We are entering our 40th year of business history in the Pacific Northwest. In making this statement, it is not our desire to point out the growth we have made but rather to make plain the fact that we know and recognize the fundamental basis of business success. The buyer must receive full value for his money, and a fair and square deal in every transaction.

In no department is this policy so manifest as in our used car department. Buyers have found that we handle used cars in a new way. We maintain a special department in our shop for overhauling and refinishing used cars. We put our cars in serviceable condition—many of them look and run like new. All of them are genuine bargains at our prices. We will take light cars in trade and make convenient terms. Before you buy any car come and look over our select stock of high grade low priced used cars.
