Mrs. J. P. Steinman visited with Mrs. R. B. Gibson last Thursday. As Mr. and Mrs. Steinman were coming up the Gibson hill the rear axle of the car broke, letting the car back down the hill. The brakes wouldn't hold and if it hadn't been for a stump at the side of the road, which stopped the car as it backed down, they would have gone over into the ditch and no doubt would have been seriously hurt. It was fortunate that the stump was there.

A Mistake Made by Many

Don't wait for rheumatism to indicate diseased kidneys. When you suffer pains and aches by day and sleep disturbing bladder weakness by night, feel tired, nervous and run down, the kidneys and bladder should be restored to healthy, strong and regular action. It is a mistake to postpone treatment. Foley Kidney Pills put the kidneys in sound healthy condition and keep them active and strong. Begin taking today. Good results follow the first dose.—Sold Everywhere.

The Loyalty League met at the Stafford school house on Saturday. The last meeting for the year will be held the evening of the third Saturday in June, when a free lunch will be served.

The community was saddened last week when news came of the unexpected death at the Oregon City hospital of Mrs. Conrad Schrader. She was buried at Stafford on Thursday and was followed to her last resting place by a long procession of sorrowing friends and relatives. The floral offerings were many and very beautiful.

The sick are improving, and the "flu" has been fumigated.

## D. C. Fouts visited his sister at Hood River last week.

Samuel Gerber and others have killed some jack rabbits recently. Some of them are quite large and they seem to be prepared for pussy-footing as they have a thick pad of hair on the bottom of the feet. If allowed to get a good start they might develop into a great nuisance.

Those prophets that predicted another dry season were not the right kind. We thought it impossible that we could receive a deal of three such seasons in succession.

It now looks as though farmers are going to have big crops and big prices and they can take satisfaction in clipping coupons from Liberty and Victory bonds and can afford to feel a little bit sorry for the German people even though their troubles are of their own making and are what they tried to inflict on others.

L. Kohl and family are doing their traveling in a Chevrolet now.

Kohl brothers attended the annual banquet of the volunteer fireman's association in Portland recently.

The Republican politicians remind one of what Pat said to Mike: "Will ye give me a pipe and some tobacco? Faith, I have a match." They have a party and are only looking for a man and an issue for him to stand on.

The Cherryville correspondent seems to be convinced that spirit communication with the living is an established fact, but we can disprove that.

Theodore Roosevelt would be keeping every medium in the United States busy with anti-Wilson articles for the papers. Seriously, we have known many good people of intelligence who accept the evidence offered, but that is because as phrenologists tell us, credulity is one of the many compartments of the brain and education does not remove it. If communication were possible in certain cases or circumstances, it would be possible in all cases and circumstances would not be dependent on a few mediums under mysterious surroundings such as darkened rooms, raps, table tipping, slate writing, etc. Nature works under general unchangeable laws and surely there can be no general law here or we would all be receiving messages from departed friends. Modern spiritualism originated with the Fox sisters, one of whom married Elisha Kent Kane, the arctic explorer, and they afterward admitted that it was a fake. They discovered that they had the power of snapping a joint of their toes and that led them to pretend it was spirit rappings. It would be grand if spirit life after death could be demonstrated without dying, but we are from Missouri.

## STAFFORD

Mrs. Magnusen, the mother of Mark Baker's wife, is visiting her daughter.

Mrs. Claus Peters, who has been in poor health for a number of years, was taken worse a few days ago.

Will Gage, of Tillamook, and Will Nagle of Hazelia, after traveling a week across the continent, got their discharge at 11 a. m. Wednesday and took the first train for home. They reached Oswego and walked out to the Nagle home, arriving about midnight. A light lunch developed into a big supper and all got to bed towards morning, tired and happy.

Will Gage visited relatives at Stafford and Friday morning took the train for Tillamook, remarking happily, "There will be some wonderfully happy and surprised people in the old home tonight."

The Ladies Circle met at Mrs. Gage's on Thursday with a good attendance.

J. A. Gage and family, of St. Helens, motored out to the old home on Friday, returning Sunday afternoon.

A number from here attended the State Grange at Hillsboro, and on Wednesday Mr. Grover, who has a fine walnut farm near Scholl's ferry, invited the Grange to go out to his

place. About 50 car loads accepted his kind invitation. Arriving at his prosperous farm all were made welcome in whole-hearted fashion, finding a long table under the shade of wist trees in the dooryard of his commodious farm home, with baskets of cookies, and baskets galore of the nicest walnuts anyone ever laid tooth to, and big crocks of ice-cold Loganberry punch, with willing hands ready to fill the cups. It was the warmest day of the season and Mr. Grover's hospitality was heartily appreciated. He has the largest walnut farm in the state, and long rows of nursery grafts, thousands of them. He says that he has none left to sell, as all he has on hand have been spoken for.

The Schattz boys have purchased a car.

The Oldham boys had a breakdown with their truck on Monday, and phoned for the father, who went to their assistance with the other truck. They never got home until one a. m., but no one was hurt.

The board of directors met Thursday evening and elected Miss Nellie Vallen as teacher for the coming term.

