A DOUBLE ROBBERY

By ELINOR MARSH

Miss Emily Granger, a maiden lady of thirty-eight and nervous, had never een fifty miles from her quiet country iome. Then came the announcement that an aunt had died and left her a iouse and lot in a distant city. There was a mortgage of \$1,000 on it, which Miss Granger desired to pay off. No other way of doing this suggested itself to her than to take currency to the person holding the mortgage and receive in return a release. So she drew the money from her bank and started

on her journey.

Now, the problem before her of taking care of herself was quite enough without having to look out for her thousand dollars. She arrived at her estination at 11 o'clock at night and was driven to a hotel. A night clerk received her and told her that the only room he could give her contained two beds, and one of them was already occupied by a lady. Since there was but one other hotel in the place and that was undesirable Miss Granger was obliged to accept a roommate.

Being shown to the room, she no-ticed that the two beds were at op-posite ends of it. On one side was the doer, opposite which was a win-dow. The roommate was apparently asleep. Miss Granger disrobed, and, taking the money from that part of her clothing in which she had pinned it, she put it under her pillow. Then

she went to bed and to sleep.
She was awakened by hearing some one moving in the room and that which resembled a white cloud passing across & dark sky passed without fur ther sound to the door and seemed to go through without opening it. Miss Granger raised herself in bed and kept ber eyes fixed on the apparition, repressing a desire to scream until it Miss Juliet Jewett, of Seattle, who has been a house-guest of Miss Marian wer, Wash., have been guests of the latter's brother, J. HORSES IN BATTLE

Methods of the Days When Charlots Were Used in Warfare. In the old days when the Romans

and Greeks fought furious battles the charloteers drove their cars in all directions, hurled their javelins and by the din and clatter of horses and wheels commonly threw the ranks of the enway among the squadrons of the en-emy's cavalry, leaped down from their charlots and fought on foot.

The charioteers then withdrew little by little out of the fight and placed their chariots in such a way that if they were hard pressed they could read-ily retreat to their own side. Thus in battle they afforded the mobility of cavalry with the steadluss of infantry.

Daily practice enabled them to pull up their horses at full speed when on a

steep slope or to run out on the p and stand on the yoke and to get nimbly back into the charlot. With the introduction of cavalry in he later fron age came larger horses, but their use for this purpose seems to have been restricted to isolated areas. There is no doubt that the west German tribes as late as the campaign of Caesar in Gaul used only the shaggy

pony. It is said in cavalry actions they held it disgraceful and slothful to use

any kind of saddle, and instead of

charging in squadrons they dismounted and fought on foot. As far as England is concerned the art of riding seems to have been intro-duced by the Normans. The Saxons appear to have been but indifferent

KILLED IN RUNAWAY

Estacada Man Thrown from Buggy Dies Almost Immediately

John Ptacek, 74, a retired farmer living at Estacada, was killed late Sunday afternoon following a runaway, when a motorcycle, carrying two persons, passed the animals on a country road, Ptacek was riding with his son-in-law and two daughters, Mr. and Mrs. J. A. Somer and Mrs. Annie Mikulecky, all of Estacada.

Soon after the mules started on their mad canter the vehicle struck a rock, overturning it and throwing the occupants several feet. Ptacek, however, was pinned underneath and died a few minutes later.
