THE DIVORCE ...MILL...

David L. Downings asks divorce from his wife, Rosa B. Downings, charging desertion. The couple was married in Leadville, Colo., July 20, 1903. They have two children.

Hannah Sophia Alberg filed suit for divorce Saturday from Olaf Alberg, her husband, alleging desertion. The couple was married in Oregon City, February 23, 1917. The wife asks for the restoration of her maiden name of Nelson.

May McDonald in her divorce complaint filed Saturday, charges that her husband deserted her on December 15, 1902, and asks the court for a complete divorce. They were married at San Rafael, Calif., October 15, 1902, and have two children.

W. A. Tilleston asks for divorce from his wife, Alice Tilleston, on the charge of desertion. They were married at Tacoma, Wash., July 16, 1906.

Divorce decrees were entered Saturday in the cases of Emma J. Besancon vs. Charles A. Besancon, and Annette Williams vs. Arthur E. Williams.

Emma L. and Edward Imler filed suit against A. B. and Florence M. Coombs and U. S. Grewell for cancellation of a contract alleged executed on March 4, 1913, for the sum of \$2900. Plaintiffs allege in their complaint that \$650 was paid at the time on the contract for land, and the balance was to be met later, when Grewell deposited the contract with Coombs as collateral to secure a note for \$1000. Grewell later relinquished the property to the plaintiffs.

CORRESPONDENCE

(Continued from Page 2)

not find her. Portland papers published this occurrence at the time.

CRESCENT

Your correspondent of Crescent, begs pardon for the long silence, and hopes to do better in the future. Our delinquency is the result of numerous activities, mostly on account of the war. With all our domestic duties, aiding in agricultural pursuits, and Red Cross work, there are few in our district that have had a vacation—just worked straight along, taking the old saying literally, that "A change of work is as good as a rest."

Our auxiliary comprises about 21 members, and an average of 10 workers get together weekly. Since January 30th of this year we have turned in to the Oregon City auxiliary the following articles: 27 comfort pillows, 54 cases, 158 small articles, such as tea towels, napkins, handkerchiefs, wash cloths, etc.; 3 baby layettes of 30 pieces each, 25 Belgian relief garments remodeled from old material, 35 new relief garments, 10 pairs of wristlets and 1 sweater. We also aided in the moss picking. We have tried to do our bit and are anxious to keep on hammering.

Crescent district has organized a Loyalty League and it will be woe to any Hun sympathizer that may show up in our community.

We are to have a service flag at the school house and it will have about one dozen stars to begin with.

Mr. Scott, our county agricultural adviser, gave us a good talk at our League meeting last Saturday evening, and now it behooves our members to bring out questions of general interest for discussion. They are requested to bring articles dealing with present day factors, original or otherwise, and thereby arouse an interest in the needs of our time.

Our Crescent school is closed on account of the teacher's illness. It is hoped she will soon recover and be able to return to her duties.

Mrs. Myrtle Panek, her children, and father, are preparing to move to Portland, where they hope for better opportunities for work and living. They will leave quite a vacancy in our school. We wish them success.

Elmer Hitchman, son of Mr. and Mrs. Walter Hitchman, who was called to take an examination for war service, was found to be afflicted with tuberculosis. He and his wife have gone to California, where he is followed by the good wishes of his many friends.

Mrs. G. W. Waldron was called to Mulino by the sudden death of her brother-in-law, J. W. Akins, on the evening of September 19th. He had lived in the Willamette valley for more than forty years and leaves a wife and two daughters, one brother and three sisters. He was 57 years old, and was a quiet, unassuming man of sterling qualities, and will be mourned and missed by his relatives and many friends.

Mrs. Fay Livesay returned last week from Ecola, near Seaside, where she had been called to her sister-in-law, Mrs. Daisy Cogan, who has been ill with pneumonia. Mrs. Livesay left her improving. Her many friends here wish her a quick and permanent recovery.

Took Out Dreadful Soreness
When the kidneys are weakened or overworked so that they fail to filter and throw impurities out of the blood, the poison remains in the system and backaches, soreness, lameness and rheumatic pains are likely to develop. Mrs. David Henry, 65 S. Lincoln Ave., Washington, N. J., writes: "Foley Kidney Pills are doing me much good, both my kidneys and the rheumatism. They took all the dreadful soreness out of my limbs.—Jones Drug Co."

