

The pictures are of the pleasing panel shape, giving the high, narrow proportions that are so well suited to portraits-and when the camera is held horizontally, for landscapes and the like, it gives a long, narrow picture that is almost panoramic in effect.

And this long narrow picture makes possible a thin, slim camera that fits the pocket-a detail that is often important and always convenient

The 2C Junior is well made and well finished in every detail and has all the up-to-date features including the "Autographic," for autographically dating and titling each negative at the time of exposure.

Let us show you this dainty Kodak or any other of the famous Kodak line at \$2.18 up.

The forces are already lining up

Put all the world's best music where they can hear it every day. A long program at a concert tires a youngster, but they all love to hear a little music at frequent intervals. Thus a real appreciation is unconsciously acquired.

Mr. Edison's latest invention gives them correct ideas of music at the start. Their ears become trained to its mellow, rich tone. The wide choice of records keeps them interested.

Bring your children with you at any time and hear this wonderful new instrument.
