrestling bout were on the program.

Ike Cohen, of Denver, a former professional heavy, was substituted for Trambetus in the main event with Parslow, and while the two didn't put up what could properly be called a boxing match, the bout kept the house in an uproar. Cohen knew the game backwards and forwards, and was a comedian besides; and while Parslow tried to make dents in him, he tried in vain. At one stage of this bout Cohen knocked Parslow through the ropes and then picked him up and lifted him back in the ring again.

George Storey and Doc Colebank went after each other in the first bout with more fire than skill, and at the end Referee Shepherd gave Colebank the decision. They met at 160 pounds. Tony Alf and Bill Gold had a set-to at catch weights, and Alf's seconds threw a towel into the ring at the end of the fourth round; the man being all in. Abie Gordon and Jake Schultz put up six rounds of dancing and sidestepping, only mix-

WHERE DRUGGISTS FLOURISH.

How the Business is Run in the South American Republics. Latin Americans are great believers in medicines and, due to the scarcity of physicians, are obliged to "doctor" themselves. Pharmacy is consequently profitable. With the exception of modern Europe, Canada and the United States pharmacy is practiced in other lands of the world much as it was in the United States seventy-five or a hundred years ago, and this is particularly true of the republics to the south of us.

F. W. BARTLETT IN RACE

E. W. Bartlett, of Estacada, well known in the eastern part of the county as an attorney, has announced his candidacy for the republican nomination for the district attorney's office. Mr. Bartlett will oppose O. W. Eastham and W. E. Stone in the primary race, and feels confident that he will get the mass of the vote outside of the county seat; and also that he will be regarded favorably by county seat republicans. Mr. Bartlett believes in enforcing the spirit, as well as the letter, of the law.

Get acquainted with the New Store--

It will pay you

Come in and see us, get our prices, then get the other fellows—we won't ask you to buy unless you are assured you are saving money.

We have just completed a deal for FIFTY IRON BEDS in all sizes which we are placing on sale to move quickly—

Beds any size from— \$1.25 to \$3.00

Some of these beds sell regularly for \$7. They are in White, Ivory and Vernis Martin finish. Some have Brass Rods and Trimmings and others are of the Heavy, Continuous Post pattern. We must move these beds quickly, as we have not the space to store them.

Harmonizes with the Finest Furnished Bedroom!

YOU know our reputation for genuine furniture values. See this bed! Then you will realize why we endorse it. The finish, superior to any that can be put on old style iron beds, approximates perfection and is glass-like in its smoothness.

Simmons-made, of cold-rolled, burnished steel tubing, this bed weighs one-third less than a similar style iron pipe. One-third lighter and having the new steel-wheel, leg-mount casters, it cannot harm floors nor rugs. It is a value you will appreciate at \$60.00.

COUNTY GOES AHEAD

With Multnomah, Clackamas Uses Half of Lath and Shingles Oregon produces over two million feet of lumber, approximately 150 million lath, and 275 1/2 million shingles. Of this quantity, she consumes nearly 23 million lath and over 118 million shingles. Of the amount of lumber produced, Oregon consumes 19.8 per cent, or 411 million board feet, over half of which is used for building purposes. Nearly half of the building material, of the lath and of the shingles, is used in Multnomah and Clackamas counties.

THE GARDEN OF EDEN.

It is Said to Have the Most Trying Climate in the World. The chief peculiarity about Kurna is that the natives believe the place where they live is the exact site of the garden of Eden. The climate of Kurna is acknowledged to be the most trying in all the world. The heat is terrific in the summer time. It is claimed that the British government has a record of 150 degrees in the shade upon the bridge of a boat anchored in the river at Busreh, a little to the south.

CREAMERY DOES WELL.

Annual Meeting of Directors Held at Clear Creek Plant. Directors and officers of the Clear Creek Creamery company were re-elected at the annual meeting held last Monday, and most flattering reports of the business done by the plant were read. The officers of the concern are Thomas E. Anderson, secretary; E. G. Caufield, treasurer, and W. P. Kirchen, L. D. Mumpower, Henry Babler, F. W. Riehoff and S. C. Young, directors.

WHY VILLA RAIDED.

At Least One U.S. Cavalryman Thinks He Knows Reason of Attack. After waiting on the Mexican border for three years and never once seeing the active service his heart longed for, a former private of the 13th U. S. Cavalry was accepted for enlistment in the United States Marine Corps.

