

1,716,000,000 Pounds of Flour Saved

if each of our 22,000,000 families use this recipe instead of white bread.

One loaf saves 11,000,000 pounds; three loaves a week for a year means 1,716,000,000 pounds saved!

Enough to Feed the Entire Allied Army

Corn Bread with Rye Flour

- | | |
|---------------------------------|--------------------------|
| 1 cup corn meal | 1 teaspoon salt |
| 1 cup rye flour | 1 cup milk |
| 2 tablespoons sugar | 1 egg |
| 5 teaspoons Royal Baking Powder | 2 tablespoons shortening |

Barley flour or oat flour may be used instead of rye flour with equally good results. Sift dry ingredients into bowl; add milk, beaten egg and melted shortening. Stir well. Put into greased pan, allow to stand in warm place 20 to 25 minutes and bake in moderate oven 40 to 45 minutes.

FOOD WILL WIN THE WAR

About the State

Resume of the News of the Week from All Parts of Oregon

McMinnville—W. S. Houck, of the Houck Milling Co., of this city, has made sale of the mill and warehouses and good will to Buchanan & Co., of Hillsboro, and possession is to be given soon. The Farmers' Union of this county in conjunction with the Tri-State Terminal Co., were negotiating for the property and were to meet on Saturday to give their final decision. Mr. Houck obtained a much better price than the offer made to the farmers, and closed the deal. Had the farmers been keen to act at once on the fine offer they had of \$15,000 the property would have been theirs.—Telephone Register.

The Dallas—"White coal" generated at Celilo falls on the Columbia may become the substitute in the steel industry for black coal, the shortage of which seriously hampers eastern industry, declares the Portland Journal. According to an entirely unconfirmed but persistent rumor heard in Spokane and Portland, the Charles M. Schwab interests are considering the development of the tremendous power at Celilo with the thought of building at that point a great steel plant which would serve the nation at war. The expectation that large interests some time will utilize the vast latent power of the falls of the Columbia at Celilo causes even apparently far fetched rumors to be treated with consideration. The government has estimated that the development of the power at Celilo would cost approximately \$23,000,000.—Chronical.

Albany—As the city's part of the expense in entertaining the grand army of the republic here May 13 to 15, the council passed a resolution appropriating \$200 for the purpose. It is expected that the county court will set aside \$300 and that other contributions will be made towards the old soldiers' and the ladies of the W. R. C. entertainment.—Albany Democrat.

Hubbard—Thursday, March 14, 1918, the onion set growers of the vicinity of Hubbard, organized the Oregon Onion Set Growers Association of Hubbard. A resolution was adopted by the association and signed by all present agreeing that the members will not sell any of the onion set crop of 1918, in the months of September and October for less than 6 cents.—Hubbard Enterprise.

Corvallis—Following are the six drafted men called from this county, the first to be drafted from Benton: Paul Ernest Eggers, Order No. 13; Richard Dammeier, Order No. 22; Alan J. Stover, Order No. 26; Earl Peter Conrad, Order No. 27; Leo D. Hollenberg, Order No. 33; Oscar Abraham Hatfield, Order No. 37.—Benton County Courier.

Eugene—Eugene merchants at their meeting in the chamber of commerce Wednesday voted almost unanimously to close all stores except drug stores at 5 o'clock. The hour of opening was left to the discretion of the proprietors. Drug stores will continue to observe the same hours as at present.

The resolutions passed concerning the opening and closing of the stores follow: "Whereas, the merchants of our city are desirous of carrying out the wishes of the president in all matters pertaining to the present war, and

"Whereas, we believe the shortening of hours of work in the stores will materially assist in giving the employers and employees more time for garden work and other patriotic duties, therefore be it

"Resolved, that the closing hours shall be 5 p. m. and on Saturdays 8 p. m., except the drug stores which shall keep their present hours."

The resolutions will go into effect Monday next.

A motion was also carried that butcher shops remain closed on Sundays.—Daily Guard.

