Editor Robinson Neighbor Robinson has an idea that the Portland Commercial club, 1925 committee or any other organization could profit from and by which the state of Oregon could be benefited greatly.

He proposes to travel from 6 to 9 months; visit the actual farmers direct; the small towns and cities; the "Home Paper" printing offices; camp grounds, etc. . And he says we would see more "press comments" and receive more inquiries from real home seekers and farmers from hamlet and city, from coast to- coast than Frank Branch Riley ever dreamed of. He tells us he has submitted a proposition to the 1925 Fair committee.

And here is "dollars to doughnuts" that neighbor Robinson will do if given the opportunity, just what he says he wil Ido-and then some more -honest-to-goodness boosting for the fair, for Oregon and for all of us.
