"ANURIC!" THE NEWEST DISCOVERY IN CHEMISTRY

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Doctor Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," manufactured by Dr. Pierce, or send 10 cents to Dr. Pierce for a large trial package. If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Doctor Pierce's chemist will examine it, then Dr. Pierce will report to you, without fee or charge.

NOTE:—French scientists affirm that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.

Dr. Pierce's Pellets are the original Little Liver Pills. One Little Pellet for a laxative—three for a cathartic.

An Answer

"The pure water that your city can offer now makes your place much more attractive for residing there."

"What I would like to know is, if your city is also supplied by a sanitary milk, produced by healthy, tested cows, under sanitary conditions."

THE COURIER EDITOR LAST WEEK ANSWERED THAT QUESTION FOR A SUBSCRIBER

There is not a better milk for sale anywhere than

Hazelwood Milk

Our cows are tested—they are sanitary—they are pictures of good health. Their milk is more pure than Oregon City's famous water.

BOYS STEAL AUTO

E. C. Latourette's Machine Damaged in Collision with Jitney

While E. C. Latourette and members of his family from Oregon City were being thrilled by an exhibition of puck chasing between the Portland and Seattle hockey teams at the Ice Hippodrome Friday night, five youngsters were equally thrilled by the power of the Latourette automobile, a big Mitchell.

The youngsters stole the machine from near the Hippodrome and had driven it several blocks before they collided with a jitney. There the thieves deserted the car and fled, taking an umbrella as a memento. The rear end of the Mitchell was damaged although, after the car was found, Mr. Latourette was able to bring it home under its own power.

Badger Wins Again

Woodrow of B. F. Takes Junior Championship at Portland Show

Badger Farm at Beaver Creek added new laurels to the crown of its success at the Pacific International Live-

Boomerang Flipping

Old days, time should never hang heavy on Christmas. After the presents are examined fully, the mechanical device, gun or musical instrument tried, the new book begun, then games, in which all the family and visitors, if any, may join, are most surely in order. As a suggestion to start the fun, try boomerang flipping. Boomerangs are now flipped for amusement in the drawing room, quite as naturally as marshmallows were at one time toasted before the fire. For parlor practice, however, the sport has its limitations, and skill is expended in getting the boomerang's curve and recurve in rings. For a little sport good models of the Australian weapon can be limited in stiff cardboard and all sorts of different achievements accomplished through the diversity of their shapes. Crescents and almost circular ones can be thrown so as to curve and recurve in rings and return finally to their owner's feet. Long, slender ones, broadened at one end, will, of course, take longer distances, but they do not return. Triangles pass through the air very swiftly and usually take a sure aim. In throwing them they are held between the thumb and first two fingers and let fly in the same way as is customary in native sport. The cardboard should be firm and thick, but always kept thin on the edges, as are those made of wood, or they will not slip through the air well.

stock show at Portland last week when Woodrow of B. F., a Chester White boar, was declared junior champion of the show. In addition to this important prize, R. L. Badger, owner of Badger Farm, brought home four first prizes, three seconds and one fourth. He had five entries in the show, the selection of his pens of Chester Whites.

Mr. Badger's pigs cleaned things up in fine style at the state fair last fall, where Woodrow of B. F. was also junior champion. Mr. Badger sold Woodrow following the show last week for a very creditable figure. Within a few years Mr. Badger has developed one of the finest herds of Chester Whites in the northwest and his winnings at state and county fairs, and important livestock shows, have made his stock very popular.

Divorce Suit Filed

Suffered the Agony Of a Dozen Deaths

Prominent Farmer in Canada Describes His Escape from the Operating Table

In a letter to friends at Saskatoon, Mr. F. Gifford, of the Ball Rock farm, says: "Thanks to Fruitola and Traxo I am still alive. I lay on my back for sixteen days, suffering the agonies of a dozen deaths. I began taking Fruitola and was relieved of a great many gall stones. My health is now fully restored."

Fruitola and Traxo are compounded from the original Edsall formulas at the Pinus Laboratories in Monticello, Ill., and can be purchased in Oregon City, Portland, Canby and Hubbard at the Huntley Bros. Co.'s drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil and acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alterative that is most effective to rebuild and restore the weakened, rundown system.

A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Ill.
