SHUBEL

The entire community was saddened Sunday morning by a phone message telling of the sudden death of Mrs. George Moorehouse, nee Erna Meib, eldest daughter of Mrs. Fred Moehnke. Although close relatives had received word the day before that she was in a critical condition, they held hopes for her recovery. She was stricken suddenly by an acute attack of peritonitis. After 24 hours of suffering, despite every effort of medical attention, she passed away Friday, August 16, 1918. Erna, as she was commonly known, was only 22 years of age, and was born at Newberg January 1, 1896. On April 14, 1918, she was married to Private George Moorehouse, of Eugene, who is now stationed at Fort Stevens, where they made their home, and where she was at the time of her death. She was dearly loved by all who knew her. Besides her sorrowing husband and mother, she leaves a step-father, four sisters and five brothers. Sincere sympathy is extended to the bereaved family. Mothers of Oregon Prepare for Trouble!

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many thousands of mothers of Oregon would testify just as follows:

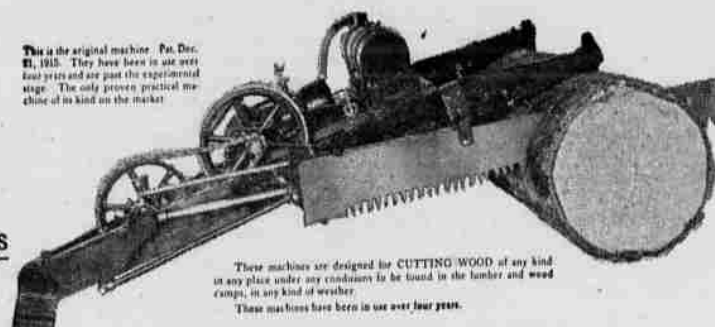

MONROE, OREGON.—"I am certainly glad to recommend Dr. Pierce's Favorite Prescription. I think it is a God-send to womanhood. During pregnancy I was, oh, so sick with that terrible morning sickness. I was so bad that I just could not eat one thing. I commenced taking the Favorite Prescription and I was relieved at once—no more nausea, no headaches, no backache, and I got through so well."—Mrs. W. T. POKKERS, Caro McCredy Camp.

SHORELAK, OREGON.—"I have suffered everything during pregnancy but the last time I took Dr. Pierce's Favorite Prescription and I never missed a meal and had comparatively no suffering. I would surely recommend the 'Prescription' to all prospective mothers and, also, for young girls coming into womanhood. I tried it taking this medicine now as I advised her to and she is improving fast. One word to know she was the same woman."—Mrs. M. E. GIBSON.

REDLAND

Hans Sidell, who has been farming the Stone place for several years, is reported as having purchased the Hagel ranch and will take possession soon.

Mr. McKilligan has rented his barn to a Mr. Fischer from Carus. Mr. McKilligan intends to move to town to work. It seems too bad that a successful farmer like he was has to change, but conditions are such that most of us farmers would leave the farm and work for wages and come out ahead of the game.

Mr. H. C. Coop is talking of purchasing a truck to haul lumber at Mount Angel.

Mr. Bonney and family have motored to the coast for an outing.

Threshing is about completed here. Prohi fall wheat turned out the best. L. Funk had 17 acres averaging 21 bushels, and Mr. Carlson had 10 acres averaging 26½ bushels—the best yield of any. Most farmers are sowing the Kinney variety, averaging 17 bushels for fall, and 29 for spring.

Oats were a little better than usual crop for fall, while most spring oats were cut for hay or pastured down.

Mr. Babbler and Mr. Thorn are doing the threshing, as the deal between L. Gerber and the Jubb outfit did not materialize.

L. Funk recently lost a purse in Oregon City, containing four silver dollars, some small change, and a double knot brooch, which was highly prized as a gift. A reward is offered for the return of the same and no questions asked.

Mrs. Minnie Buck, of Salem, is visiting her parents, Mr. and Mrs. A. Hubert.

