# MONTHLY TRADE BUILDING BULLETIN

Bringing To You A Message of Real Savings

For the Home, the Home Builder, the Carpenter, the Mechanic and the Farmer

# HERE IT IS!

These Prices Are Subject to Stock On Hand Only.

Our monthly Trade Building Bulletin No. 2—bringing to you the good news of lower prices you have been waiting and watching for. We are out to break the backbone of high prices and give the people of Oregon City and surrounding territory the benefit of concessions now being made by wholesalers and manufacturers which enables us to offer new high-grade, dependable merchandise for the home, the homebuilder, the carpenter, the mechanic and the farmer at prices within the reach of all.

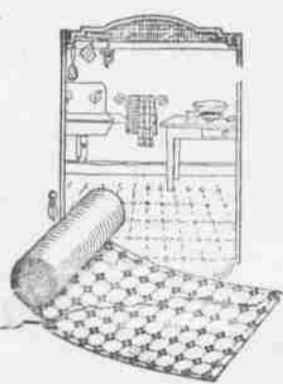

Our trade building campaign to bring about lower prices calls for courage, and in doing it we take the lead as our patrons always look for and expect us to do.

Our first Trade Building Bulletin issued last month has brought a wonderful response to our new lower price movement. We were first to give you lower prices—we are keeping up the good work—it is gratifying to hear people remark that immediately following our downward price movement that some stores reduced prices on a few articles but still maintained high prices on goods bought at wartime prices.

As for our part we had no example and no inspiration other than that which came from within ourselves and which for sometime has been the policy of Busch & Sons store.

Since issuing our first Trade Building Bulletin, thousands upon thousands of dollars worth of new merchandise has arrived, and we now proclaim for this month values that have not been approached for many years.

No!—This is no special sale, but these values represent our new lower prices which will prevail while quantities last, and we have purchased liberally in order that there will be no disappointments to any one regardless of how many miles you have come to trade at Frank Busch & Sons store—and—truthfully, let us say it will pay you to come miles and miles to trade at this store.

We have just received a large factory shipment of heavy cork filled linoleum with genuine burlap back. This linoleum comes 12-ft. wide and is of exceptionally fine quality, it will resist the hardest wear.

**The Hardie Spray Pump**

For Perfect Spraying

The Hardee Wheel Outfit is designed to meet a long felt want by fruit growers and gardeners who want to work without the aid of a team or extra man. You can do your own spraying with a Hardee Wheel Outfit.

The 30 gal. barrel is mounted on strong wrought iron wheels 26-in. in diameter with 1 1/2 in. tires, the solid steel axle passes clear through the barrel and is leaded into special castings on either side making a strong serviceable machine.

Price Complete **\$32.50**

**IT'S TIME TO SPRAY**

The time for spraying dormant trees for San Jose Scale, other Scales, and for other insect pests is right now before the buds begin to swell.

Generally speaking, only those insects are destroyed which actually come in contact with the spray, so thoroughness is essential. By spraying now there is no foliage to hinder and the application may be more thorough. Also the spray may be used much stronger than during the growing season. And also danger to growing buds and twigs is eliminated.

Glidden Dry Lime-Sulphur

In the accepted dormant Spray and one thorough dormant treatment each year will keep under control the more important scale insect pests of the orchard. Lime-Sulphur may be had either dry or in liquid form but the dry form is more convenient and less expensive to handle and is now generally used.

1-lb., \$3.30; 5-lbs., 1.25; 10-lbs., 2.00; 25-lbs., 3.90; 50-lbs., 7.35; 100-lbs., 13.00—10 to 14 pounds of strong Dormant Spray.

Do You Need a New  
**RANGE?**

Here is your chance  
**\$47.50**

Extra Large Steel Range with warming closet

This Steel Range is in a class by itself, and no one has yet been able to offer an article that contains as much real value for the money.

The range is light in weight, without being lined, but weight is used where weight is needed, and the construction and workmanship are of the highest type and practically the only difference between this range and the higher priced ones is the weight of the steel used. COPPER BEARING steel is used throughout in its construction.

**A New Dresser**

for your bed room, only

**\$8.95**

Made of selected fir, beautifully finished in golden oak. 16x20 mirror, you can't afford to be without one at that price.

(No extra charge for shipping)
