On Saturday afternoon the house belonging to Will Douglass caught fire and was burned to the ground. It was thought that a spark fell on the roof and caught in the moss and, as it has been so dry lately and no water handy, it was impossible to extinguish the flames. With the assistance of Walter Douglass and his son, Glenn, and another little boy, Mrs. Douglass, who was alone at the time, Mr. Douglass having gone to hunt the cows, was able to save some of their belongings, but nothing was saved from the kitchen, the fire being the hottest in that part of the house. Pluvius might take a notion to order rain.

This is a year to try the farmer's soul. With everything short and some things shorter, it is hard to see how we are going to satisfy Uncle Sam on all of his frequent visits. But we will manage it somehow, for we must all help unite to prepare a Christmas gift of liberty for the Kaiser's people and all the people he desires to own.

There was a good crop of fine cherries and the great demand for them shows the shortage of fruit.

Much of the fall wheat is badly affected with smuts, probably the result of climatic conditions.

Some good crops of clover hay are all of them on new ground, which seems to show that old land is "clover sick," the reason it will not produce good crops.

ALBERTA

A safe and sane Fourth was thoroughly enjoyed by the people of Alberta. There being no celebration at Clarke's several of the neighbors planned a picnic to be held in a beautiful grove in Mr. Taylor's woods.

The spot chosen was ideal. The good housewives of Alberta furnished the sumptuous luncheon and Mr. Kirk and family of Estacada brought in a big keg of ice cream. Our flag was hung over the highest stump, and everyone was called upon to make a speech or sing a song. All appreciated the good patriotic songs and poems, even though the donors refused to give them from the rostrum chosen. Mr. Sam Martin, one of Uncle Sam's boys, who was spending the Fourth at the home of J. Rogers, was the only soldier we had the pleasure of entertaining at our picnic. All were anxious to hear the work Uncle Sam is carrying on in the timber. Mr. Martin is head faller at a lumber camp in Enoqualmie Falls, Washington. People of Alberta will not soon forget their quiet and happy Fourth.

CHERRYVILLE

Solomon Hauser, who came over from Tigh valley with a couple of thousand sheep to pasture them on Wild Cat mountain, has been having bad luck. Several sheep have died and more are sick. It is thought that so much dried up grass and weeds are injurious to the sheep.

One of the most remarkable feats of arms was accomplished by a colored American soldier last week on the western front. This soldier and another one were stationed at a listening post when they were attacked by 24 Germans. They put up a terrible fight and while one was put out the other one, Henry Johnson, continued the fight, shooting, using hand grenades and finally taking his bolo—next thing to a razor—in his hands and when he got through he killed and mutilated fifteen and the rest got homesick and ran back. This man—nobody calls them niggers any more—was not drilled 40 years, but less than a year ago was peddling ice and coal in Albany, New York. Richard the Lion-Hearted, the old crusader, had nothing on Henry Johnson, a colored soldier of the Great Republic.

The day that the big gun was set up 72 miles from Paris, the Kaiser claimed the honor—or rather the dishonor—of firing the first shot, and, after touching the trigger or fuse looked at his wrist watch and, when three minutes had elapsed, the time it takes to go to Paris, received congratulations from his attendants and when that shot reached Paris it killed an old woman at a news stand, a half-grown girl selling flowers, a young man getting a morning meal at a sidewalk restaurant, and three old men pottering about the street, and then the Kaiser, having done his morning chores, went to breakfast.

Lillian Averill has been employed to teach the school here the next term.

Mrs. Shank and her daughter, Grace, are out from Portland and will stay a week or so putting up cherries at their ranch north of town.

Mrs. David Douglas and children were up on their ranch north of town and will remain all the fall as Mrs. Douglas's health is much better here.

The German papers say that the Americans are bluffing in telling that they have a million men in France, as they have not more than half that number. As a matter of fact, they have more than a million and will have twice that number before winter, besides, if one colored soldier can whip 24 Germans, we don't need even half a million to whip old Hindenburg.

BACKACHE IS DISCOURAGING

But Not So Bad If You Know How to Reach the Cause

Nothing more discouraging than a constant backache. Lame when you

awaken, pains pierce you when you bend or lift. It's hard to work or to rest. Backache often indicates bad kidneys. Oregon City people recommend Doan's Kidney Pills. Read this case:

Mrs. Henry Larsen, 905 John Adams street, says: "I was subject to backache for several years and was so bad I couldn't rest well day or night and when I was on my feet a great deal the trouble was worse. My kidneys didn't act right either. I was all run down and had no ambition to do anything. The least exertion made me tired and nervous. Since I have been taking Doan's Kidney Pills, my back feels stronger and my kidneys act more regularly. Doan's have proven beneficial in every way."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Larsen had. Foster-McBurn Co., Mfrs., Buffalo, N. Y.

Silver Dollars Exported

Sixty-four million silver dollars have been melted into bullion by the United States Treasury, most of which has been exported to India. Fifty-eight million dollars of silver certificates have been withdrawn from circulation and destroyed as the silver on which they were secured was melted down. The Treas-

ury still holds 426,000,000 silver dollars, against which \$390,000,000 in silver certificates are outstanding. New Federal reserve bank notes of the denominations of \$1 and \$2 are being issued to replace the silver certificates withdrawn.
