

We are experienced, and know how to give service to the owners of Ford cars. We have the same methods, machinery and skill that they have in the Ford Factory, and we use the same Parts made by the Ford Motor Company. Ford owners are doubly guaranteed by us as to the reliability of our service on Ford cars. Don't try to do it yourself, bring your car here. Incidentally we are getting a few Ford cars and are able to make fairly good deliveries,

So-These Soles Save You Shoe Money

"I have been wearing my shoes with Neolin Soles nearly a year, and they are apparently in as good condition as when I bought them."—written August, 1918, by W.H. Cocke, Officer, A.E.F.,

France.
Only Neolin Soles could endure a test like this. That they do so is because of the tough durability built into them by a scientific process. To cut your shoe bills down, buy shoes with these long-wearing soles. They come in many styles for men, women, and children.

Remember-Neolin Soles are flexible and waterproof, too, and are available everywhere for re-soling. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

#### AMERICA'S DEBT SMALLER THAN OTHER POWERS'

In the light of the following official figures, America's ability to easily absorb the Victory Liberty Loan cannot be questioned:

The entire indebtedness of the United States today is less than 7 per cent of the national wealth, or about \$170 per capita. Some of the national debts of

other great powers as compared to national wealth are: 44.3 per cent Great Britain 41.25 per cent France 84.66 per cent Austria \_38.7 per cent Germany

Germany's debt is really greater as the above figure is exclusive of the ninth German war loan and any indemnities she may have to pay. Japan is the only big nation with lower per capita debt in relation to its wealth than the United States.

There are no Liberty Loans ahead of you after the Victory Loan, so mortgage your future for Victory Bonds. Thousands of our soldiers and sailors mortgaged their futures.
