

CLOVER SHOULD BE CUT NOW TO AVOID MIDGE

"We would advise that the clover be cut now in the fields where it is desired to produce a seed crop," writes Mr. C. W. Creel, scientific entomological assistant of the U. S. D. A. in a recent communication to Professor Lovett, entomologist at O. A. C. Observations in the field have been made at various points in Lane, Benton, Linn, Clackamas, Washington, Polk and Yamhill counties by the government experts. "The brood of the seed midge is much later than usual," he continues, "but for best results the clover should be cut now. We find that the aphid also is not so bad on clover cut earlier and the possibility of rains later which might delay the cutting beyond the midge-free date makes it advisable to cut at this time."

Those desiring more complete data on the midge should write to O. A. C. for the bulletin No. 293 on Clover Seed Pests.

WIRES PLEASED AT ESTACADA MEETING

(Continued from page 1)

Fallsarians because his wife made a dress for their little girl out of his marching suit.

W. A. Huntley, of the Huntley Drug company, reported for the committee on Red Cross work. He said that the quota for Clackamas county, which was thought to have been \$15,000, was placed at \$10,000, the former figure being incorrect. Nearly \$12,500 had been collected when Mr. Huntley made his report and he said the contributions in Oregon City would total over \$7,200 or about \$1.50 per capita, which is higher than that reported at Portland. These figures do not include the big donation of the Crown-Willamette company which is accredited to San Francisco.

C. Schuebel explained the purposes of his committee, which was appointed to urge the city council to trade separate pieces of city property for a tract of 13 1/2 acres at the south end of the city for a park site.

Gilbert Hedges, district attorney of Clackamas county, said that in any community there is to be found two spirits; the spirit of optimism and the spirit of pessimism. He said that the men with the spirit of optimism were the leaders who were ever working upward and forward.

"In the garden of Eden, two people were of the same mind," said Mr. Hedges, "and they wanted to eat an apple, thereby losing their happy home."

"It is the spirit of optimism, of ever looking forward and ever working upward that must combat the spirit of pessimism and through the former, not only do the men holding the spirit progress but the communities in which they live expand and become important centers just so far as the spirit is dominant."

Mr. Hedges predicted that the optimists of Estacada and of Oregon City and of the rest of Clackamas county while perhaps differing in methods were aiming at the same goal, that of accomplishing the most for the communities in which they lived, but he said it was necessary that all of them cooperate toward helping each other attain their aims and in so doing they would accomplish the greatest good for all of them.

H. A. Cross, "daddy of the Gladstone Chautauqua," told of teaching school in Estacada in 1874. He appealed for a closer friendship and better understanding of the people of Clackamas county. Mr. Cross said he was born in this county and that he believed it was the "grandest spot on earth."

Thomas A. Burke, secretary of the Willamette Valley Chautauqua association, called the Chautauqua "the greatest show on earth" and extended a hearty invitation to the people of Estacada to come to the big educational gathering. His remarks were greeted with a spontaneous round of applause and several of the diners took advantage of his offer to send them literature concerning the Chautauqua by giving him their names.

G. F. Johnson, secretary of the publicity department of the Oregon City Commercial club, said that a building on the Chautauqua grounds had been selected as headquarters

Pain
Here is a message to suffering women from Mrs. Kathryn Edwards, of R. F. D. 4, Washington Court House, Ohio. "I am glad to tell, and have told many women, what I suffered before I knew of Cardui and the great benefit to be derived from this remedy. A few years ago I became practically helpless..."

for the club and he invited the people to make the building their headquarters. C. W. Robey said a committee of which he is a member is working to have the stores closed on Oregon City Day, Friday, July 13th.

\$82.50; Dist. 52, \$53.75; Dist. 78 (partial), \$13.50; Dist. 84, Mulino, \$33.70; Dist. 94, \$50.10; Dist. 107, \$36.70; Dist. 121, \$25; Dist. 34 and 105 (partial), \$500; Dist. 1, Milwaukie, \$300.75; Dist. 87, \$3.

In some of the districts the amounts reported yesterday were increased. They are Dist. 3, Canemah, \$55.02; Dist. 4, Logan, \$67.50; Dist. 28, Concord, \$117.10; Dist. 46, Sandy, \$344.50.

As a reminder of "Mercy Monday" and the close of the campaign, three members of Meade Post, G. A. R., drum corps played patriotic airs in front of the Red Cross headquarters near the depot on Seventh street. Several hundred dollars were collected at the headquarters from people passing to and from the depot and city elevator.

The committee composed of L. Adams, of the Adams Department store, Adolph Jacobs, president of the Oregon City Manufacturing company, and Willard P. Hawley, Jr., manager of the Hawley Pulp & Paper company, collected the largest amount of any of the committees in Oregon City. These men devoted the entire day Monday to calling on the people of their district, and turned in approximately \$5,000 last night.

Dissatisfied with the rate at which local subscriptions to the Red Cross fund were coming in, the officers of the Hawley Pulp & Paper company and the Oregon City Manufacturing company doubled their subscriptions of \$500 each Thursday, making their combined contribution \$2,000 and greatly encouraging the committees in charge of the work in Oregon City.

One family was discovered here in need themselves, but one of the small children offered to give five cents, the only money in the house.

Miss Margaret Buck, an employe of the Oregon City Manufacturing company, turned her bonus check over to A. R. Jacobs, president of the company, who has been active in Red Cross work. The employes of the mills were not solicited because there was a house to house canvass made and the homes of the employes were visited.

Cutting and curing clover is the general order of the day. It stands thick on the ground, so the high wind of Saturday night did not do much damage. The neighborhood had made arrangements to attend and help at the entertainment at Hazelia on Saturday evening, therefore but few attended the Red Cross meeting at the Stafford school house, but Mr. Thomas was appointed a committee of one to canvass the district, which he did on Monday, meeting with very good success, but one man refusing.

DERAILER THROWS ENGINE

Brakeman on Local Overlooks Change in Switch

While switching cars on the track nearest the depot and running along side the approach of the steel steps to the bluff here at seven o'clock Monday evening a brakeman of the Woodburn local forgot to throw a derailing switch and as a result the engine ran off the track, damaging the girders of the approach. Jos. E. Hedges, attorney of this city, and an employe of the Hawley Paper mill were coming down the steps when the engine struck the support. Mr. Hedges said he hastily got away from that place but the other man beat him by several seconds getting to the bottom of the switch and did not stop until he reached Main street, a block away.

The wrecking crew worked until midnight putting the engine back on the track. The brakeman said the derailer used to be attached to the switch, but that the attachment had been removed recently.
