

Watch Carlessness

Nobody deliberately allows his watch to fall—or intentionally abuse it.

But thousands allow their watches to run, or TRY to run, when they ought to be laid up for repairs.

What is the result?

Permanently injured watches.

We maintain a perfectly equipped department here. It is no trick at all for us to handle all kinds of repair work.

We can start working for you almost any minute you say.

Test our ability to render our good service.
