"Flag of the free heart's hope and home!
By Angels' hands to valor given;
Thy stars have lit the welkin dome,
And all thy hues were born in Heaven.
Forever float that standard sheet!
Where breathes the foe but falls before us.
With Freedom's soul beneath our feet,
And Freedom's banner streaming o'er us."
—JOSEPH DRAKE.

A VERY NEEDFUL PRAYER:—
Shew me thy ways, O Lord: teach me thy paths. Let integrity and uprightness preserve me: for I wait on thee.—Psalms 25: 4, 21.

SHOULD BE ENCOURAGED.

Many suggestions aiming at improvement in the next annual historic pageant for Oregon City are offered, and the most of them would be very helpful in making this event one of unusual attractiveness and value to the community.

The place for the band is on the river itself and the band should be the Oregon City band. If stationed on a barge all could see and hear the band, and the organization would be encouraged in its efforts at both service and improvement.

The megaphone should be used to announce the various episodes and adequate policing should be provided.

The banks of the river, now a disgrace in brush, weeds and refuse, but the most natural and beautiful amphitheatre in the country, should be cleaned and put in a condition sanitary and fit for seating. This much to beautify and improve the city should be done whether or not a pageant is held.

Property owners themselves should be required to clean up these banks as a civic duty. If the city will not or cannot legally insist upon such action, it should itself take action. More daylight is another important factor in its success.

It will not be very difficult to provide in the future against the obstacles encountered in the first event and the value to Oregon City and community would be greatly enhanced.

Plans should be laid now and the event encouraged for next year.

SHIP SUBSIDY.

Agitation is constant in Congress and out over the increase of our merchant marine. The president proposes one method and others propose others. That there is genuine demand that the government should encourage the building up of a fleet of trade-carrying vessels there is no question.

That American manufacturers, farmers and other producers must have opportunities better than now for marketing their products in Europe and the Orient is obvious. Now the shipping of this country is in European vessels whose owners have a monopoly on the carrying trade and charge their own prices, which price is in the last analysis paid by the producer. Of course, the shipping nations across the seas use their influence against the passage of the "ship subsidy," for the encouragement of American shipping in American vessels. And their efforts along this line is the strongest kind of argument favoring President Harding's plan of subsidizing merchant marine in order to give it, now almost dormant, a momentum toward becoming a real live factor in the world of commerce.

The United States is an industrial nation—the greatest in the world—and as a matter of both pride and profit should enact immediate legislation to encourage her shipping. The President's plan is the most feasible to date. It is opposed by some on the basis that it will favor the ship owners and purchasers of boats now owned by the government at less than their value. But it will take them out of idleness and put them at work for the nation's shipping. And Congress can and should enact laws which will automatically check undue profits when the business of shipping shall be revived.

Longer delay on this matter is inexcusable. It is a political crime while the nations of the Old World are building up powerful fleets and taking almost entire possession of the seas, and hence our own foreign commerce.

Nine Josephine county schools in which hot school lunches had been established by home demonstration agents in cooperation with the teachers and officers, have made reports. The average time the hot lunch was served in the nine districts was five months, the average number of children served, 158. The cost per child

was from nothing reported to 50 cents a month. Where no cost was reported it was provided by donations of milk and vegetables or community contributions. Parents and teachers say that the hot lunch gave the children renewed energy.

WILSONVILLE

Cliff Murray returned from Corvallis Saturday and is now working in Portland.

Regular church services were held at the M. E. church Sunday evening and Rev. Alfred Bates preached a fine sermon. It is rumored that Rev. Bates will shortly be assigned to another field and Wilsonville will thus lose a pastor who is esteemed by the whole community.

The ladies of the Wilsonville Grange met at Aden's Hall Tuesday night for drill work. Male members were supposed to attend but the harvest and threshing work detained most of them.

Mr. Ira Seeley's house is nearing completion and will be appreciated by the family as they have been compelled to adopt makeshift methods since the fire which destroyed their home. Contractor Chalupski has had several men at work completing the many built-in conveniences which the plans call for and which will make it one of the most attractive homes in the community.

Mr. Mack Say is contemplating moving to Corvallis in the near future, where he is negotiating for a large boarding house for students.

Wallace Wuong is sporting a new "bug" which has been built right here at home and which is a pretty bug at that, and reflects great credit on the skill and taste of the home-talent which produced it. With its disk wheels and bright paint it will become a familiar sight to the residents of Wilsonville and Oswego.

The regular monthly meeting of the Wilsonville Grange was held Saturday, Mr. Homer Kruse acting as Master in the absence of Fred Wiedeman. Routine business was transacted and at noon all partook of a chicken dinner which was voted a great success. During the afternoon session the following resolutions were adopted, in memory of Brother W. J. Flick:

Resolved, That a copy of this resolution be spread upon the minutes of this Grange and a copy be sent to the Grange Bulletin for publication.

W. A. SLYTER, Chairman.

AGNES PETERS,
Committee.
