TRAINING LITTLE CHILDREN

Any Mother Can Study the Underlying Principles of the Kindergarten. If a Kindergarten Cannot Be Opened in the Public School, Neighbors Should Get Together and Start One in Their Own Homes.

Suggestion by mothers who have been kindergartners. Issued by the United States Bureau of Education, Washington, D. C., and the National Kindergarten Association, 8 West Fortieth Street, New York.

(By Mrs. Alice Wingate Frary)

Justify a kindergarten in establishing a fully equipped school in a room of her own, the mothers may meet her half way. Such an arrangement has been successfully carried out in many localities.

Five mothers in a somewhat isolated community applied to a training school for a kindergarten to come into their homes. One mother collected the tuition, two alternated in giving up their diningrooms for the class. The dining table and chairs were used for the table work, while each child supplied his own small chair for the circle.

Ike always thought... a man was foolish to buy plug of the Gravely class when he could get a big plug of ordinary tobacco for the same money. But one day Bill gave him a chew of Gravely—just two or three small squares. Then Ike got the pure, satisfying Gravely taste. It lasted so long, you can't tell him nowadays that it costs him anything extra to chew Real Gravely.
