When Sending Money Away

Remember This:

The farther you send your money away from home the longer it will take to get it back. Can you imagine how long it would take a Mail Order house to spend a dollar in your town.

The story is told of a farmer who went into his local hardware store and asked to see a lantern. The dealer showed him one and quoted a price of \$1.75.

"That's too much," said the customer, "I can get that same lantern at a mail order house for \$1.35.

Well, if that's the case, I'll let you have it for that price, but I'll ask you to pay me the five cents you would pay for the money order and a stamped envelope, and the fifteen cents postage required to bring it here making a total of \$1.55.

"Now," the dealer said "this sale is cash in advance, for that is what the mail order house would require. He was paid the amount and after he had deposited the money in his cash register he hung the lantern back on its hook with the remark: "The delivery will be made in eight days, the same time it would take to get it from the mail order house."

The customer quickly saw the point and handed over the remaining twenty cents.

THE DRAGON

I am more powerful than the combined armies of the world. I have destroyed more than all the wars of the world. I am more deadly than bullets, and I have wrecked more homes than the mightiest of siege guns. I steal in the United States alone over \$500,000,000 each year. I spare no one, and I find my victims among the rich and poor alike; the young and the old, the strong and the weak, widows and orphans know me. I loom up to such proportions that I go into every corner of the earth leaving behind me destroyed homes, factories, ships, cities or anything that may get in my path. I am your worst enemy, but yet few take the necessary precaution to avoid me.