STREIBIG IS "PROF"

Oregon City Meat Market King Teaches Girls How to Cut Meat. Henry Streibig appeared in a new role at the county seat this week, when he made his bow before the domestic science girls as professor of household economics with special regard to meats. Mr. Streibig told the girls the names of the different cuts, and explained why some steaks were tender and others were not—and also told the young ladies why meat prices varied from time to time; and otherwise gave them good advice which they will need when they get married.

Inducements to Matrimony.

There prevails in some parts of Britain a curious marriage custom. On certain fete days the marriageable girls appear in red petticoats, with white or yellow borders around them. The number of borders denotes the portion the father is willing to give his daughter. Each white band denotes 100 francs per annum; each yellow band represents 1,000 francs a year.

Volcano Made by Man.

At Brule, France, is the most remarkable volcano made by man. Originally it was a mass of coal, millions of tons. One day about a century ago the coal caught fire, and it has never ceased burning. The summit of the smoldering mass has a genuine crater.

MAN ODDLY MISSING

Milwaukie Mill Worker Disappears and Leaves His Money Behind. With a clean shave, approximately a dollar in his pockets, and a new bright red sweater on his back, William Portey, a Milwaukie shingle weaver, 32 years of age, dropped out of sight Wednesday night of this week. Since then Sheriff Wilson has been unable to find any trace of him, and none of the man's friends or acquaintances has heard from him. It is feared that he has either met with foul play, or that he may have fallen into the Willamette.

Exchange

57 acres—25 acres in cultivation, 20 acres slashed and seeded—balance in brush and timber. Has 1000 cords of wood standing, 1 acre bearing orchard, family variety; 4-room house, barn, granary and implements. One-half mile to school, church and store; 6 miles from Oregon City, 2 1/2 miles from car line; 14 miles from Portland on good road. Will trade for smaller place and take difference, either in cash or can assume.—Dillman & Howland, 8th and Main St., Oregon City, Ore.

DEDICATE NEW SCHOOL

Exercises to be Held in County Seat Next Monday Evening. Oregon City's new high school, to which additions have been made during the past winter so that pupils from outside communities could be accommodated, will be formally dedicated Monday evening, when exercises will be held in the auditorium. It is expected that every one of the 500 seats in the big hall will be occupied.

Paradoxical.

"There was a funny thing about that counterfeit gold charge." "What was it?" "The grand jury found a true bill in the case"—Baltimore American.

Sad, Sad Case, This.

A case of complete color blindness was discovered at the Philadelphia recruiting station of the United States Marine Corps when Patrick McKenna, an applicant for enlistment, called off each green-tinted yarn skein used for the test, as "orange," or "yellow," when held up to his view. McKenna was rejected for color-blindness and advised to keep close to his room on March 17th.

HAWLEY DEED FILED

Deal with City for Old Pumping Plant Site is Completed. The deed for the site of the old city filtration and pumping plant, and conveying the same to the Hawley Pump & Paper company, was filed in the recorder's office last week, the consideration named being \$20,000. In the deed a perpetual right is reserved to the city to maintain two pumps and a station for their operation, and to at any time put in a hydro-electric generating plant of not more than 5,000 horsepower. Filing of the deed closes the negotiations between the Hawley company and the city.

LOCAL JAIL PRAISED

"Blanchard's Hotel" said to be Cleanest Resort on S. P. Main Line. Attention of the boosting committee of the Oregon City Commercial club is called to the fact that Oregon City has the cleanest and most comfortable jail of any town on the main line of the Southern Pacific between Portland and San Francisco. It is suggested that the Commercial club boosters might put this information in their next booklet describing the attractions of Oregon City.

POLICE CHIEF QUITS

Gladstone's Civic Troubles Increase Rather than Lessen. Chief of Police Bell, of Gladstone, turned in his star and resigned his office last week when Mayor Chambers Howell ordered him to go out and bring Councilman Goodman to a meeting of the city fathers. The Chief went out and Mr. Goodman refused to obey the summons. Thereupon the mayor told the officer to go out and bring him in any way. Councilman Goodman is a large man, and recently figured in a Gladstone sparring match. The Chief thought it over and decided to resign.

Twelve Guards Ordered

State Game Warden Shoemaker has completed arrangements for placing 12 deputies about the falls and above the suspension bridge, at the county seat, to see that the fishing laws are not violated between now and the opening of the gillnet season on May 1. You like suggestive printing don't you—something that has the "punch" to it? Try the Courier Job Department.
