NOTICE

Notice is hereby given that the City Engineer of Oregon City has filed with the undersigned a written certificate to the effect that the paving of Sixth Street thereof from the Westerly line of Railroad Avenue to the Easterly line of Main Street has been fully completed by W. D. Andrews Construction Co., and the City Council has set Saturday the 20th day of May 1922, at 7:30 o'clock P. M., when the acceptance of said street will be considered by the Council. All persons affected by the said improvement are hereby notified to file any objection to such acceptance in writing with the undersigned on or before said time.

C. W. KELLY,
Recorder.

NOTICE

The Clackamas County Jersey Cattle Club will hold its next meeting at the home of A. D. Gribble, 4 1/2 miles south of Canby on Saturday, May 13 at 10:30 a. m. The work of selecting a county herd for the State Fair will be taken up. Three prizes are to be awarded. 5-4-t.

NOTICE TO CONTRACTORS

On or before May 20th, 1922, at 10 o'clock A. M., the City of Oregon City will receive bids for the following street improvement:

Harrison Street from the South side of Seventh Street to the South side of Division Street, approximately 1643 cubic yards of excavation, 211 cubic yards of macadam, 990 lineal feet of concrete curb, 333 lineal feet of four foot concrete walks, 648 lineal feet of six foot concrete walks.

Harrison Street from the South side of Sixteenth Street southerly to the South side of Fifteenth Street, approximately 280 cubic yards of excavation, 143 cubic yards of macadam, 342 lineal feet of concrete curb and 343 lineal feet of four foot concrete walk.

Fifteenth Street from the Northwest corner of Fifteenth and Harrison Streets easterly to the west side of Division Street approximately 1122 cubic yards of excavation, 983 cubic yards of macadam, 3972 lineal feet of concrete curb and 2316 lineal feet of four foot concrete walk.

Division Street from the Westerly line of Molalla Avenue to the Easterly line of Harrison Street, approximately 592 cubic yards of excavation, 260 cubic yards of macadam, 1232 lineal feet of concrete curb and 601 lineal feet of four foot concrete walk.

John Adams Street from the North side of Eleventh Street to the South side of Twelfth Street, approximately 182 cubic yards of excavation, 182 cubic yards of fill, 600 sq. yards of concrete, 508 lineal feet of six foot concrete walk, 532 lineal feet of concrete curb.

Contractor to furnish all material and labor and lay same in accordance with the plans and specifications thereof, now on file in the office of the City Recorder.

SOCIETY

Last Saturday night some friends surprised Mr. and Mrs. S. McDonald by arriving at their home with well filled baskets. The cause of all this was the wedding anniversary of Mr. and Mrs. McDonald. A jolly good time was had. There were five couples with their families, Mr. and Mrs. Roy Cox, Mr. and Mrs. Nick Humphys, Mr. and Mrs. Frank Schoenborn, Mr. and Mrs. Ben Hayhurst and Mr. and Mrs. Ralph Cawkins.

Time To Spray

Losses through controllable pests reach millions of dollars yearly

A fraction of this amount would buy enough spray to wipe out the entire loss. Sherwin-Williams make a complete line of insecticides in dry powder form to control Scale, Fungous and Insect pests. Sherwin-Williams insecticides do not deteriorate, there are no water-costs or losses through leaks and freezing. They are bought in tremendous tonnage throughout the country and are constantly re-ordered in larger quantities.

S-W Dry Powdered Arsenate of Lead

is the standard of power and safety throughout the country. It contains 30% to 33% arsenic oxide and less than 1/2 of one per cent water soluble arsenic. These proportions give maximum poisoning power and killing strength, but make this brand so safe from burning that it can be used freely and thoroughly without risk to tender foliage or fruit.

The systematic use of S-W Dry Powdered Arsenate of Lead will make vigorous trees, increase yield, improve grade and materially help to command the highest market prices on all produce from orchards and gardens.

Price of Arsenate of Lead is so reasonable no one can afford to neglect spraying.

1/2 lb. 25c 1 lb. 40c 4 lbs. \$1.00
1/2 lb. makes 25 gallons of spray

A Serious Purchase, Mothers Say

Highest Musical Authorities

Educators high in the musical world now caution the importance of phonographic music that achieves true renditions, in homes where there are children.

They point out the danger of spoiling a child's "ear" for music by false tones and incorrect interpretations. And they say that "musical sense" in after-life—the unmistakable mark of a cultured person—is largely dependent upon the quality of music, heard in the home during the impressionistic years of childhood.

Hence, that in phonographic reproduction, the tones of the piano, the violin and other musical instruments must be distinctly true and those of the voice given fullest expression without mechanical discord.

SO ALL WERE TESTED

For that reason, all phonographs, all records, have been weighed on the delicately balanced scales of musical knowledge. Have been tested and compared.

And in the homes of greatest musicians, both in Europe and America, you will find Brunswick—the musical world's accepted ideality in phonographic expression.

The Brunswick plays all makes of records, and Brunswick Records can be played on any phonograph. Hear, compare—then judge for yourself.
