Get a Genuine Willard Battery For Your Home Light Plant

There's no question about the ability of Willard Batteries to give long service, and thorough satisfaction. Made in the same factory and to the same standards as Willard Automobile Batteries.

Furnished complete either with wood insulation or Willard Threaded Rubber Insulation.

CON HILGERS

12th and Main Oregon City

The Willard is Able— Powerful—Tough—and Cold Weather Proves It

There's ability, power and toughness aplenty in Willard Batteries—because of the careful working out of each and every detail of battery design—because of unusually painstaking workmanship—and finally because of the Willard Threaded Rubber Insulation that protects the plates and guards you, the user, against the annoyance of having your battery reinsulated.

The best indication of Willard excellence is the list of the builders of 192 makes of cars and trucks who use Willard Batteries as original equipment, and all of whom have standardized on the Willard Threaded Rubber Battery, paying an additional price for the additional value.

These 192 car builders use Willard Threaded Rubber Batteries
