MOUNTAIN VIEW

There is quite a dissatisfaction in this part of the city over the water proposition. People who have paid for sprinkling gardens and lawns have about three quarters of an hour's supply. It is a complete failure. Not a drop for household or any other purpose, and those having wells are giving the freedom of their use to the water users for drinking purposes. Some system should be established there would be satisfactory use to everybody. If a fire broke between 5 and 12 at night there would be no water to use.

The street improvement is progressing and, like Rome, it won't be built in a day.

Last Monday while Ed May was dressing a beef at the Farr slaughter house, it fell, striking him and breaking his leg below the knee. Mr. Beverlin and Wm. Edgewood brought him to his home on Duane street, where Dr. Mount set the broken limb.

Harry Chandler left for Washington Monday, where he will spend his vacation in the harvest fields. We have a good many more boys who, if they would follow his example, would be better mentally, morally and physically and have some money when school begins this fall. Too many boys and girls are enjoying life as easily as possible, and some day may have to rustle pretty hard to make a living.

The Business of Getting On in the World

WHATEVER the future holds for you, your everyday actions are increasing the amount of it.

If your attitude toward money today is one of reckless disregard for the future, undoubtedly you are storing up trouble.

If it's the same tomorrow, more trouble.

But, if your thoughts are turned toward the sensible things that mean, finally, more money in your savings account, the danger of trouble, sometime in the future, diminishes.

Have you a savings account? Is it always uppermost in your mind? Does it receive a fair share of your income? Are you doing everything a sensible person should to avoid the troubles that overwhelm so many people, almost within speaking distance of you every day?

Have you a regular "bank day"?