Dallas—Rev. Michael J. Daneaf, of Mt. Angel college, who for some time past has been serving the Catholic parishes here and at Independence, has been appointed a chaplain in the national army, with rank of first lieutenant, and has been ordered to report not later than March 21st at Camp Fremont, Palo Alto, Cal. Lieut. Daneaf is an accomplished linguist and has taught French, English, Latin and Greek in Mt. Angel college.—Polk County Itemizer.

Tillamook—There need be no cheeseless days in this country while Tillamook county, Oregon, is on the map. Tillamook has a war crop that is the cheese, the whole cheese and nothing but the cheese, so help us Hoover! Switzerland can remain neutral and imported limberger cling to Hunland, but Tillamook will see to it that the fighters for democracy go not cheeseless. The Southern Pacific hauled close to 5,000,000 pounds of cheese out of Tillamook in 1917 and the county collected over \$1,000,000. The industry is now so well established and conducted on such a sanitary and scientific basis that Tillamook cows work over time willingly and the international cheese record for 1918 is in sight.

Newberg—The Newberg board and Superintendent Stanbrough are considering the proposition of the one-session day for the Newberg high school. The plan is to begin the session as early as 7:45 in the morning and close for the day at 12:45. This is done to aid in solving the labor problem for this locality this spring as well as for the convenience of those students who must miss a day or so each week or stop school entirely.—Newberg Enterprise.

Cottage Grove—The erection of a mammoth thermometer has been decided upon as a part of the publicity campaign in the next liberty loan drive. It will be placed in the center of one of the principal intersections on Main street and will indicate the progress of the campaign from day to day.

The organization of the local committees throughout the entire Cottage Grove country is progressing. Each committee will be furnished with questionnaires and will take a complete census of its community.

Several members of the executive committee plan to attend the county meeting in Eugene Saturday afternoon.—Sentinel.

Grants Pass—Registrar W. H. Canon and Receiver R. R. Turner, of the United States land office in Roseburg, are in receipt of a letter from Clay Tallman, commissioner of the general land office at Washington,

which recites that a civil service employe of the general land office has been detailed for duty at the land office in this city to assist in the rush of work that will be incident upon the land opening. This advice, although not giving the date when the assignment becomes effective, is taken to indicate that the formal land opening order may be expected any day.—Rogue River Courier.

SHERIFF WILSON ASKS NOMINATION TO SUCCEED SELF

Sheriff W. J. Wilson

Sheriff W. J. Wilson filed for the republican nomination for sheriff of Clackamas county Monday to succeed himself, and has issued the following statement to the public as to his platform:

"Only at the urgent request of my friends from all parts of the county, who feel that this is no time to make a change in the sheriff's office, have I consented to again enter the race. I have given my best efforts for the past four years and my record in office should leave no doubt in the voters' mind as to my position on the various problems which confront the executive department.

"In reality, there is but one issue this year—and that is the war. First, last and all the time I want it understood I am 100 per cent American—without compromise. And I want to add further that any candidate who tries to dodge the war issue, by ignoring or otherwise camouflaging this all-absorbing issue, is not a fit man for any public office.

"The voters ought to know my stand on prohibition enforcement by this time. I have chased the dives and divekeepers out of business and the public may rest assured they will never reappear in this county while I am on the job. I have eternally and everlastingly chased the boot-legger and my uncompromising attitude toward this parasite has brought letters of highest commendation from law abiding people all over the state. I ask your support on direct action and results—not hot air.

"Certain political opponents are spreading the malicious canard that my office is expensively conducted. Look up the records and you will find one of the first things I did upon entering the sheriff's office four years ago, was to cut off a man from the payroll. I could not do otherwise and feel I was playing a square game with the taxpayers. There has been practically no expense at all in my bootlegging arrests, as comparison of results obtained with costs will clearly show. I invite a rigid inspection of the records of my department. Don't take my word for it—ask the men who pay the bills. Further: My books were all audited the first of the year by an expert accountant employed by the county. In reporting to the court this man filed the following statement: 'The sheriff's office collects the largest amount of taxes with the least expense of any county I know of.'

