The women of the Albany Women's Club are planning a tea party to be held next week. It is expected that a large number of people will attend.

Mr. and Mrs. Johnson, who have been traveling, are expected to return home next week.

Obituaries

Mrs. Virginia Henderson, who was well known in this community, died last week at her home in Albany. She was a member of the Albany Methodist Church, and was always active in church affairs.

George Smith, formerly of this community, died last week in Portland, Oregon. He was a member of the Albany Masonic Lodge, and was well liked by all who knew him.

Jim Lewis, the infant son of Mr. and Mrs. Lewis, was born last week. He is the fourth child of this family, and is a fine little boy.

W. A. White, the last of the old-time settlers of this community, died last week at his home in Albany. He was a member of the old-time Albany Volunteer Company, and was well liked by all.

Mr. and Mrs. James, of Albany, are spending the summer in Oregon City, where they expect to remain for several months.

Interpretive Papers Filed

The Interpretive Papers that have been filed are as follows:

1. The history of the Willamette Valley
2. The history of the Oregon City School District
3. The history of the Albany Fire Department

WORRY

Worry is a disease that affects the entire body. It causes a lot of pain and discomfort. The symptoms of worry can be quite severe, and can lead to serious health problems.

Worry can be passed from one person to another. The most common way that worry is passed is from one family member to another. For example, if one family member is worried about something, the other family members may start to worry about that same thing.

Worry is a disease that can be prevented. The best way to prevent worry is to learn how to deal with stress. This can be done by taking breaks, getting enough sleep, and eating a healthy diet.
