**STRAIGHTENED WITHOUT  
OPERATION OR PAIN**

When children's eyes become crossed one of them performs the visual function while the other one lies idle. When and organ ceases to function for several months or years weakness is one of the bad results.

Eyes that are straightened by my methods are gradually developed so that the weak eye takes up its work in a natural way and through proper exercise becomes strong once more. Do not hesitate to have your child's eyes carefully examined and cared for before too much damage has been done to the delicate muscles and nerve structure. Good results assured, as a result of 19 years practical experience.

THERE IS NOTHING THE MATTER WITH OREGON EXCEPT: That entirely too many of us get up in the morning at the alarm of a Connecticut Clock, button a pair of Ohio Suspenders to Chicago Trousers, put on a pair of shoes made in Boston, wash in a Pittsburg Tin Basin, using Cincinnati Soap, and a cotton towel made in New Hampshire; sit down to a Grand Rapids Table, eat pancakes made with Minneapolis Flour, and Kansas City Bacon fried on a St. Louis Stove; buy fruit put up in California or New York, seasoned with Rhode Island Spices, put on a hat made in Philadelphia, hitch a Missouri Mule fed on Iowa corn in a Vermont Harness to an Ohio Plow and work hard all day long on a farm covered with a Massachusetts Mortgage; send our Fire Insurance Money to San Francisco, Hartford, London or Shanghai, and at night crawl under a New Jersey Blanket and be kept awake by a dog—the only home product on the place—wondering all the while why ready money isn't more plentiful.

**WHY NOT KEEP MONEY AT WORK IN OREGON.**  
To stimulate interest in this in this idea, the Banner-Courier will give \$25 in prizes for the best letter on

**Why You Should Buy at Home**

**First Prize \$15.00**  
**Second Prize \$7.00**  
**Third Prize \$3.00**

Fourth, Fifth and Sixth Prizes, a one year's subscription to the Banner-Courier each.

**THE DRAGON**

I am more powerful than the combined armies of the world. I have destroyed more than all the wars of the world. I am more deadly than bullets, and I have wrecked more homes than the mightiest of siege guns. I steal in the United States alone over \$500,000,000 each year. I spare no one, and I find my victims among the rich and poor alike; the young and the old, the strong and the weak, widows and orphans know me. I loom up to such proportions that I go into every corner of the earth leaving behind me destroyed homes, factories, ships, cities or anything that may get in my path. I am your worst enemy, but yet few take the necessary precaution to avoid me.

**Story of Electric  
Light Told on Film**

So closely associated has been the name of Edison with the development of electric light that most persons would probably credit the wizard of East Orange with being the inventor of this form of illumination. The electric light, however, had its beginning many years before the name of Edison was known. This is one of the interesting facts brought out pictorially through the Willard series of educational films which are being screened regularly at the Liberty theater.

The film for this week is "Charcoal Light." It deals with what was virtually the beginning of the electric arc lamp early in the last century. The central figure in the story is Sir Humphrey Davy, a Cornish scientist, who conceived the idea that a brilliant light could be produced by heating charcoal to an intense degree. How he worked out his idea to a gratifying end is pictured with evident attention to detail both as to character and sets.

As was the case with the other Willard films presenting outstanding figures in the history of electrical development, researchers were made to provide complete data regarding the appearance of the principal character, and the apparatus with which he worked. Then an actor was selected who could make up to look like Sir Humphrey Davy, while properties were obtained from museums, private collections or otherwise to make the representation authentic. Everything shown in the films is as nearly accurate in its appearance as careful staging and directing could make it.

**Which Country?**

Diner: Ham and eggs, country style, please.  
Walter: I have traveled all over the world, so you will have to be a little more specific.—Wayside Tales.

**Sh! Sh**

The birthday parties bore them,  
The ladies all say,  
They'd rather keep their birthdays  
Than give them away.  
—Wayside Tales.

**Quality Printing**

The impression your printed message will make depends on the skill and knowledge of the Printer.

We are proud of the quality of every job that leaves our shop. It is the result of thoughtful care and years of experience.

Let us co-operate with you on your next printing job. You'll like our work and our prices.
