Often times 'tis the kidney's fault. That's why Doan's Kidney Pills are so effective.

Many Oregon City women know this. Read what tone has to say about it. Mrs. J. W. McConnell, 1515 Washington St., Oregon City, says: "I am glad to say a good word for Doan's Kidney Pills as I know they will do what is claimed for them. I have used Doan's when my kidneys were out of order and I had dull backaches and a soreness over my kidneys. The action of my kidneys was irregular, too, but Doan's Kidney Pills bought at Huntley's Drug Company soon relieved the trouble. The backaches left and my kidneys were regulated."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McConnell had. Foster-Milburn Co., Mrs., Buffalo, N. Y.—Ad.

Happenings of Interest in the West Linn High as Told by Its Students

NOTED CARTOONIST AT WEST LINN, FEB. 22

Combination Philosopher, Cartoonist and Clay Modeler is Popular Platform Star.

Pitt Parker, the noted Boston cartoonist, crayon wizard, clay modeler and philosopher, who is to appear at West Linn on the evening of February 4th, at the Union High school, is not only one of the most unique figures of the platform, but is also one of the best cartoonists of the day.

He gives a great lecture—in itself—and for good measure he throws in some very clever cartoon work. His cartoons are not simply "funny pictures"—they are everything a cartoon should be, an up-to-date sketch portraying some phase of current life or opinion. And then comes Parker's clay modeling, a diversion from the usual cartoon program and feature which is always thoroughly enjoyed. Critics have said that Parker excels in his colored landscape work. He has been spoken of as the "picturizing philosopher" and some of his quaint epigrams have been widely quoted. There is a purpose in his work—it is much more than entertainment—and each of his programs is closely correlated to some philosophical theme pertaining to the present or future.

Parker says he loves his work. He should, for the public certainly likes him. His coming lecture and chalk-talk here is already arousing much interest in local circles.

The second semester work has started with a rush; students and faculty are all enthusiastic concerning the last half year's work. A number of new students have enrolled, bringing the enrollment for the year up to 180. At a student body meeting last week, Mr. Gary summarized the achievements of the first semester and predicted that the remainder of the year would be equally as successful; all of the faculty members were called upon for short addresses, and all were well satisfied with the work done in their various departments. Three new classes were added to the curriculum for the second semester: Solid geometry, physiology and penmanship and spelling.

A faculty committee has been appointed by the principal to decide upon a system of awards of scholarship; the plan is to give those students who attain excellence in their studies a letter in recognition for their work. The official letter award of the student body has been changed from a block W. L. monogram to a large block gold U. for athletic events. Those who represented the school in oratory and debate will be presented with a gold pin.

The football team and their young lady friends had their annual banquet last Wednesday evening at the Congregational church banquet room, following which the official letters were awarded and speeches appropriate to the occasion were made. Those who were presented with letters for football during the past year were: Herbert Backus, Walter Bingham, Sidney Brown, Egbert Donnelly, Leonard Green, Jack Shaw, Gordon Hammett, Fred Healdale, John Horan, John Michels, William Mootry, George Pepon, Arleigh Read, Denny Wallace and Coach Ernest Larlos.

Following the banquet the team elected their captain for the coming year, Egbert Donnelly, dashing full-back, of the Green and Gold team will pilot next year's team. With practically the same lineup for the next year the team will work hard to live up to the record established this year, eight decisive victories and one tie game with Lincoln High school of Portland.

The Green and Gold basketball team has started off with a fine record, they have played three inter-scholastic games of their school's and have won two and lost one, 43-6; and lost to Molalla high, 29-11. Coach Davis has worked out a series of brilliant plays and the team will give a good account of themselves before the season is over.

For the first time in the history of the school, West Linn will have an inter-scholastic girls game of basketball. The girls will play two games one at Oregon City with the O. C. H. S. girls' team and one at West Linn with the same team. The first game will be played on the evening of February 1, when the two boys' teams meet in their initial game. Miss Helen Leathers is coaching the girls.

West Linn's debating season opens Friday evening, when they meet Oregon City and Park Rose high schools in a triangular debate. The negative team will debate the Park Rose affirmative team in Portland, while the U. H. S. affirmative team will meet the O. C. H. S. negative team at the home hall. The motion to be debated is an intensely interesting one: "Government Ownership and Management of the Railroads." Both teams have been working hard in preparation for the coming debates. The