Wheat is selling for \$50 a bushel in Turkey, reports the American and Syrian Relief Commission in Turkey. Before the war the normal price was 50 to 60 cents per bushel.

HEAVY ARTILLERY OPEN TO REGISTRANTS OF COUNTY

Men who want to see action with the big guns of the heavy artillery now have a chance. They may be voluntarily inducted by sending to the Commanding Officer, Coast Defenses of the Columbia, Fort Stevens, Oregon, their name; order and registration number; class (number and letter); present address; number and address of local board; and whether qualified for general or limited service.

The heavy artillery is playing more of a deciding role now than ever before and the Coast Artillery corps, which furnishes the overseas regiments of the big guns, is called upon to rush men into the fight. For this reason the war department has authorized that men who are registered and classified may volunteer.

This branch offers many opportunities for specialized work and valuable training is provided for the men who will man the varied and interesting capacities of this service. Men of aptitude who show an eagerness to learn are offered innumerable chance for advancement as non-commissioned officers either within the companies or as specialists such as radio sergeants, master gunners, electricians, observers, photographers, sergeants major or the different kinds of staff duty.

Examinations are regularly held for admission to the officers' training camp. Newly inducted men are eligible no matter how short their service may be and men are now sent to these camps in larger number and with greater frequency than ever before.

For the man who is ambitious and who wants to get in a branch that does big things and is never dull, this is his opportunity.

DIPPING BETTER THAN SPRINKLING FOR SMUT

The dipping method of seed treatment for smut in Oregon fields has given much better control than the sprinkling method, Corvallis field agent of the U. S. bureau of plant industry.

In 12 fields planted with a solution of formaldehyde, from 1 to 30 per cent of the heads were smutted on an average of 9.5 per cent. In 57 fields planted with seed treated by dipping in like solutions, the number of smutted heads ran from zero to 5 per cent or an average of a half of one per cent of diseased heads.

The sprinkling method is practiced quite generally in the northern Willamette district, where there is considerable smut. The unsatisfactory results are probably due to the use of insufficient liquid—two-thirds of a gallon to the bushel being the minimum necessary—or to the failure to rid the seed of the unbroken smut balls that can be skimmed off in the immersion method.

Directions for correct treatment for smut can be had by writing the Oregon Agricultural College at Corvallis.

Growers using the dipping method of treatment with formaldehyde have been more successful in controlling wheat smut in Oregon this year than those using the sprinkling method. Fields treated by the first method average one-half per cent smut against 9 1/2 per cent for the latter. Says H. M. Woolman of the U. S. bureau of plant industry at the Oregon experiment station. Direction for correct treatment may be had from O. A. C., Corvallis.

HOW COTTAGE CHEESE IS MADE BY UNCLE SAM

This is the way Uncle Sam makes cottage cheese. One gallon of skimmed milk—at a temperature of 75 degrees; 1 cupful of buttermilk or thick, sour milk for a starter; 1-8 of a junket tablet dissolved in 2 tablespoonsful of water. Stir the milk, the starter, and the dissolved junket tablet thoroughly together.

Set aside overnight. In the morning, without heating, pour the curd, without breaking it more than necessary, upon a piece of heavy muslin. Drain until it reaches the desired consistency. To hasten draining use an improvised press.

Season to taste with cream and salt.

More than 3,000 copies of the U. S. bulletin "Cottage Cheese Dishes" have been placed at the Oregon Agricultural College for free distribution. Send for copy before supply is exhausted.

AN OREGON CITY MAN'S EXPERIENCE

Can you doubt the evidence of this Oregon City citizen? You can verify Oregon City endorsement.

Read this: James Wilkinson, retired farmer, 201 Fourteenth street, says: "I had to get up often at night as I couldn't sleep on account of the pains and aches all over me. My limbs were stiff, too. I used several boxes of Doan's Kidney Pills and today, although I am in my 70th year, I am hale and hearty." (Statement given March 29, 1914.)

Still Praises Doan's
"On April 17, 1916, Mr. Wilkinson said: 'I am ready to back up every word of my former statement recommending Doan's Kidney Pills. Whenever my kidneys get out of order a few doses of Doan's fix me up all right.'"

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wilkinson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Adv.

The Oregon Farmer is conceded the best agriculture weekly in the United States. The Courier and the Farmer together for \$1.15.

Hot food at the front makes hot fighters. Salvation Army Lassies brave shell fire to serve our soldier

Why FISHER'S BLEND Flour?

