Action Speaks Louder Than Words
After many months of talk as to better roads, it is the property owners in Northup Acres and Kilpatrick Collins Tracts who have stopped talking and taken up their shovels. Full of enthusiasm, they attacked what was, in name only, known as Ninth Street, but was in reality a quagmire full of unsuspected pitfalls. When the Unwise "Flash a Bill Roll" The Wise "Flourish a Fountain Pen"

That's merely the difference between the man who plays in actual cash and the one who pays by check. One laboriously counts out money and waits for his change; the other writes the exact amount on a check and is through without delay. The pay-cash-man must wait for a receipt, for the other the cancelled check is a receipt. Save time and worry by opening an account with this Bank and pay by checks.

THE PEOPLE'S SAY
An Open Letter to the Voters of Clackamas County

It is the consensus of opinion of the people that there is a surplus of commissions in the state and an unnecessary expense of maintenance and increased taxation and every taxpayer feels the burden. Farmers cannot rent their land for enough to pay their taxes. We expected help from the last legislature, but they increased the burden. We also expected a decrease in county expenses

and there is still a surplus of clerks in most offices. Well, the remedy is in the voters' hands for if we keep sending lawyers to the legislature and representatives that do not represent the whole state and the corporations, we will always get it in the neck. Vote for farmers and business men and pay them enough to pay their expenses and have them cut the salaries of the state and county officers to a pre-war basis and exclude all lobbyists from the state house. From one who believes in honesty and purity in public and private affairs and has no ax to grind.
H. S. CLYDE.

A NEW MAN and NEW DEAL

Why we are Fighting for GEORGE A. WHITE for GOVERNOR

He stands for Immediate action in cutting down the overhead cost of state government at least \$1,000,000.00 at the next legislative session.

He stands for immediate action in taking all the Boards, Commissions, and Scattered Functions of Government that have been springing up for the past quarter of a century, and welding them all, including the public service commission, into not more than ten responsible and efficient Departments accountable to the Governor who is responsible to the people.

The state of Washington did this last year, clearing up the governmental debris of thirty years, and the saving to date has been more than \$4,000,000.

He will battle to a finish against the Ownership or Leasing of our lands to the Japanese or Other Orientals.

He opposes adding to the state's crushing bonded indebtedness at special elections.

His Record as an executive Guarantees action on the pledges in his platform.

An incident of his good faith in rigid economy in public affairs: He had \$140,000.00 of the public's money for use in mobilizing the state's manpower and resources for the World War in 1917. In

those days when wild extravagance was the rule the country over he put Oregon First of all states in every emergency and when the job was done five months later instead of asking a deficiency appropriation he turned over \$90,000.00 in unexpended balance. Oregon's per capita cost for the state war census and draft organization in Oregon before he volunteered for overseas service was the lowest of any state in the Union, except Minnesota.

Upon resuming his duties as a public official after the war he declared the Naval Militia, as it then existed, an unwarranted expenditure of the taxpayers' money, disbanded it at once turned its appropriations back to the state.

He has never created a Deficiency and last year operated the state's Military Department for \$79,975, an amount which is less than the sum appropriated for the year, and in return brought into the state \$199,052.00 in federal funds for distribution among 2400 members of the National Guard of Oregon.

George A. White is a candidate for Governor on the urgent demand of thousands of Oregon's best citizens throughout the state. He is fearless of, and unfettered by, trusts, corporations, or any influences adverse to the interests of all the people.

A Vote for White for Governor is Your Chance for a New Deal, a Square Deal and an Economical Reorganization of the Governmental Affairs of the State.