Mrs. Lillie Riteman, our operator, is on a vacation, while Miss Lulu Schwartz acts as substitute.

W. Hubert has a sister from Chicago visiting him.

Miss Louise Gastroc, of Canby, is down visiting friends.

The community was shocked by the sudden death of John Egger August 15th, at 8 p. m. Mr. Egger had been to town that day, taking his son, Henry, and niece, Kathrine, who were going to Astoria on a visit to relatives, and returned in seemingly good health as usual and died while milking, of heart failure, age 53 years. Mr. Egger was a native of Switzerland, where he was married to Mary Schiffe and came over to America two years later. He came to Redland about 15 years ago from Macksburg, and through trials and difficulties and hard work and perseverance he had got to where he was in a position to take life a little easier. He will be missed by his wife, son, daughter, brother and two sisters, and his many friends and neighbors.

The Carver line has a crew of graders at work at Fischer's mill. It looks like a railroad soon will be evolved.

CHERRYVILLE

Rather unusual—rain in August. A good crop of potatoes is assured. Everybody is picking huckleberries.

in the mountains. An auto with a trailer behind, went by last week loaded down with 100 gallons of huckleberries.

W. J. Taubion, of La Casa Monte, up near Zig Zag, got a contract for gathering 150 gallons of huckleberries for a Portland party. He has several persons helping him on Paradise Flat, near Zig Zag.

Dr. and Mrs. Botkin went to Portland this week to attend the Grand Army encampment.

In the Revolutionary war we had Tories to contend with, and in the Civil war Copperheads, but in this war the nation is almost unanimous for a complete victory over the huns, who have lost the respect and regard of the civilized world.

The great achievements of this administration in arming, equipping, drilling and transporting 1,500,000 men to the battle front in a little over one year, has amazed the whole world. This has been accomplished with the loss of a very few in transit. All criticism has been silenced—even Teddy can say nothing, only that we ought to have gone into it sooner and been better prepared before.

The President and his party desired to give Mr. Kaiser and his gang plenty of warning of what they might expect if they persisted in their utter disregard of our rights, but they had no army and couldn't get it across if we had one. Now we have the best equipped, best fed, best clothed and best paid army in the war and they, every day, are giving good account of themselves. In every engagement our men have been more than a match for the Huns.

The newly-weds, Mr. and Mrs. Geo. Ten Eyck, returned from their honeymoon trip in the mountains, last Saturday. They went to Mount Jefferson and remained a week in camp at Jefferson park, which is a level plateau over one mile long and about one-half mile wide. It produces an abundance of grass and innumerable flowers, mostly Indian paint brush and blue lupine at this time of the year. They report the greatest crop of huckleberries ever known in the mountains and fully a month earlier. They ascended Olalla butte, an elevation of over 6000 feet, and counted 37 mountain lakes from that elevation. These lakes abound in trout, many being eastern brook trout, which are very fine, a good number of them having attained the weight of two and three pounds. A sheep herder told them he had several of his fish lines broken by the big trout in Olalla lake. This may be a fish story. Some day Mount Jefferson and these mountain lakes will be a great resort.

Mr. and Mrs. Roy Hutmur, of Portland, are out visiting with Mr. and Mrs. Miller this week. Mrs. Hutmur is the youngest daughter of Mrs. Miller. Mr. Hutmur owns a fine wheat ranch near Pendleton, for which he gets \$14.00 an acre cash rent.

Prepare for the Hot Wave
The hot sun is doubly dangerous if there is a mass of undigested food in the stomach, causing distress and auto intoxication, casting congesting poisons throughout the system. Foley Cathartic Tablets give prompt and sure relief. They act gently but do their work thoroughly. They cleanse the bowels, sweeten the stomach and benefit the liver. Recommended for indigestion, biliousness, bad breath, bloating, gas or constipation.—Jones Drug Co.