The Government has advanced the price of Oregon and Washington Wheats.

☐ To meet this advance manufacturers of Oregon and Washington Wheat flours have increased their prices, until there is little if any difference between the price of Oregon and Washington Wheat Flours and that of FISHER'S BLEND.

☐ The superior quality of FISHER'S BLEND as compared with other flours is absolutely the same now as before.

☐ Just as in pre-war times FISHER'S BLEND is made of choicest Eastern Hard wheat and choicest Washington Bluestem.

If it was economy in pre-war times to pay more for FISHER'S BLEND than for other flours, certainly it is greater economy now to buy it at practically the same price for which other flours sell.

☐ FISHER'S BLEND is the ideal flour to use with Wheat Substitutes. These substitutes lack a balanced gluten. They require mixture with a strong wheat flour.

☐ FISHER'S BLEND is a strong wheat flour.

☐ FISHER'S SUBSTITUTES, including Fisher's Corn Flour, Fisher's Milo Maize Flour, Fisher's Barley Flour and Fisher's Corn Meal, work perfectly with FISHER'S BLEND Flour because the same painstaking care is used in the manufacture of the one as in the manufacture of the other.

☐ FISHER'S BLEND FLOUR and Fisher's WHEAT SUBSTITUTES are manufactured in "America's Finest Flouring Mills"

Market Letter

1400 head of cattle arrived at North Portland over Sunday, the market has recovered from its stagnant condition of last week, trading is brisk and prices are steady to strong for all grades at quotations as follows: Prime steers, \$12.00-\$13.00; good to choice steers, \$11.00-\$12.00; medium to good steers, \$9.75-\$11.00; fair to medium steers, \$8.25-\$9.25; common to fair steers, \$6.00-\$8.00; choice cows and heifers, \$8.00-\$9.00; medium to good cows and heifers, \$6.00-\$7.25; fair to medium cows and heifers, \$5.00-\$6.00; canners, \$3.00-\$4.00; bulls, \$5.00-\$7.00; calves, \$9.00-\$12.00; stockers and feeders, \$6.00-\$8.00.

mixed, \$19.25-\$19.50; medium mixed, \$19.00-\$19.25; rough heavies, \$17.75-\$18.00; pigs, \$16.00-\$17.00; bulk, \$19.00-\$19.25.

1500 head of sheep and lambs arrived in the sheep division over Sunday, trading in that section is good and all grades are ready sellers at following quotations: Prime lambs, \$12.00-\$14.00; fair to medium lambs, \$9.00-\$11.00; yearlings, \$10.00-\$11.00; wethers, \$9.00-\$10.00; ewes, \$6.50-\$9.00.

Rural Carrier Examination
The United States Civil Service Commission has announced an examination for the county of Clackamas, Oregon, to be held at Oregon City, and Portland, on October 26, 1918, to fill the position of rural carrier at Boring, Oregon City, Molalla, Oswego, and vacancies that may later occur on rural routes from other post offices in the above-mentioned county.

Receipts of hogs over Sunday counts in at 2450 head. The run for the most part consists of good well finished hogs but the buyers are sitting on the lid and prices are averaging twenty five cents lower. Prime

PEOPLE NEXT TO JACKSON'S BILL

(Continued from Page 1)

In view of the general condition of affairs it is a rather astounding bit of legislation that Sam Jackson, editor of the Portland Journal, would foist onto the statute books this fall. It is astounding to the person unacquainted with the facts, but to those who understand the motives underlying the proposed measure, Mr. Jackson's scheme is petty, diabolically dirty, and as malicious as any piece of legislation that was ever framed to be "put over" on the citizens of Oregon.

You have your home paper, you believe in it, and you realize that its influence as a community builder is big. Do you know, also, that a man high in affairs of the nation has recently stated that the first, second, third and fourth Liberty loans would never have been possible without the generous support of the press of Oregon and of the nation? Do you know, too, that not one cent of advertising was appropriated by the government to help the press make the loan a success?

But to return to Jackson's malicious measure. He and some Portland attorneys have decided that the legal advertising rate, which provides that publishers shall not be paid

a greater sum than five cents per line, is altogether too high to suit his imperial taste. He therefore has prepared an initiative petition and wants the voters of Oregon to lower the rate, in accordance with his wishes.

