Three billion a year for fifty years is none too light a penalty for Germany, when the great wrong done France and Belgium is fully comprehended. When final settlement is arranged, let us hope for no less a figure.

During the last decade our legislature has passed upwards of six thousand laws, yet when our government dies and is succeeded by the sec-

retary of state, our laws are so complex as to make uncertain the length of his tenure of office.

Suffered for Eight Years

Rheumatic pains, lame back, sore muscles and stiff joints most frequently can be traced to overworked weak or disorderly kidneys. Daisy Bell, R. F. D. 3, Box 234, Savannah, Ga., writes: "I was suffering for eight years from pain in the back and could not do any of my work, but since I have taken Foley Kidney Pills I can do all my work." Foley Kidney Pills have given relief to thousands who suffered from kidney or bladder trouble. Try them.—Jones Drug Co.

Stormy March all right! Some fine days mixed in with the rainy ones.

W. A. (Pete) Stone caught two otters in the Sandy river the first of the week. These otters, or their fur, is worth \$20 apiece. Quite a "good catch."

Jacob Leuthner has returned to his claim, southwest of town. He has been working down on the Columbia river for the past nine months. During his absence somebody robbed his bees of over 40 lbs. of honey, and broke into his house and carried off some supplies. There are all kinds—and some mighty poor kinds—of people in every country.

The writer has received a pamphlet entitled "The New Revolution," by Sir Conan Doyle, the great English writer. After 30 years investigation, Doyle has become thoroughly convinced of the truth of spirit communion. He has more brains and ability than all the Irish or Dutch priests who ever lived.

The Republicans in Congress have passed over into the control of the Old Guard under the leadership of that old antediluvian, Joe Cannon, and that human skunk, Senator Penrose. By a spasm of mob excitement that got both houses last fall, but now, at a late election, caused by death in Pennsylvania, they lost a district that had been republican for more than 50 years. The people everywhere are behind the idea of a League of Nations because they know that in every war they do the fighting and the dying and have to pay the bills. In this last war no generals of any rank on either side were killed, only the privates and officers of low rank.

If the Republicans think they can sweep the country in 1920, by going back to the old gag about high protective tariff to protect American workingmen, when the country was flooded with cheap pauper labor from Europe, they are badly mistaken. As dense and stupid as many voters are.

WHY TIRED PALE, RUN-DOWN WOMEN SHOULD TAKE NUXATED IRON

You can tell the women with plenty of iron in their blood—beautiful, healthy, rosy-checked women full of life, energy and charm—while those who lack iron are often cross, nervous, weak, irritable, tired-out creatures whom nobody likes to have around.

In explaining why tired, pale, run-down women should take a short course of Nuxated Iron, Dr. James Francis Sullivan, formerly physician of Hudson Hospital (Out-door Dept.), New York, and Westchester County Hospital, says: "Iron is absolutely necessary to enable the blood to change food into living tissue. Without iron, no matter what or how much you eat, your food merely passes through your body without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking—your nerves get 'on edge' and your whole system is impaired, leading in some cases, to mental, physical or nervous collapse."

"Nuxated Iron—a scientific and widely endorsed preparation of organic iron, and other tonic ingredients—enriches the blood and creates a new blood cells, thereby strengthening the nerves, rebuilding the weakened tissues and helping to install renewed energy and endurance into the system, whether the patient be young or old. 'For anemic women who would be stronger and more energetic, with steady nerves and rosy cheeks. Nuxated Iron is, in my opinion, the most valuable preparation any physician can recommend.' At all good druggists. Entirely satisfactory results guaranteed or money refunded. See Health Laboratories, Detroit, Mich."

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

this old gag won't work any more.

Ford paid six million dollars in come tax last year and didn't try to lie out of it like old John D. Ford belongs to no church, and makes no profession, but practices the Golden Rule, which is the essence of all religion. Nobody cares how much money he makes and nobody ever heard of a strike in any of his immense factories. "The only way they can beat me," says Ford, "is to pay more wages, and that they never will do." No danger of that as the average capitalist and employer is always figuring up some scheme to cut the wages of his poorly-paid workers.

Timm Grimm, who recently returned from California, says he met a returned soldier who said that with others he had been guarding hundreds of barrels of Edison gas, which would have been used if the war had lasted one day longer. It was a hundred times more deadly than anything ever used by the Germans. Edison said in the early part of the war that he had an invention which

would put an end to all wars, as it was so deadly that it would destroy all life, animal as well as vegetable and human, over a wide stretch of country. Now they have no use for it and don't know what to do with it.

Water Systems

will be found on hundreds of farms and suburban places in Oregon and the Northwest. They have been sold here by us for years. They give satisfaction. WHY? Because they are made up of good units such as

Stover Gasoline Engines

Myers Pumps and Cylinders and Tanks that are made right and thoroughly tested

and we make proper installation, using men for this purpose who have had years of experience. Besides all this, if anything isn't right we try to make it right. When you install a water system you put in something that is to serve you for many years. Better get a good system made up of good units, put in by a responsible concern with experienced men and in the right way.
