Oregon City

**Try Your Home
Town Merchant First**

Has it ever occurred to you that every dollar spent for goods with outside concerns for clothing, dry goods, hardware, groceries, farm implements and utensils, automobile tires and parts—in fact, anything which might be purchased at your home store—is taking necessary money away from the local manufacturers and dealer? Money which, if expended at home, would help the merchant to expand his business, increase the variety of his stock, employ more help, keep more money at home to develop the city, and create more employment for the betterment of local conditions.

Several issues are at stake in this "Buy At Home" idea. The merchant is not the only one affected by the thousands of dollars taken annually from local circulation. It affects as well, the manufacturer and banker. It is a duty to help conserve local industries. Outside concerns are reaping thousands of dollars from our city and rural purchasers, and it is safe to say that in most every case a purchase from your local dealer would be of more advantage and benefit to you. Make "BUY AT HOME" your slogan, when and where possible.

Who is depended upon to support public enterprises, the local manufacturer and merchant or concerns a thousand miles away?

Public money expended in another city or state for commodities available here retards development of local resources and industries.

To stimulate interest in the Buy at Home idea, the Banner-Courier will pay a total sum of \$25 for the best letters on the subject.

Why You Should Buy at Home

First Prize \$15.00
Second Prize \$7.00
Third Prize \$3.00

Fourth, Fifth and Sixth Prizes, a one year's subscription to the Banner-Courier each.

This contest is open to all residents of Clackamas County.
Contest closes June 22. Now get busy and send in your letters.

THE DRAGON

I am more powerful than the combined armies of the world. I have destroyed more than all the wars of the world. I am more deadly than bullets, and I have wrecked more homes than the mightiest of siege guns. I steal in the United States alone over \$500,000,000 each year. I spare no one, and I find my victims among the rich and poor alike; the young and the old, the strong and the weak, widows and orphans know me. I loom up to such proportions that I go into every corner of the earth leaving behind me the destroyed homes, factories, ships, cities or anything that may get in my path. I am your worst enemy, but yet few take the necessary precaution to avoid me.
