- 14 quart size.....44c

The "Florence" AUTOMATIC OIL STOVE

Wickless, Valveless. It Burns Kerosene

No trouble to light it—turn a lever and apply a lighted match.

Burns kerosene with a clean, hot, blue flame. Smokeless and odorless, wickless and valveless.

The 12 inch burner is larger and more powerful than used in any other oil stove, yet a gallon of kerosene will keep one at full heat for about 21 hours.

The powerful burner directs its heat close up under the cooking. Little escapes into the room.

Any heat needed—intense, medium, low—easily obtained by turning control lever.

It bakes, roasts, boils or fries. You can do with it anything you can do with your gas, coal or wood range.

Very simple—nothing to get out of order—easy to keep clean.

It is economical—burns cheapest fuel, and in use only when needed.

It is recognized as the quality product and bears the manufacturer's guarantee.

It will improve the appearance of your kitchen, do your work more quickly and give you more time for the things you like to do.

The Price of the 3 Burner Stove is only
\$24.00

Big 2 Days Factory Demonstration of Alcazar Combination Ranges

Burns Gas, Wood or Coal. See this stove in operation—it is two complete stoves in one unit.

The Alcazar Range represents the highest expression of the stove makers art.

Your old stove taken in exchange. Take advantage of this offer.

Graniteware Cheaper Than Tinware

You can't afford to pass this up. Pearl Gray Enamelware, each piece guaranteed.
