A Business Proposition

Laying aside all sentiment and getting down to hard, cold business facts, it pays to trade at home. Oregon City merchants buy advertising space in the local newspapers because in terms of hard cold cash it pays. Oregon City people should patronize their local merchants for the same reason. No business man has a right to solicit patronage on any other basis. If you can not get what you want in Oregon City, at prices which are reasonable, no one expects you to trade here, but, you should try your local merchant first.

You will find a quality of service, of personal attention and consideration not obtainable in a mammoth department store where a clerk is a mere cog in a vast machine. You will find real bargains in merchandise whose business life depends upon the which is backed by the merchants w service they render.

Every dollar spent at home means that much more money in local circulation. Every dollar spent in Portland means that much money taken away fro mOregon City and added to Portland's circulation. How much money do Portland merchants contribute toward the welfare of Oregon City. If you believe in Oregon City get behind and boost—Give your local merchants the first chance.

THE DRAGON

I am more powerful than the combined armies of the world. I have destroyed more than all the wars of the world. I am more deadly than bullets, and I have wrecked more homes than the mightiest of siege guns. I steal in the United States alone over \$500,000,000 each year. I spare no one, and I find my victims among the rich and poor alike; the young and the old, the strong and the weak, widows and orphans know me. I loom up to such proportions that I go into every corner of the earth leaving behind me destroyed homes, factories, ships, cities or anything that may get in my path. I am your worst enemy, but yet few take the necessary precaution to avoid me.

State-owned industries, state-owned
lands, state-owned men and women,

seems to be the dream of Socialism.

The question to be decided is, will
we pay a subsidy and build up anew
a merchant marine, or will we allow
the commerce of the world to be con-
trolled by our competitors?—Omaha
Bee.
