All three are needed in fitting comfortable glasses. There are many kinds of bifocal lenses and each style has one or more good points which adapt it to special uses. Kryptok bifocals are the only invisible ones known to science today. When you come to me for bifocal service, each style is carefully demonstrated and you are aided in the selection of the one best suited to your needs.

A Business Proposition

Laying aside all sentiment and getting down to hard, cold business facts, it pays to trade at home. Oregon City merchants buy advertising space in the local newspapers because in terms of hard cold cash it pays. Oregon City people should patronize their local merchants for the same reason. No business man has a right to solicit patronage on any other basis. If you can not get what you want in Oregon City, at prices which are reasonable, no one expects you to trade here, but, you should try your local merchant first.

You will find a quality of service, of personal attention and consideration not obtainable in a mammoth department store where a clerk is a mere cog in a vast machine. You will find real bargains in merchandise which is backed by the merchants whose business life depends upon the service they render.

Every dollar spent at home means that much more money in local circulation. Every dollar spent in Portland means that much money taken away from Oregon City and added to Portland's circulation. How much money do Portland merchants contribute toward the welfare of Oregon City. If you believe in Oregon City get behind and boost—Give your local merchants the first chance.

How Long Will Your Battery Live

It depends on the attention you give it. Your battery needs to be looked over twice a month. Little troubles can then be corrected and you will get the maximum of power out of your battery. We recommend a Westinghouse Battery only when repairs are no longer economical.

THE DRAGON

I am more powerful than the combined armies of the world. I have destroyed more than all the wars of the world. I am more deadly than bullets, and I have wrecked more homes than the mightiest of siege guns. I steal in the United States alone over \$500,000,000 each year. I spare no one, and I find my victims among the rich and poor alike; the young and the old, the strong and the weak, widows and orphans know me. I loom up to such proportions that I go into every corner of the earth leaving behind me destroyed homes, factories, ships, cities or anything that may get in my path. I am your worst enemy, but yet few take the necessary precaution to avoid me.
