NOT A MATTER OF INTEREST

The interest to be paid by Victory Liberty bonds to be issued in April is not known. And we don't care.

We know the next and last Liberty Loan will be a whopper—probably six billions—and that's enough to start us preparing to raise it. Americans with the reputation of being dollar chasers won't pay a great deal of attention to the interest of these short term bonds because there is always bobbing into our mind the thought of the interest our partners—the Yanks—received on their investment.

When our boys went into the Argonne Forest, St. Mihiel, Chateau Thierry, Cantigny, and Belleau Wood, they didn't stop and ask the platoon commander what bonus they would get if they won the objective or ask for a guaranty against loss. They sacrificed when they joined the army and they were willing to make "the supreme sacrifice."

Regardless of financial drains for the government or for charity, it has been "pretty soft for us" and if the government chooses to start its last Liberty Loan drive on the second anniversary of our entry into the war or before, you can bet your last dollar that the fellows who are wisely shaking their heads and saying "It's going to be a hard job" will buckle in and have a part in the glory of showing our fighters that the folks at home are "beams" at big jobs themselves.

It's not a matter of interest.

Marion Adeline Evans

(Contributed)

Marion Adeline Evans was born December 6, 1904, and was called home Tuesday evening, January 21, 1918, aged 14 years, one month and 15 days.

Marion was such a sweet, gentle child, loved by all, and especially by the little ones for whom she always had a pleasant smile and kind word that her passing beyond was a great shock and personal loss to everyone in the community.

The day of her death she asked

her mother to read to her the 23d Psalm and her last words were, "Dear Lord Jesus, take me, I'm ready to go any time."

"Blessed are the pure in heart for they shall see God." It seems the Heavenly Father has indeed picked this rose to grace his garden. Pneumonia, following influenza, was the cause of her death.

She was the younger child of Mr. and Mrs. John M. Evans, who, with one brother, Maurice, serving in the United States army at Newark, N. J., an aunt and uncle in Portland, and grandmother and aunts and uncles in the East, are left to mourn.

The funeral services were conducted from the family home, three miles east of Canby, Thursday afternoon, and interment was in Zion cemetery.

To provide that roads passing through municipal corporations and that are part of general roads systems may be provided with partial aid may be improved with partial aid from the general fund is the object of a bill that will be introduced by Senator Norblad. He calls Columbia river highway passing through Astoria which is not improved that the abutting property owners are unable to stand the assessment. The bill, it is argued, would make it possible to improve the gap in the highway and would similarly benefit roads passing through other cities and towns in the state.—Portland Record-Abstract.

Irrigation projects covering large areas of the county and greatly increasing production will be the next step in the development of Wasco county, according to County Agent A. R. Chase, who presented the proposition at the Chamber of Commerce.

That the college board of the First Presbyterian church will no longer withhold its annual appropriation for the support of Albany college and will hereafter give the local school a full measure of support, was the word received recently by Rev. A. M. Williams. Moreover, another letter was received from Rev. Edgar P. Hill, now secretary of the board, in which he not only expressed in no uncertain terms his belief that the college is worthy of support, but pledged his influence in building up a greater college in Albany.—Albany Democrat.

While in Aurora recently in the

interests of his company, Louis Lachmund, well known hop dealer and state Senator-elect from Marion county, and manager of the green fruit department of the Pheasant Northwest Products Co., Salem, declared there is no other industry that promises anything like the success and prosperity of this valley that the berry industry does. This company is doing everything in its power to promote the best interests of the Valley and to fill it with a prosperous and happy class of good citizens. That they have an abiding faith in the future of the industry is shown by the fact that the company has spent \$250,000 in advertising alone, 14 page ads in the "Saturday Evening Post" having cost the company \$70,000.—Aurora Observer.
