Gifford Pinchot, Milford, Pike county, Pennsylvania, will be his secretary of the interior."

You all remember Gifford Pinchot He was a notorious figure in the poli tics of the United States in his palmy days. Just remember, as best you can, the man and his record and ask yourself: "How would I enjoy having Pinchot as secretary of the interior of my nation?"

In the same family is that sterling citizen, Amos Pinchot, brother to Gifford. Amos Pinchot is out with a strong letter in behalf of President Wilson, maintaining that in him alone lies the hope of securing the kind of legislation to obtain which the progressive party was organized. Amos was one of the leading progressives have happened if either Hughes or est president since Lincoln.

A Hurry-up-for-School Breakfast For the Children

"Get up, sleepy heads!

Time to get up!"

Mother's voice rings cheerily out and floods the room with a radiance as exhilarating as the morning sun streaming in the windows.

In a trice there is a riotous scramble from cozy beds, laughing faces scrubbed until they fairly shine, school clothes doned, and then-breakfast!

Mother Must Have Them Off to School on Time, and in the "ELECTRIC HOME" the Task is Easy.

Grape fruit and puffed rice with cream are on the table in a jiffy, and while the little ones are eating, mother is at the table with them frying paneakes of just the right brownness on her ELECTRIC TOASTER STOVE.

USE PREPARED PANCAKE FLOUR OR THE FOLLOWING RECIPE:

Two cups wheat flour,

Three tablespoonfuls baking powder,

One and one-half cups of milk,

One-quarter of a cup of melted butter-

One-quarter of a teaspoonful of salt.

Mix and sift the dry ingredients; add milk and beaten eggs; beat well and add butter; beat again and take to the table in a pitcher. When griddle of toaster is thoroughly heated, pour batter on and bake without grease.

And coffee, made in an ELECTRIC PERCOLATOR, always rivals her pancakes.

She puts into the percolator the required amount of cold water, and to each pint of water adds three rounding teaspoonfuls of coffee ground fine, but not pulverized. She puts the cover on the percolator, turns on the current and lets it percolate for fifteen minutes. Then she servesit-mellow and hot and wonderfully ap-
