THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound Is Prepared For Woman's Use.

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attend the making of this great medicine for woman's ills.

Over 300,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.

The most successful solvents are used to extract the medicinal properties from these herbs.

Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.

It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.

The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

It Is All Gone Now

Samuel L. Kramer, Box 95, Sellersville, Pa., writes: "I had kidney trouble for two years and had a terrible backache. That is all gone now after using Foley Kidney Pills and I feel well again." When the kidneys are overworked, weak or diseased, the waste matter remains in the system and causes pains in side or back, rheumatism, lumbago, stiff joints, sore muscles, backache. Foley Kidney Pills get results quickly and are tonic in their healing and soothing effect. Good for bladder trouble, too.—Sold Everywhere.

WELL KNOWN PIONEER WOMAN LAID TO REST

One of the well known Oregon pioneers, Mrs. Helen M. Elliott, died last Thursday evening at the Oregon City hospital at the age of 73 years. Deceased had been ill for several months from erysipelas, the disease causing her death. She was the wife of the late John Elliott, one of the county's oldest pioneers. Mrs. Helen Elliott was born January 1, 1847, in the state of Illinois, and was the daughter of Albert and Mary Gibson. The family settled on a donation land claim near Woodburn, and was the home of the deceased since childhood, and where her marriage to Mr. Elliott took place.

She was the mother of seven children, three of whom survive her, and are Mrs. Nora E. Rall, Mrs. Wilda Fish, both of Wilda station, near Woodburn; Albert W. Elliott, of Portland. A grandson, William M. Maple, also survives her, and a granddaughter, Helen M. Rall; also a great granddaughter, Marjory M. Maple. Deceased is a sister-in-law of Mrs. J. T. Apperson, of Parkplace. Mrs. Elliott was very well known throughout the county, and was always willing to help out those in distress.

The Sediment Test

Heat destroys ordinary oil forming a deep layer of sediment. Veedol resists heat and reduces sediment about 80%, because it is made by the Faulkner Process.

Bitter or Better Baking

A letter makes a great difference in a word. A word makes a great difference in baking powders.

If the little word "alum" appears on the label it may mean bitter baking.

If the word ROYAL stands out bold and strong, it surely means BETTER baking.

This is only one reason why it pays to use

Royal Baking Powder

Absolutely Pure

Made from Cream of Tartar derived from grapes

Royal Contains No Alum—Leaves No Bitter Taste

Danger Points for Batteries

One thing that a good many automobile owners can not understand about batteries is the way they hang on and keep giving service right up to the minute when they refuse to work at all.

"These folks reason," says Mr. Hilgers, local Willard Service Station dealer, "that the light ought to get a little weaker and start a little slower until the battery gradually wears out. Some times a battery acts that way, but another one may keep right on working until it is actually ready to fall to pieces. When the cells are opened for inspection, the active material is in some cases so broken up that it will not hold together. This may be due either to old age or abuse. Of course we never open up a battery without the owner's consent but a battery in this condition could not last a great while and might go out of service at any time on the road. Most car owners are anxious to know the truth about their batteries and prefer to have a brand new battery when they know their old one is approaching the deadline."

Honeymooners Leave
Mr. and Mrs. Russell Sullens, who have been spending their honeymoon at the home of Mr. and Mrs. Barlow of this city, left for their future home at Prairie City Saturday morning. The couple was married in this city last Saturday evening at the Barlow home. The bride was formerly instructor in the West Linn school. For the past two years, however, she has taught at Prairie City.

Benefit Success
The benefit given Tuesday night in the Star theatre by the children of this city under the auspices of the D. A. R., was a decided success. The house was packed, and the numbers on the program were excellent. Mrs. H. B. Cartledge, who had charge of

the affair, was given much praise for the success of the event. Mrs. C. W. Robey was the pianist for the program, and helped Mrs. Cartledge drill the children. The fund derived from the entertainment will go toward rebuilding a city in France under the direction of the D. A. R., of America.