## TWILIGHT

Wheat is heading and gives every promise of encouraging returns. Corn is planted, with much of it up, a good stand being reported.

Talk about luck! Our old cat just brought off a litter of three kittens instead of the usual nine.

In an effort to compliment my neighbor, reference in last week's news was made to L. E. Bentley as sawing wood. Now he threatens a slander suit on the grounds, "not guilty."

Lester Montgomery had the misfortune to catch his favorite dog in the sickle bar of his mower one day last week, severing the right front foot. The severed appendage has been splintered and gives every assurance of knitting, under the skillful attention of its owner.

## Horse Sense About Tobacco

Good tobacco ought to be like a well-bred hoss—all th' kick taken out but all th' spirit left in.

You see, half the secret of makin' a good hoss is in the breedin' an' half in the breakin'. Selectin' tobacco that's grown right is only half of makin' Velvet. The agein' is the other half.

Thar's only one kind of agein' that gets th' right results—Nature's own. Nature's no clock watcher. She does a job right whether it takes two years or two thousand.

So when she gets through with the fine Kentucky Burley that we put away in wooden hogsheds for two years, it's just right.

It ain't been hurried none, or short-cutted. It's a Nature-done job.

All kinds of things are packed in tobacco tins, but your good neighbor will tell you "Velvet is the real pipe tobacco." Prove it for yourself.

During the Victory Loan drive, bond-purchasing company advertisements did not appear in our daily papers. Now that the sale is complete, the Oregonian carries two and three columns. There is a moral to this, which the small purchaser now grasps.

Tom Kellan is building a garage. A cage first is a good motto. Tom will no doubt soon have the canary.

Mrs. Cad Swick is visiting her daughter, Mrs. Jordon, in Morrow county.

J. F. Spiger has disposed of his home ten acre tract. Purchaser unknown.

Twilight is now connected with Oregon City by jitney, four schedule trips daily, with an occasional special. Now, Mount Pleasant, will you keep still?

Together with four members of the Twilight Calf club, your correspondent attended the County Boys' and Girls' Industrial club's meeting held in Oregon City the 24th under the supervision of Miss Snedeker, our county representative. There were 40 boys and two girls present from various parts of the county. A more orderly body never assembled and proves to me that our boys and girls are worth looking after. There wasn't a dull face there, to the contrary they satisfied me of our future citizenship. Parents should lend every encouragement to this movement.

A continuation of excellent wheat and oats weather prevails—cool and cloudy with occasional showers. Corn is looking well and its best interests call for warmer conditions.

The aged mother of Herman and Henry Scheer, lives in a critical condition at the home of another son in Wyoming.

L. E. Bentley and family attended memorial services Sunday last, at the former's boyhood home near Marquam.

Think well how often the people at the polls have defeated unwise and unnecessary appropriations for the various state institutions and, at a time when the laboring man was in much greater need of employment than now. We have no idle men today. Towns and cities are busy devising means for housing the employed. Much private enterprise is confronting us, and immense sums of unexpected public money is yet to be used. The convicts at Salem are much better housed today than many an honest hard working man with a family to support. View with care the camouflage with which the bond issues to be voted upon next Tuesday are clothed, and then vote for the best interests of a majority of our people.

Thursday evening, June 5th, has been selected for our soldier boys' welcome affair. To this gathering a cordial invitation is extended to the soldier boys, their families and friends. This includes every resident of our school district and we want you to be there. Committees have been named on finance, arrangements, entertainment, and decoration. The entire district composes the banquet committee, the most important appendage to our entertainment. This insures the "feed" question, our chefs being noted. Don't fail to do your bit—success depends upon it. Come.

Have you been reading the Germans' criticism of the Peace treaty, and the replies of the Allies? The latter are gems and the dictator is deserving of especial mention and gratitude. He surely has perfect command of speech, and it must cause the Germans to cringe on their perusal.

Voters should bear in mind that the reconstruction measure carries seven and a half million in bonds, the use of which is contingent on like action by the federal government. There are no contingencies attached to that portion of the bonds applicable to public buildings, which the people have defeated at prior elections. This is plain camouflage and for a purpose.

Ed Dodds, of Canby, spent Sunday last with Mr. and Mrs. Curtis Dodds.

Albert Scheer, son of Mr. Henry Scheer, arrived home from Camp Lewis Sunday. He was the only boy from this neighborhood who served his country in the front trenches, amidst the extreme dangers of warfare. Luck accompanied him and we especially welcome his safe return to friends and loved ones.

If I interpret it correctly, the

## NUXATED IRON

### Helps Make Strong, Sturdy Men and Beautiful, Healthy Women

3,000,000 People Use It Annually As a Tonic, Strength and Blood-builder

MAKE THIS TEST

If you are not well or strong you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people, who were ailing all the while, have most astonishingly increased their strength and endurance in 2 weeks' time in many instances.

Manufacturers' Note: Nuxated Iron which is prescribed and recommended by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older iron salts, Nuxated Iron is easily assimilated and does not irritate the stomach. When taken as directed, it will not only build up the system but will also give you a healthy complexion and a clear, bright eye.