This is Millionaire Jackson's way of "getting even" with the press of Oregon. He has been unable to dictate to the thinking editors of the state who have steadily refused to be whipped into line to support Jackson's single tax and other campaigns waged by the Journal. He has chosen the psychological time to carry out his nefarious plan—a time when probably ninety nine per cent of the papers of the state are struggling to keep the wolf from the door, that they may "carry on" in their important mission of helping Uncle Sam's war activities. It is a scheme quite worthy of Jackson and a really clever way to cut the throats of the country editors. Bring his advertising rates down below cost and you can run him out of the field! Isn't it a commendable work for a millionaire publisher to be engaged in?

Unfortunately for Jackson the voters are onto his little game. They believe in their own communities, they believe in their home papers, and they are generous enough to admit that the newspaper men of the state have a God-given right to live in Oregon, in spite of Editor Jackson's personal wishes in the matter.

Obituaries

The little daughter of Mr. and Mrs. E. E. Putman, Escher, died at the family home at Thirteenth and Madison streets Tuesday in this city with cholera infantum, after a short illness. The mother and a little five-year-old brother are also seriously ill. Esther Ruth Putman was born January 19, 1917, in Nebraska, and later moved with her parents to Oregon City from a logging camp a few weeks ago. Funeral services took place from the Brady undertaking parlors Wednesday at 2 o'clock, and interment was in the Mountain View cemetery.

Red Cross Relief Continues

Month by month, there seem to arise dozens of cases of distress, which are chronicled by the Red Cross, listed as relieved, and by the vast majority of people promptly forgotten. Relief for the Greek people around Saloniki, for instance, for which the Red Cross has just given \$165,000, is dismissed without further thought. Yet it calls for shipments every month of 320 tons of foodstuffs, beside other material.

This is also true of Switzerland, of Serbia—to whom a gift of \$50,000 more has just been given—even of England. The stream of supplies to Great Britain is growing larger every day as more American soldiers go into camp, and to the need for canteens is added hospital houses, oil stoves, a thousand footfalls, chocolate, flour—in a word for all the thousand and one things that constitute Red Cross work—"The March of the Red Cross," in the October Red Cross Magazine.

Gasoline from 6 A. M. to 6 P. M.

Asking the co-operation of the members of the oil industry and the public at large in the movement to conserve man-power, D. M. Folsom, director of the Pacific coast section of the oil division of the fuel administration, has announced that all sellers and distributors of gasoline and engine distillate, without exception, have been requested to limit their sales to the hours between 6 a. m. and 6 p. m. The appeal is being made in all states of the Pacific coast section, including California, Oregon, Washington, Arizona, Nevada, Utah and the Hawaiian Islands. The limit of the hours of service will work no inconvenience on the gasoline and engine distillate consuming public, requiring only a little forethought in order to secure their requirements.

Don't You Need One Now?

There are times when every person needs an old fashioned physic. Indigestion, biliousness, bad breath, bloating, gas, constipation or other condition arising from a mass of undigested food in the stomach needs immediate attention. Foley Cathartic Tablets are mild and gentle, but sure in action. They cause no griping, pain or nausea. They cleanse the bowels, sweeten the stomach and tone up the liver. Give stout people a welcome light, free feeling.—Jones Drug Co.

Strong, Forceful Men With Plenty of Iron In Their Blood

These Are the Ones With the Power and Energy To Win

"Many a capable man or woman falls just short of winning because they don't back up their mentality with the physical strength and energy which come from having plenty of iron in the blood," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. To help make strong, keen red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron. It often increases the strength and endurance of weak, nervous, run-down people in two weeks' time." Nuxated Iron is now being used by over three million people annually, including such men as Hon. Leslie M. Shaw, former Secretary of the Treasury, and ex-Governor of Iowa; former United States Senator and Vice-Presidential nominee Charles A. Towne, General John L. Clem (retired), the drummer boy of Shiloh who was sergeant in the U. S. Army when only twelve years of age; also United States Judge G. W. Atkinson of the Court of Claims of Washington, and others.

MANUFACTURERS' NOTE: Nuxated Iron, which is recommended above, is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

NUXATED IRON
For Red Blood, Strength and Endurance

Overcoats

Just a foreword about Overcoats—but it's not a bit too early for you to see and buy them.

Latest models in light, medium and heavy weight, are ready.

\$17.50, \$20.00, \$25.00, and up

You should have one to put on when the first frosts fall.

JOE SWARTZ,
House of Kuppenheimer, Oregon City.
