HIS SATANIC MAJESTY HANDS PALM TO KAISER

The following interesting letter, Willamette valley, was handed to this city. The letter is the work of Louis Syberkrop of Ottumwa, Iowa, and such men as Secretaries Josephus Daniels and Tumulty, and Theodore for copies of it:

CONTRACTOR DESCRIPTION OF THE STREET, GOOD LAND CLEANERS

Goats Quite Efficient in Clearing Up Brush Patch.

Many Farms Have Spots Where Animals Could Be Accommodated and Prove Money-Making Proposition to Owner.

"A herd of goats will do more good in clearing up a brush patch than half a dozen able-bodied men," remarked a livestock feeder recently when at a ship to his farm.

At his farm in Wisconsin, a few years ago there were large patches of weeds and other foreign growth that he had tried in vain to clear. Many the blessings of printer's ink. & days of hard work were spent without success. Finally he conceived the idea that a flock of goats could do the work and do it better than human hands and at the same time consume what they cleared and return a profit to the owner.

This is an example that could be practiced more generally. Many farms have brush patches that could accommodate a flock of goats and prove a money-making proposition to the owner. The goat is an animal that can thrive on feeds that other animals could not. It has been remarked that goats could live on tin cans, but some of the brush that they consume and turn into profit is about as bad. Burning the brush is a dead loss to the farm owner, but when he turns a flock into that patch it does not take long to cut down the weeds and instead of being a loss it is a profit to the owner.

Here is a system practiced on many farms as a side line that farmers say Is the cheapest labor on the farm. Instead of being an expense it is an investment, as the animals can be taken from the patch and, without any additional feed, shipped to market and sold at a profit. The market for goats has been such that they nearly always are worth what they cost in the start and the added weight is what makes the money. Instead of paying for farm hands to rid your farm of weeds and foreign growth, use a flock of gonts and use the men in some other line where they can do more good.

Tone--

The Victrola tone is a wonderful thing. It is the tone of pure reality--throbbing with life and power --- and it is exclusive with the Victrola.

There are five distinguishing points of superiority that can be had only on the Victrola because they are exclusive Victor Patents.

Come and see the patented Victrola features:

Tapering tone arm—with its exact taper and perfectly smooth bore, which is scientifically calculand constructed to conform to the expanding sound waves created by the sound-box.

"Geose-neck" sound-box tube-the flexible metal connection between the sound-box and tapering tone arm, which enables the Victor Needle to follow the record grooves with unerring accuracy

Royal Baking Powder saves eggs in baking

In many recipes only half as many eggs are required, in some none at all, if an additional quantity of Royal Baking Powder is used, about a teaspoon, in place of each egg omitted.

Try the following recipes which also conserve white flour as urged by the government.

Corn Meal Griddle Cakes

114 cups corn meal 115 cups boiling water 55 cup milk 1 tablespoon shortening 1 tablespoon melasses

tanpoon salt
tenspoon Royal Eaking Powder
NO EGGS

Scald corn meal in bowl with boiling water; add milk, malted shortening and molasses; add flour, salt and baking powder which have been sifted together; mix well. Bake on het greased griddie until brown. (The Old Method called for 2 eggs)

Eggless, Milkless, Butterless Cake

1 cup brown sugar
14 cups water
1 cup seeded raisins
2 ounces citron, cut fine
1 cup shortening
5 teaspoons Royal Baking Powder Beil sugar, water, fruit, shortening, salt and spices together in saucepan 3 minutes. When cool, add flour and baking powder which have been sifted together. Mix well: bake in leaf pan in moderate oven about 45 minutes.

(The Old Method [Fruit Cake] called for 2 eggs)
