Union HIGH SCHOOL NOTES

Jack Hempstead

Last Assembly Held Tuesday

The last general student assembly of the year was held in the high school auditorium Tuesday morning, May 23rd. The main event of the meeting was the awarding of basketball letters to the boys' and girls' basketball teams. Those receiving the awards were: Genevieve Furness, Margaret Pepon, Mary Zantker, Marie Bittner and Blanche Junken, girl basketball players; and George Pepon, Raymond Montgomery, Gurnie Cronor, Gordon Hammerle, members of the boys' team.

A few players who earned the official basketball U were absent. The baseball boys will receive their rewards probably Saturday night at the commencement exercises.

Short farewell speeches by all members of the faculty were a feature of the assembly. Miss Mildred McKilligan, president of the student body also gave a short talk as did Gurnie Cronor next year's president.

Before school again took up, the school participated in an enthusiastic serpentine.

Sophomore Boys Win From Rooks
The Sophomore boys evened up the score which they had against the Freshmen because of the defeat administered them in the annual Soph-Fresh baseball game, by defeating the Rooks badly on the diamond last Wednesday afternoon. Score: Sophomores 8, Freshmen 1. Batteries were: Sophomores, Brown and Hickman; Freshmen, Green and Willson.

Midget Girls Team Defeats Gladstone
In a game played on the Gladstone grammar school diamond the same day as the Soph-Rook contest, the U. H. S. girl midget baseball team won from Gladstone's fair team.

Students Preparing for Finals
The last six weeks examinations will be given Wednesday and Thursday of this week and there will be no school Friday as the faculty will use the time to grade the papers and fill out the report cards which the

students will receive Monday, May 29th.

400 Attend Class Day Exercises

The Senior class day exercises were given Monday evening in the high school auditorium before a crowd numbering approximately four hundred. The usual custom of having each class put on a part of the program was abandoned and the seniors had complete charge of the affair. The program was previously scheduled to take place Friday but was postponed because of the election.

Besides a comic skit put on by the class, there was a solo by Eugene Vedder. The class will, history, prophecy, etc. were read by individual members.

Canby, Ore., May 24—(Special)—The marriage of Miss Anna Smucker, of Aurora, and John Bany, of this city, was solemnized in Oregon City on Monday afternoon, when Mr. and Mrs. S. W. Bany, of Canby attended the young couple.

Mr. Bany and his bride are to make their home in this city.

The bride who has visited in this city on many occasions as guest of her sister, Mrs. Yoder, is the daughter of C. C. Smucker, prominent resident of Aurora, and Mr. Bany is the son of well known residents of Canby.

Austin Newell

Austin Newell, who passed away at his residence near Damascus, Tuesday, May 16th, was born in Ashtabula, Ohio, May 1844 being near the age of 78 years. He came to Oregon in 1874 residing near Oregon City for seven years where he was united in marriage to Mary Ella Howland in 1878. He then moved to Damascus where he lived continuously until the date of his death.

He is the son of Thomas Newell of Ashtabula Ohio, and is survived by his wife, six children, one grand child, one great grand daughter and one sister of Des Moines, Iowa.

Brother Newell was always a good citizen loved and respected by all who knew him. He was a good Templar when that society first came to Ore-

gon; a charter member of Damascus Grange and a continuous active member, believing and living the sterling life the grange principles teach. His stock and surroundings show us his true Christian character.

SUMMONS

No. 16992
In the Circuit Court of the State of Oregon for the County of Clackamas Barbara Hetner, Plaintiff,

vs.
Carl F. Morrow and Anna Morrow, his wife, Defendants.
To Carl F. Morrow and Anna Morrow, his wife, the above named defendants:

In the Name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled suit within six weeks from the date of the first publication of this summons, and if you fail to so appear and answer, the plaintiff herein will take a decree against you for the relief prayed for in said complaint, to-wit:

That the mortgage described in plaintiff's said complaint upon the following described real property situated in the County of Clackamas, State of Oregon.

All of the Southwest Quarter (SW¼) of the Southeast Quarter (SE¼) of Section Twelve (12), Township Three South (Twp. 3 S.) of Range Two East (R. 2 E.) of the Willamette Meridian, containing forty (40) acres,

be foreclosed, and that plaintiff may have and recover of and from defendant Carl F. Morrow and Anna Morrow, his wife, the sum of three thousand six hundred (\$3,600.00) dollars, with interest thereon from the 20th day of December, 1921, at the rate of six per cent per annum, and the further sum of \$400.00 to be allowed plaintiff as a reasonable attorney's fee herein.

This summons is served upon you by publication by order of Hon. J. U. Campbell, Judge of the above entitled Court, dated Oregon City, Oregon, May 25, 1922, directing publication thereof in The Banner-Courier, a newspaper of general circulation published in Oregon City, Clackamas

Hides—calf, 8c per lb.; kip 4c per lb.

Where the Radio Noises Come From

Anyone who has listened in on a radio set during the approach of a thunder storm has little new to discover in the way of frying, hissing, bubbling and sputtering noises. It is only natural for the listener to wonder where they all come from.

In general there are just two kinds of radio noises; the ones that can't

be avoided and ones that can. In the first class are all of the natural ones that result from electrical disturbances in the ether, through which all radio waves travel. It must be remembered that these waves follow the same laws and behave in exactly the same manner as the waves created "to order" by man-made machinery.

The second class of noises is the result of faulty wiring, or in many cases imperfect or improperly constructed batteries. Wires must be tight. It is for this reason that so many radio sets take special care to solder all joints even though binding posts provide a seemingly tight grip on the wires.

An important feature of the "B" or 24-volt battery for example, is that it must be able to hold its charge for long periods not only because of economy, but because electrical leakage from cell to cell or from positive to negative posts of any particular cell is distinctly a noise producer. It is to prevent this disturbing effect that the Willard Storage Battery Company, has developed a form of "B" battery in which each cell is a glass jar capped with a special screw top and separated from its neighbors by compartment partitions. It is said that the leakage and consequently the possibility of "B" battery noises is practically eliminated.

THE ELSON Manufacturing Co.