"There are no strings to my candidacy. I belong to no organization or clique and I am not attempting to 'save' either side in the present industrial trouble at Oregon City. There is but one stand to take and that is an uncompromising attitude for strict enforcement of the law, irrespective of who or where it hits. 'I probably will not have time to make a county-wide campaign. Your Uncle Sam has honored me with the chairmanship of the local war board for this county. Few people realize the enormity of this work—a thankless task at best—and yet a duty I am proud to perform. I have one boy in France and two youngsters at home 'rarin' to go, and I would be a slacker indeed, were I to let politics interfere with any job Uncle Sam wants at this crucial period.'

THINGS WE HAVE AND THINGS WE HAVE NOT

The following is from the pen of Ex-Governor Martin H. Glynn, of New York, and was published in the Albany (N. Y.), Times-Union.

"We have not whipped the kaiser yet; but we will whip him if calumniating critics do not dampen the fires of enthusiasm or grease the tracks whereon must ride our national chariots of war. We have more men in France today than Germany suspects; and a million more are waiting for the ships.

"We have an army so well cared for that the death-rate in our ranks for the four months ending January 1, 1918, averaged only 7.5 per thousand—a death rate, mind you, less than the death rate for men of a like age in peaceful vocations at home. Compare this with the death rate of 20.14 per thousand under the good old Republican rule of the days of the Spanish-American war. Compare these figures, and then applaud the Roosevelt charges if you can!

True, we have made some mistakes, but in the magnitude of our undertaking, some mistakes were inevitable, unavoidable. In balance,

Plant Your Seeds With These Machines

Keystone Potato Planter

This is a machine which does the work right, and at the same time sells at a price so reasonable that every potato grower can afford it.

The KEYSTONE opens the furrow to the proper depth, drops the potatoes and covers them uniformly. Does not bruise the potatoes, is easy to operate, and is reliable.

The Drill with the Feed that CAN'T Sow Wrong

The Feed that eliminates chance—that sows uniformly under all conditions, guaranteeing an even stand of grain—The Hoosier Feed can't sow wrong because it is

A Positive Force Feed

The ONLY Feed that sows evenly and continuously as long as there is grain in the hopper, other conditions making absolutely no difference.

HOOSIER DRILLS

Not only have a Perfect Feed but they are perfect in even the smallest details of construction. Heavy trussed steel frame insures proper relation of all moving parts. Special heavy wood wheels made for Pacific Coast. Both wheels drive the feed. Balance spring lifts are used on Hoosier Drills larger than eight disc which make lifting the disc an easy matter.

with the wondrous achievements, these mistakes have been trivial and not worthy of the attention of the men who minimize their talents by trying to magnify molehills into mountains.

And furthermore, unlike the Spanish-American war: We have no army contract scandals. We have no embalmed beef horrors. We have no fat old generals going

to war in carriages and leading battalions from easy rocking chairs. We have no unpleasant gossip about the appointment of political generals and society admirals.

We have no Round Robin letters from presumptuous and inferior officers demoralizing discipline and exalting self.

Children in Rainbow Regiment Clackamas county children, who have attained places in the second

Junior Rainbow regiment, were announced recently by Superintendent Churchill, at Salem. They are: Henry Zivney and Emil Zivney, of Oswego; Lynn Lortz, of Oregon City, and Paul Bauge, of Milwaukie, Northern Marion county children who are enrolled in the regiment are: Benjie Brush, Harold Grubbe, Gladys Gible, and Leona Graves, of Aurora, and Homer Langdon and John Painter, of Hubbard.

"THE STORE THAT UNDERSELLS BECAUSE IT SELLS FOR CASH"

Here Are The Easter Suits

At All Prices From

\$18.95 to \$50.00

A Handsome Variety of Trim New Styles, Embracing Every Feature of the Spring Modes Which is Accorded Favor

Bizarre and doubtful styles are conspicuously absent, for we have thoughtfully selected those models which combine quiet elegance and evident quality. Suits practical, yet pretty, lacking nothing in charm because they are serviceable—though all confirm to the slender-lined, short-coated styles of Spring, each finds ways of being individual; the popular tans and greys are interspersed with many of the ever-wanted darker shades.
