## Brunswick PHONOGRAPHS AND RECORDS Records

It is our pleasure to announce Brunswick Records for sale, another super-product by the "House of Brunswick"—artistic companions of Brunswick Phonographs.

They are made under the direction of great interpreters—men who have the power and faculty of developing musical selections as the composers would have them played.

Just as there are directors for the opera, the stage, the orchestra, Brunswick has directors for records. Thus Brunswick Records unite the talent of the artist with the genius of the composer.

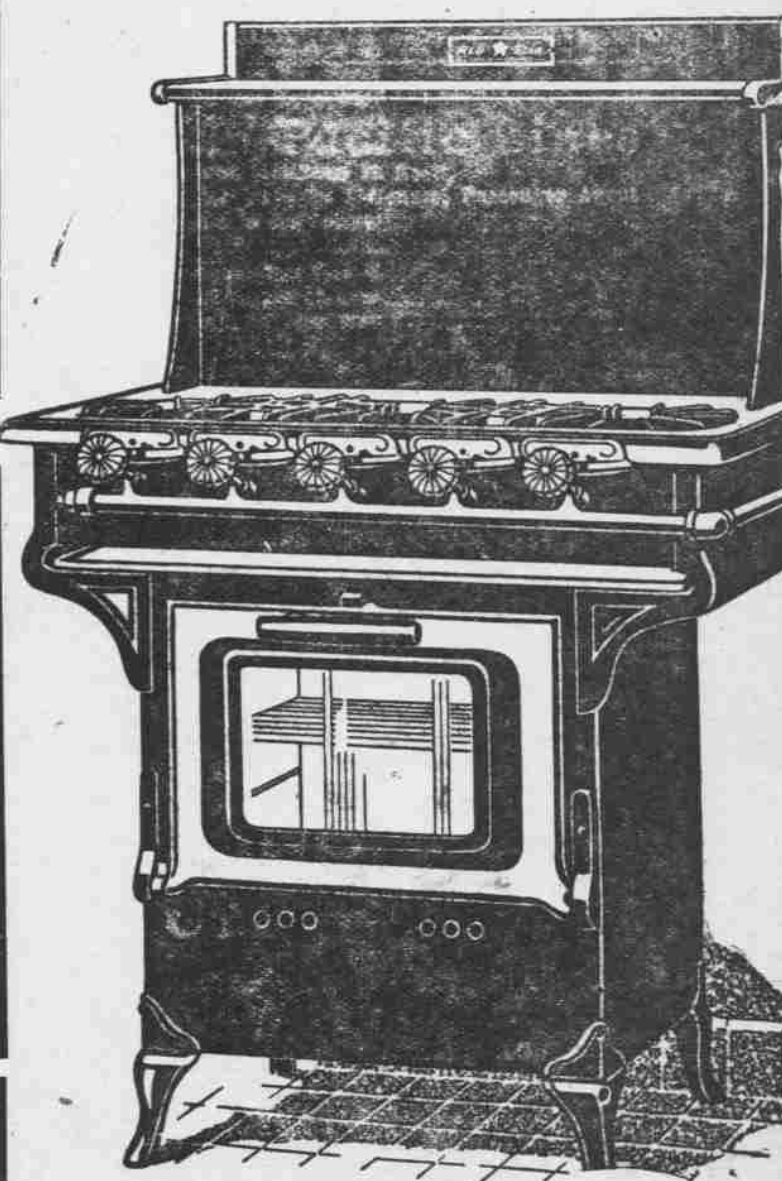

This means that each Brunswick Record is not only the work of some accomplished artist, but is accompanied by the shadings of a renowned director.

This is why Brunswick Records rise above the qualities most records have in common.

Come in—choose the records you want compared. No obligation to buy—a musical treat is in store for you.
