MOUNTAIN VIEW

The next step will be our city election and we hope to see good men hold the city reins next year. We surely need them.

If we pay to ride on the elevator and walk the long distance up the hill we can look back on the jitney service with more appreciation. Mr. Shaw has done his part and then failed for lack of patronage. If the city would or could give a certain amount toward the the jitney service it would be a help to the jitney and the patrons, but that seems to be out of the question.

The city, about two years ago, put seats along Seventh street and Molalla avenue for a rest for the weary pedestrians, but Halloween pranks have almost destroyed all of them. Two or three are thrown in the gulch on Molalla avenue. It doesn't pay to have these pranks played and let the boys alone that destroy them. Those benches were city property and ought to be cared for.

We also would like to know why a person can be paroled after it is firmly established that they are guilty. The cost of prosecution is paid by the taxpayers and the culprits are freed. The cases of Jesse Hughes and M. H. Herbaugh are surely deserving of the full limit of the law. Especially the latter, when a married man takes advantage of a child. Wonder what he would do if one of his little girls would meet such a fate. Put such a man behind the bars. He is no credit to his own family.

Mr. and Mrs. Robert Smith of Sheridan, Ore., visited their brother and sister, Mr. and Mrs. Ed Terry, on Myrtle street last week. Mr. Smith went to Portland to meet his little nine-year-old daughter, who had been living with her grandmother in Oklahama the past four years. CHERRYVILLE

Fine weather for November. Lyeum begins at the schoolhouse on Friday night of this week.

Orville Evans and Mr. Woodie, of Dover, were in town this week buying cattle and selling beef. An animal killed off the range was as fat as any cornfed steer.

M. V. (Buzz) Thomas, who lives near Bull Run, received a handsome vote for member of the legislature on the socialist ticket. "Buzz" is a hard hitter and one of his hottest shots is his "slam" at the P. R. L. & P. Co., which owns 4,800 acres along the Sandy and at Bull Run, where it has its dam and powerhouse and doesn't pay a cent of tax. Fine arrangements. Quit sending shyster lawyers to Congress and the legislature and this kind of graft will stop. In South Dakota they sent an entire body of farmers to the legislature.

In the history of the past physical giants of prodigious strength went around armed in iron armor and when they wanted anything they knocked the owner down and took possession. Finally people revolted against this system—after they got sense enough—and put these fellows out of business. Then they built castles on some elevated positions and became robber barons of the middle ages and robbed travelers bent on journeys of business and pleasure. But after awhile they shut these fellows off who were always supported by the powerful and the clergy; but they, too, were suppressed and now we have mental giants, more powerful than these physical giants like Richard the Lion-Hearted, whose battle-ax still preserved in London, no man living is able to swing. These mental giants like Rockefeller, Carnegie, et al., are on their way to the scrap heap and all the cunning corporation lawyers and fawning clergy are headed the same way.

People here were greatly shocked to hear of the fatal injury to Mr. Franzetti, proprietor of the Rhododendron hotel at Rowe, while on his way to Portland last Friday. It appears that his auto turned turtle while making a short turn near the Murphy ranch above Brightwood and pinned him underneath. When found he was unconscious and never regained his senses. He had built a fine business at his hotel and had just finished a swimming pool and dance hall this fall.

J. T. Friel, Jr., has gone to San Francisco, where he has secured employment for the winter.

Catarrah Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrah deafness, and that is by a constitutional remedy. Catarrah Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrah, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrah Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All druggists, 75c.

Practical Economy

Baking powders made from alum or phosphate may be bought for a trifle less than Royal Baking Powder, which is made from cream of tartar, derived from grapes.

Alum powders are not only cheap, but they differ greatly in leavening power.

If a cheap baking powder is used for a fine cake and the cake turns out a failure there is a waste of costly materials worth more than a whole can of the cheap baking powder.

Royal Baking Powder produces the finest food, and its use therefore, results in an actual saving.

COUNTY IS GROWING

Commissioner Hoff Estimates Great Increase in Population of State

Clackamas county's population is estimated at 39,317 by State Labor Commissioner O. P. Hoff in a statement given out at week at Salem. Figures compiled recently in connection with the publication of a directory of the county estimated the population at "more than 37,000." Commissioner Hoff places the population of the entire state, based upon the actual school population, at 834,515, as compared with a population of 672,765 shown by the federal census of 1910. For the six-year period this shows a gain in population of 19.4 per cent. Only three counties are larger than Clackamas in point of population.

These figures compiled by Mr. Hoff indicate that Clackamas county, with a gain of 29.6 per cent, leads all other counties in the state.

Multnomah county's increase in population is 23.1 per cent, or 294,284

population, compared to 226,261 in 1914. For the two-year period, 1914 and 1916, Multnomah county gained 4.7 per cent in population.
