James P. Bartlett

James P. Bartlett, a pioneer of early days, and a man who served through several of the Indian wars in the Northwest, was found dead in his cabin at Tualatin Monday. He had evidently died during the previous night from heart failure. Mr. Bartlett was a native of Indiana, being born at Evansville in 1838. When still a young man he came to the coast, and lived in several places in Washington and Oregon. For a time he was auditor of Columbia county, and later was a judge at LaCentre, Wn. More recently he was a mail carrier attached to the Tualatin post office. Mrs. Cordelia Bartlett, Wilsonville, four sons and two daughters survive him.

The Children's Caster Eggs

HE Pinkerton children were feeling very excited. It was Easter Saturday, and mother was taking them out to buy some Easter eggs. She had given them each whatever eggs they liked themselves. And so, talking of their plans, Molly, Frank and Jack kept running on in front of mother to have more time to look into the shop windows and running back again to her to tell her what they had seen.

"Boys," said Molly as they neared the corner of the street, "we mustn't forget Tinker's penny, must we?"

Tinker was a blind man's dog. The blind man always took up his stand on the very same corner, and the children never passed him without putting a penny in Tinker's can. The blind man got to know their footsteps quite well and always looked forward to exchanging greetings with them. Tinker knew his little friends, too, and when they drew near he would strain at his lead, making frantic efforts to get loose and run to meet them.

It was Molly's turn to give the blind man a penny that morning, so she made her way to where the blind man was seated.

But he was all alone. There was no Tinker there! "Where's Tinker?" the three children

isked as if in one breath. "Oh, don't tell us you've lost him!" Molly said. The old man shook his head, and they noticed how sad he looked.

"Bless you, dears," he said, "it wouldn't be easy to lose Tinker; he never leaves my side. No, it's worse than that!" "What is it? Please tell us." said

Frank. "Tinker's Ill." said the blind man. "Why not send him to the vet.?" ask-

"We've a dollar and a half between us," Frank said. "Yes, it would just do it," said Molly.

"Let's ask mother if we can give the money to him," said Jack. And together they ran back to mother with their request.

Mother thought a few moments be fore replying, and then: "Do you realize what this will mean, children?" she asked. "There'll be no

"And look here!" almost shricked Molly in her excitement. "I've found a chocolate egg filled with creams. Just like the one I had meant to get." And then Jack found a box full of tiny eggs just behind a laurel bush. You can imagine how pleased he was.

The children found lots of other eggs besides. It was a curious thing, though, that Molly had found exactly the egg she had wanted, and so had Frank, and so had Jack.

They asked Uncle Joe if he could explain it, but he couldn't and no one else could.

"I'm so glad we gave our money for Tinker," said Molly later on. isn't it lovely to have had those scrumptious Easter eggs too!"

Immortality.

It is a thing to be thankful for that twentieth century thinking and twentieth century science are confirming, cumulatively, the dictum of Christian authority that the soul of man is immortal. To assert nowadays that the universe is the outcome of chance is to array oneself against the world's best thought. To affirm that the universe is reasonable means, in the last analysis, "that the world acts as it The Pinkertons found things rather might be expected to act had it been thought through by mind."-George Wharton Pepper.

(Here is Wm. M. Stone's booze" advertisement, publish ed in the Enterprise on the 14th of this month and repeated, with slight variations, in all of the County Papers:)

BOOZE!

Voters Attention! The Booze Trust is dying hard. It is spending thousands of dollars to defeat certain men for Disto defeat certain men for Dis-trict Attorney in every county of the State. Why? The whis-key distillers and brewers want boot-legging. There is big money in it for them. They think that if the law is not enforced they can boot-leg at will, people will get disgusted and want to repeal the prohibition law, and then the triumph of Booze will come. I am the mark for attack by numerous horse-flies that populate the stables of the Booze Trust. These mongrels have not hesitated at forgery and perjury If you elect me District Attorney I shall see that the boot-legger gets his. I shall enforce the prohibition law to the letter. WM. M. STONE.

(Below is Wm. M. Stone's "booze" OPINION, as City Attorney of Oregon City, filed with the Recorder and published in the Courier, April 25th, 1913.)

To the Honorable Mayor and the City Council:

The three saloon keepers who lost their licenses, in Oregon City, to sell intoxicating liquor, can dispose of the same under their government licenses, in quantities of not less than one gallon, nor more than four and seven-eighths gallons. This is regulated by the Federal Stat-utes, and the city has nothing to say as to the sale and disposal of liquor under these government licenses, as long as the parties did not sell in quantities less than one gallon. They are entirely within the jurisdiction of the Federal Court.

Respectfully submitted,

WM. M. STONE.

(Following is the comment of M. Brown, then editor of the Courier, on Wm. M. Stone's "booze" OPINION, published in the Courier April 25th,

Judge Landis jumped into national fame in one day when he fined the Standard Oil Co. \$29,000,000. City Attorney William Stone has him run

Away goes Congress! And with it goes Lord's Oregon

Closely behind is the Oregon Legis-

lature! And the Oregon City charter is at the tail of the process

All gone, brushed off the U.S. by one great opinion of William Stone, This will either put him up beside

Chief Justice Holmes or make him Oregon's state jester. This is some opinion, and it just

can't die a natural death. If it sticks (of course it will be carried to the U. S. Supreme Court) better have a row-boat ordered for you will see some WET old times in

The last Congress passed a law making it criminal to ship liquor into dry territory-and according to Mr. Stone's edict THERE WON'T BE ANY DRY TERRITORY. Some smart Alec will take up a government license in Kansas, and the work of John P. StJohn and Carrie Nation will have been for naught.

Our last Legislature passed a law that the possession of a government license was prima facie evidence that a man was a "blind pig" operator, when he had not a county or state li-

And William Stone has blowed

away the Legislature. Lord's Oregon Laws plainly say what shall and what shall not be done in the booze way, and provide the penalties, but Lord's overcoat wouldn't make Stone a vest pattern. Away go Lord's.

Our city charter lays down the booze regulations and restrictions about as tight and carefully as any charter can, and William Stone brushes them aside in 12 eight-point, 13-em lines.

Why don't we have him abolish the Legislature while he has his abolishing suit on, and save Oregon a heap of money?

Honestly, fellows, what do you think of the booze "opinion?" Have we a

egal genius on the city staff, or had we better call in the lunacy commission? Under this opinion any grocery store, pool room, moving picture store, millinery store, woman's club, or any other concern, can pay \$25 for a government license and start a four-quart wet goods emporium in connection.

Any person can take out a government license and peddle booze in gallon

No use having local option laws or voting on saloons, for the present saloons will pay the government \$25, save \$975 and change over into four-Booze will be more plenty than pure water in Oregon City. Rush the ele-

vator so the boys can have the goods sent up.

It is hard to believe a man appointed to the important position of City
Attorney could find such a basis for such an opinion in law. A government license isn't a license. It is more a fine. It is a tax. It simply says to a man give Uncle Sam \$25 and he won't arrest him for selling

liquor, but he must take his chances with the state, county and city. That is all there is to a government license.

As Mr. Stone says, the saloons, which the city council refused to grant licenses because they had been arrested and convicted of violating the city

laws, may continue to sell booze, with the difference that they must now sell four-quarts instead of four sups.

Their punishment is that they may sell booze but more of it and at a less

The liquor interests are not spending any money to DEFEAT men who render such official opinions as the above. "Enforcement of the prohibition law to the letter" means little when one INTERPRETS the law to mean nothing.

I am sure it is possible to have economy and efficiency in the District Attorney's office and to make it, at the same time, a pronounced factor in
