MOUNTAIN VIEW

Mr. and Mrs. Marion Darling left last Saturday for Waterloo, Iowa. They will be joined in Montana by a sister and brother-in-law and together will visit the old home in Iowa and will arrive in time to celebrate the golden wedding of the brother-in-law and sister. They expect to be absent about two months. This is a much needed vacation for this worthy pair, whose health has not been the best for the past year. Miss Ella Darling will look after the green house in her usual capable manner.

Mrs. Ednye Terry and children and Mrs. Smith returned from Brooks, Oregon, where they have been at work in the berry fields.

Mrs. Hicks and daughter, Freida, returned Friday from Gresham, where they spent three weeks picking berries and having a vacation from city environments.

The Ladies' Aid of Mountain View are doing their best in quilting and earning their last installment on the church debt. They met one day at the home of Mrs. Brown on Molalla avenue and at noon all enjoyed a splendid dinner served by the ladies.

Mrs. George Gillett was taken to the Oregon City hospital last Tuesday to undergo an operation for appendicitis.

Now, since the hard surface is on the Molalla road, it looks like a speed catcher could find a job—it looks as if an auto had nothing to do except to glide at a reckless speed, especially in the evening time.

The camp meeting of the U. B. church, which has been conducted for the past two weeks by presiding elder Tatman and Rev. Ward, closed last Sunday evening with a song service in the evening. The Aldredge quartette rendered several sacred songs. Rev. Ward will move his family here in a few weeks. He will have charge of the services in this church for one year, and seems to be an earnest and Christian worker and we hope that he will accomplish a great deal of good.

L. C. Bridges has the roof repaired on his residence, which nearly burned down one day last week, a spark, supposedly, caught on the roof, as the fire was not near any chimney. This is another evidence that moss should be kept off roofs.

LOGAN

All weather signs fail this year. They failed to bring dry weather during the wet period and now they fail to bring rain. Even the ancient superstition about the moon changes does not give the usual occasional hit to encourage reference to the almanac.

Mr. and Mrs. John Mostul are the parents of twin boys who arrived at their home last week. That looks like a good start toward future preparedness for war but let us hope only in the peaceful battle of life.

Considerable fall grain has been threshed, mostly wheat, and has turned out fairly well, from two to 35 bushels per acre. Spring grain generally looks pretty sick and would have to be measured straw and all, to come up to last year's yield.

Potatoes are not promising well at all, small weak tops partly dried up and the few that were planted early are drying up too soon.

There was a fair attendance at the August meeting of Harding grange. Mr. and Mrs. C. T. Dickinson, of Oswego, were visitors and, as usual, brought a cheerful grange atmosphere with them. Mr. Dickinson is a deputy master and a director of the Grange Fire Insurance company, and the Dickinson firm is always ready with good, cheerful advice and assistance to the numerous granges visited. They led the flag march and each one saluted the flag as it was passed, all singing America. The roll was called by the lecturer, Mrs. Freida Kirchem, and each one told of efforts at patriotic economy. Another visitor from Multnomah grange, whose name has escaped us, said with genial good humor, that he is economizing by visiting granges to get a good feed.

Down in the shade along Clear creek is a popular place of resort, now

days. Some are taking regular treatment, camping on the spot, and others go at spare hours and catch crawfish and roll in the cool water or watch the children wade and splash and enjoy themselves as only children can. Even the family dog feels that he is better worth the \$5 assessed against him after a prolonged immersion to the tip of his nose.

The bazaar at Lower Logan school house last Saturday evening was successful and \$35 was added to the fund for the gymnasium building.

PARKPLACE

"Grandma" Pragaar, aged 81, who fell and broke her limb about two weeks ago, is suffering a great deal. The limb was broken in two places, and on account of her age, is very painful. She is now in a very critical condition.

Charlie Smith left Saturday morning for a few weeks' camping trip up the Columbia river. He is also looking for work, as he was working in the paper mill, which closed down.

The Parent-Teachers' association have had a good sidewalk built thru Captain Smith's park. This is certainly a great improvement. Most of the school children must come this way to reach school. The association has also erected several swings in the school yard for the youngsters.

Ray Holl, of the U. S. Marines, formerly of Oregon City, got a few days' furlough, and while off, visited at the Hays' home. His friends were all very surprised and pleased to see him.

Mr. and Mrs. P. H. Rose, of Mount Pleasant, spent Tuesday, last week, with Mrs. Brayton.

Swimming forms the most popular sport these hot days, and the Clackamas river is an ideal place. There is nothing cooler, unless it is some of John McCormick's ice cream.

CHERRYVILLE

The dog star rages. The old conundrum, "Is this hot enough for you?" is on tap again.

The dog days are "dog-goned" hot all right enough here, but nothing like they are in New York city, where over 1000 people have died with the heat.

August Berdenstein and George Odell have been called for examination. As they both have dependents it is hardly likely that they will be taken.

E. L. Banta has secured an increase of pension and is now getting \$20.00 a month.

Roy Mitchell, who lately enlisted in the navy, was said to be by the Examining Board—the finest specimen of a man they ever examined, besides being a perfect man physically, he is an all around good fellow, whom everybody speaks a good word for.

Two autos a minute for three hours passed through here on Sunday and after that one followed another in quick succession. It is estimated that 1000 went up into the mountains on Saturday and Sunday. Some of the papers or some writers claim the Marmot road is preferred. Hardly anybody travels it.

A big auto truck from Portland has secured the job of distributing the planks—15,000 or more—in this district, mostly on the main auto road.

Joe Varette and his sister, Caroline, visited at the Bungalow on Sunday. They live over the Sandy river on the

Sunday and Marmot river. Joe has enlisted in the navy and expects to be called any day. His father, an Italian, took took up their homestead twenty odd years ago without a cent and has made a fine ranch of it. He has a number of chestnut trees which he says are far more profitable than walnut trees, as they do not have to be knocked off, bleached or dried and bring more.

Are You Unlucky?

Most sickness is traced to carelessness or neglect, but unfortunately who suffer from hay fever or asthma can attribute their ailments to bad luck. In August the air is full of pollen and dust that cause trouble for some, yet others are never bothered. No remedy does more to relieve hay

fever and asthma than Foley's Honey and Tar, the well known family medicine for coughs, colds and croup. It clears and soothes the afflicted nose, throat and bronchial tubes.—Jones Drug Co.
